County Administrator's Office
*Unified Government of Wyandotte County/
Kansas City, Kansas*
Doug Bach, County Administrator
701 North Seventh Street
Kansas City, Kansas 66101
(913) 573-5660 • FAX (913) 573-5006

June 8, 2016

To the Honorable Mayor, the Unified Board of Commissioners and Citizens of the Unified Government of Wyandotte County/Kansas City, Kansas:

The Office of the Chief Financial Officer and the Office of the County Administrator are pleased to submit to you the Unified Government's 2015 Comprehensive Annual Financial Report (CAFR).

Management has prepared and is responsible for the financial statements and for the integrity and consistency of other information in the Comprehensive Annual Financial Report. The financial statements, which necessarily include amounts based on management estimates and judgments, have been prepared in conformity with Generally Accepted Accounting Principles (GAAP). Management is responsible for the accuracy, completeness, and fairness of the presented data, including all disclosures. The data, as presented, is accurate in all material aspects. It is presented in a manner designed to fairly set forth the financial position and results of the operation of the Unified Government as measured by the financial activity of its various fund types. It also includes all disclosures necessary to enable the reader to gain an understanding of the Unified Government's financial affairs.

The Unified Government maintains a system of internal controls designed to provide reasonable assurance that: assets are safeguarded; transactions are executed in accordance with the Unified Government's authorization requirements and policies; and transactions are properly recorded to allow preparation of financial statements that fairly present financial position and results of operations in conformity with generally accepted accounting principles. Internal accounting controls are augmented by written policies covering standards of personal and business conduct and organizational structure providing for division of responsibility and authority.

The effectiveness of and compliance with established control systems is monitored through a continuous program of internal controls. In recognition of cost-benefit relationships and inherent limitations, some features of the control system are designed to detect rather than prevent errors, irregularities and departures from approved policies and practices.

Management believes the system of controls has prevented or detected on a timely basis any occurrences that could be material to the financial statements and that timely corrective actions have been initiated when appropriate.

In addition over the past year, the Unified Government Commission reviewed and adopted two additional financial policies which will provide further financial policy oversight and guidance for this government.

The Unified Board of Commissioners has engaged the firm of Allen, Gibbs & Houlik, L.C., independent auditors, to render an opinion on the financial statements. To the best of our knowledge, the independent auditors were provided access to all information and records necessary to render their opinion.

The independent audit of the financial statements of the Unified Government is part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Unified Government's separately issued Single Audit Report.

The CAFR follows the organization, form and content of the revised principles prescribed by the Governmental Accounting Standards Board (GASB), State of Kansas, Unified Government policy, and the Government Finance Officers Association. There are two groups who are primarily responsible for determining current governmental accounting and reporting practices. They are the American Institute of Certified Public Accountants (AICPA), and GASB. The Unified Government of Wyandotte County/Kansas City, Kansas has adopted these reporting guidelines as its policy and complies with them.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Unified Government's MD&A can be found immediately following the report of the independent auditors.

General Information

The Unified Government of Wyandotte County/Kansas City, Kansas was created October 1, 1997, based on a citizen vote to consolidate the operations of the City of Kansas City, Kansas and Wyandotte County, Kansas.

Wyandotte County is located at the confluence of the Kansas and Missouri Rivers and at the crossroads of two transcontinental interstate highways. Two large railroad-switching yards are located in the Unified Government, which is also the base for several truck freight companies. The Unified Government is also the home to the Kansas Speedway Corporation, owners and operators of the 1.5 mile super speedway, which opened in the spring of 2001. The super speedway is located in the northwest corner of the junction of I-435 and I-70.

