_____

_____

_____

_____

_____

The applicant must also obtain a statement from their physician explaining the necessity of the disabled parking sign(s). This statement should include such information as the type of disability and whether or not the physician views this as a permanent condition. This DOES NOT guarantee the establishment of the sign(s). As to above needed statement, it could be a Rx-pad type of "note", not a big, typed letter; or could be a copy of that KDOR form your doctor signed for the placard/tag in the first place, the one sent to Topeka or taken to the Courthouse for placard/tag.

READ CAREFULLY

The applicant understands that if disabled parking signs are established: (1) the space may be used by any and all persons displaying the proper license or placard; and (2) the space remains subject to any parking prohibitions that may be in effect in the same block.