Government Structure

The Unified Government is the government for both Wyandotte County and the City of Kansas City, Kansas. The governing body of the Unified Government consists of a ten-member Commission and a Mayor/Chief Executive Officer. Eight Commission positions are elected within geographic districts. Two Commission positions cover half of the County; each with candidates selected in the primary election within their district and in the general election on a countywide vote. The Mayor runs countywide in the primary and the general elections. In addition, the Mayor appoints the County Administrator with approval of the Commission. The Commission annually adopts a balanced budget and establishes the amount of taxes to be levied for the support of Unified Government programs. The County Administrator has the responsibility of administering these programs in accordance with policies and the annual budget adopted by the Commission.

Economic Condition and Outlook

The Unified Government is the government for both Wyandotte County and the City of Kansas City, KS. Wyandotte County accounts for a large number of manufacturing, transportation and distribution, including rail, and health care jobs in the metropolitan area. Many of these jobs are high paying and contribute to the positive statistics regarding gross payroll and gross sales. Development remains an important priority for the Unified Government.

The economic outlook for Wyandotte County and Kansas City, KS remains positive. Wyandotte County remains strong in terms of job growth among Kansas City metro area counties as well as nationally. Wyandotte County's growth rate was stronger than the national growth rate. Wyandotte County had a 2.3% increase in jobs between September 2014 and September 2015 which ranked the County 2nd of the six Kansas City Missouri-Kansas metropolitan area cities in the analysis. Nationally, job growth was 1.9% for this period. In 2015, the County saw several major projects covering all sectors of the economy advance. Example of these projects are: auto mall (Fenton Nissan, Victory Chrysler-Jeep-Dodge, Victory Ford) adjacent to Village West area (\$16 million); new elementary school (\$15 million); continued manufacturing & industrial investment - Sunshine Biscuit & PQ Corporation (\$8 million); Kaw Point Industrial building (\$9 million) and completion of phase 2, Prairie View, of the Village West luxury market-rate apartments (\$27 million).

Industrial growth has resulted from the General Motors \$600 million investment in its Kansas City plant. This reinvestment was recently completed. The redevelopment of two adjacent industrial parks is currently underway. An initial building of 80,000 sq. ft. was completed in 2014. This building is occupied by Inergy and is a supplier to the General Motors automotive plant. In 2014, NorthPoint Development began redevelopment of 25 acres of the Unified Government's Public Levee operations, located in the Fairfax Industrial area. NorthPoint initially demolished existing buildings and then built a 396,000 square-foot industrial building to meet current manufacturing and industrial needs. The first tenant in this building is Plastic Packaging leasing 56,000 square feet and Ozburn-Hessey Logistics leasing 56,200 square feet. Additional tenant leases plan to be signed in 2016.

In 2014 it was announced that a \$75 million U.S. Soccer National Training and Coaching Development Center is being planned to be built near Village West. The proposed development will have state-of-the-art facilities for professional soccer athletes; a training facility for coaches and officials; and a 12-field youth tournament complex. Adjacent to the U.S. Soccer facility, Schlitterbahn has additional plans for the creation of new retail stores including an automotive plaza, which began development in 2016 as mentioned above, four restaurant pad sites and a convenience store/gas station. More detail on these projects is discussed below.

These development projects will positively impact governmental revenues, including property, sales, and other revenues. (These projects and other economic trends are further reviewed in this transmittal letter.)

Population

During the 1970's and 1980's, the population loss of Wyandotte County exceeded 6 percent. In the 1990's, the loss was less than 3 percent. The 2000 total for Wyandotte County and Kansas City were 157,882 and 146,866 respectively. Wyandotte County's 2010 Census showed the county's population to be 157,505. This is a modest decline of 0.2% from the Census 2000 population count. Kansas City's population was 0.7% lower in 2010 (145,786) than in 2000. A 2015 Census estimate for Wyandotte County showed a population of 163,369. This is a 3.7% increase in population since the 2010 Census.

Housing and Construction

In 2015, there were 132 single-family permits issued in Kansas City, Kansas, compared to 167 issued in 2014. The decade of the 2000's saw more new single-family building permits (3,098) than any other prior decade going back to the 1960's. The Home Builders Association of Greater Kansas City tracks new housing starts for 69 communities in an eight-county Kansas City area and, in 2015, Kansas City, Kansas ranked eighth among all cities in the number of single-family units added.

The strategic plan developed by the Wyandotte County Economic Council calls for the aggressive marketing of the I-435/K-7 and K-32 highway corridors as a prime development area. Between 2000 and 2015, permits have been issued for the construction of 5,787 new residential units in Kansas City, Kansas. This area of the City has accounted for 3,721 new residential units or 64% of the newly built units since 2000. Examples of current active subdivisions are Highlands at Piper, Piper Landing, Northridge, Delaware Highlands, Freeman Farms and Melrose Gardens. Residential permits issued in 2015 have homes ranging in price from \$80,000 to \$695,000. Delaware Highlands located east of K-7 on State Avenue, saw a high level of construction between 2004 and 2009. This development has attached town homes, duplexes, and detached single-family homes. This is an active subdivision with 32 permits being issued for 22 units in 2015. In 2012, the Delaware Ridge area saw construction begin on an \$11.6 million apartment complex called, Delaware Ridge the Heights. This apartment complex is completed and has 228 units in 17 buildings.

The Unified Government waived building permit, inspection and sewer-connection fees for single-family home construction beginning in September 2012 to spur new home construction, and the waiver will continue until December 2016. The maximum fees waived were \$2,500 per home. Further, the Board of Public Utilities (BPU) waived temporary electricity service, residential water tap and water system development fees through 2013. The BPU fee waivers totaled \$2,775 per home.

Building upon the success of Village West and the Hollywood Casino, interest in multi-family residential housing developments has occurred. The Village West Apartments is a \$30 million, 306 unit project. These market rate apartments are located just west of Village West on 110th St. between State Ave. and Parallel Pkwy. Construction of these apartments is complete and leasing is ongoing. A second phase of the Village West Apartments, Prairie View, has begun leasing. This phase has 312 units and is located adjacent to phase one.

Multi-family unit demand is also positive in the eastern portions of the County. St. Margaret's was a hospital built in the 1880's south of downtown Kansas City, Kansas. This building long stood vacant but, due to renovations, began leasing in December 2013 as a multi-family apartment building with 111 units for senior housing. Forty-four of the units will be income restricted and the remaining will be market rate units. Additionally, the Horace Mann luxury apartments, renovation of a former three-story school, began leasing in 2013. This project consists of 30 market rate units. In 2015, two conversions of historic buildings created 18 units in the southwest area of the city.

Community Housing Wyandotte County (CHWC) is a non-profit, community development corporation, whose mission is to stabilize, revitalize, and reinvest in Kansas City, Kansas neighborhoods through affordable housing, homeownership promotion, and community building. CHWC focuses its programs in the urban core neighborhoods of Kansas City, Kansas/Wyandotte County. Additionally, CHWC has provided more than \$2,000,000 in grants, minor home repair loans, and mortgages to low- and moderate-income households in the community. To date, CHWC has built and sold over 200 new single-family homes in the urban core east of I-635.

The Neighborhood Stabilization Program (NSP) is a federal Housing and Urban Development program and was established for the purpose of stabilizing communities that have suffered from foreclosures and abandonment. This stabilization is realized through the purchase and redevelopment of foreclosed and abandoned homes and residential properties. The Unified Government has received over \$12 million in funding from two phases of the NSP 1 and 3 programs. Funds from this program have improved residential properties throughout Wyandotte County / Kansas City, Kansas with special emphasis on the northeast area of

the city. Funds from NSP 1 purchased 52 properties with 49 being rehabbed or sold; the remaining three were demolished and put into the Unified Government's Land Bank program for future development. The second phase of funding NSP 3 was utilized and to construct 21 new homes, and the rehabilitation of 5 existing homes. Of the 21 new homes 15 have been sold and 1 is under contract. Currently all 5 homes have been rehabilitated with 3 sold and 1 under contract.

**NEW SINGLE-FAMILY HOUSING, CONSTRUCTION VALUE
KANSAS CITY, KS, 2006-2015**

Tourism District

In recent years, efforts have been directed toward the development of a 1,600-acre tract of land, located directly northwest of the intersection of Interstate Highways I-70 and I-435. The Unified Government attracted the Kansas Speedway as the economic catalyst for development of this tract using the STAR Bond financing incentive. The speedway project, totaling more than \$280 million, is a 1.5-mile tri-oval on approximately 1,100 acres of land, with 72 luxury hospitality suites and grandstand seating for 82,000. The speedway has at least four major race events per year, and is in use approximately 200 days per year for various events, including driving schools, charity events, and track tours. In 2011, a second NASCAR Sprint Cup race was added to the racing schedule. It is estimated that this second race has an economic impact of \$100 million in the Kansas City metro area. With the addition of this second race, the Kansas Speedway invested \$3.5 million in 2010 to add lighting to the Speedway for night races. The speedway has completed a \$6.5 million renovation project that includes repaving, reconfiguring and re-banking of the track. Also, a new infield road course was added for Grand-Am Road Racing. In August 2013, the Kansas Speedway hosted two Grand-Am Road Racing events: the Rolex Sports Car Series and the Continental Sports Car Challenge Series. The Kansas Speedway operates at or near capacity for all major race events.

Joining Kansas Speedway at Village West are major destination retailers and entertainment business that attracted approximately 10 million visitors and shoppers annually. The initial anchor businesses and attractions include: Cabela's, a 195,500 square-foot store with 116,666 square feet of retail space featuring hunting, fishing, and other outdoor items with an 11,000 square-foot museum and 60,000-gallon aquarium (opened August 2002); Nebraska Furniture Mart which opened in August 2003 is a 1,075,000 square-foot store with 450,000 square feet of retail space and an adjacent warehouse that sells furniture, electronics, appliances, and floor coverings; and the Great Wolf Lodge and Resort, a 281-room lodge with a 40,000 square-foot indoor water park (opened June 2003). In 2010, Great Wolf Lodge invested nearly \$500,000 to upgrade a water park slide and Cabela's invested \$500,000 on an interior remodel.

The Legends Outlets Kansas City, formerly the Legends at Village West (the "Legends") is a more than \$230 million shopping center housing nearly 690,000 square feet of retail, dining, and entertainment. The Legends 14 Theatre complex (87,000 square feet) is the largest of the tenants. In 2015, the owner of the

Legends, KKR Legends, LLC, purchased the theater complex from the Unified Government which owned the theater and was managed by Phoenix Big Cinemas since opening in 2005. KKR Legends has leased the theater to AMC Entertainment which plans renovations in 2016. Dave and Buster's, with nearly 50,000 square feet, is a large restaurant/arcade. In 2006, the grand opening of the Legends occurred. Currently, over 100 businesses are open with many of the stores and restaurants new to the Kansas City area, creating a unique destination. In 2015, several new stores opened including Express Factory Outlet, Fuddruckers, Jose Peppers, KC Soda Company and a Watch Station. Thus far in 2016 Francesca's and Perfume Place have signed leases and will open soon. Further, a new three-tenant building adjacent on the south side of the Legends in an area that was currently surface parking is nearing completion. On the north side of the Legends Outlets, a \$10 million, 106-unit Residence Inn by Marriot opened in January 2016. This hotel features only suites. A new Verizon free standing retail store opened in 2015.

In January 2016 the Legends Outlets was purchased by Walton Street Capital from KKR & Co. (purchased the Legends in 2013) for an undisclosed amount. Legends Outlets is a 1.2 million square foot destination retail center in Kansas City, Kansas with traditionally high occupancy rates (currently 91%) and many stores at Legends Outlets are unique to the Kansas City market.

As of March 2016, 119 businesses, including 29 restaurants, were open in Village West, employing nearly 5,700 persons. In 2015 businesses generated over \$739 million in retail sales with local and state sales tax, use tax and transient guest tax collections of over \$66 million. Tax collections increased 5.2% between 2014 and 2015 (note: state sales tax rate increased on 7/1/15 to 6.5% from 6.15%). The 2015 real and personal property taxes levied for this development area was approximately \$23 million.

Approximately \$603 million in sales tax special obligation revenue bonds (STAR bonds) have been issued for Village West development. As of December 31, 2015 outstanding principal and accreted value of remaining Village West STAR bonds is \$191 million. Once these bonds are retired, local sales tax revenues will flow to the city and county governments. The STAR bonds remain on schedule for full redemption by the fourth quarter of 2016. The government is then projected to receive approximately \$12.7 million on an annual basis.

In December 2009, the Kansas Lottery Gaming Facilities Review Board approved the construction of a casino in Wyandotte County. Kansas Entertainment, the casino developer, completed construction of phase one of the project which opened in February 2012 and is adjacent to the Kansas Speedway. Hollywood Casino owned property is appraised at \$157 million for the 2015 tax year. The first phase of the project includes 2,000 slot machines, 64 table games, restaurants and bars. The proposal also included the second Sprint Cup NASCAR race and Grand-Am sports car road course mentioned above. The casino project created an estimated 1,500 construction jobs and employs approximately 750 casino employees. In the second phase of the project, a 300-room hotel is to be constructed. As of the first quarter of 2015, the casino has delayed construction of the hotel. Until construction of the hotel begins, the casino is subject to an additional 1% payment of net gaming revenues to the Unified Government. This equals approximately \$1.4 million on an annual basis and is effective as of February 4, 2014.

On January 25, 2013 E3 Realty Advisors conducted a foreclosure sale of the Legends property. This sale received strong interest from several major real estate trust funds, real estate investors and shopping center developers. The winning bid of \$131.5 million was submitted by KKR Real Estate Fund Holdings LP of New York. The close of this property sale was completed in March 2013.

The Unified Government, Zimmer Real Estate Services, Inc. and the Kansas Unified Development, LLC entered into a Multi-Sport Stadium Venture Agreement ("Stadium Agreement") for the construction of an 18,000-seat multi-sport stadium complex that is the permanent home to Sporting Kansas City, a Major League Soccer team. Under the Stadium Agreement, the Unified Government has issued STAR Bonds that result in \$147,000,000 of net funding for the Stadium Project. The STAR Bonds are payable from State and local sales and transient guest taxes. The stadium, named Sporting Park (as of 2016 now named Children's Mercy Park), held its first soccer match in June 2011 and completed its fifth successful season in 2015 with near capacity attendance. In December 2013 Sporting Kansas City won the 2013 MLS cup in a match that was played at Sporting Park. Further, Children's Mercy Park, recognized nationally and internationally for its design, hosted

the NCAA Division I Men's Soccer Cup Championship on December 11-13, 2015 as well as the Division II Football Championship for four straight years from 2014 to 2017.

CommunityAmerica Ballpark is the home of the Kansas City T-Bones, a member of independent baseball's Northern League. Since the T-Bones moved to Kansas City, Kansas and built their ballpark in 2003, they have proven to be one of the most popular independent teams in the country. The T-Bones completed their 13th year of operation in 2015. T-Bones games draw approximately 250,000 fans annually. In 2014, the T-Bones celebrated their 3 millionth fan since play began at the ballpark. Further, the American Association selected the T-Bones as the "Organization of the Year" in 2014. In December 2013, the Unified Government amended the redevelopment plan for the STAR bond district to allow for the financing of up to \$8 million in STAR bonds to purchase and renovate CommunityAmerica Ballpark subject to completing a long-term agreement with the T-Bones ownership group. The stadium sale and STAR bonds financing was approved by the governing body in February 2014. This financing is projected to extend the STAR bond payoff by four months.

In February 2015 it was announced that Dairy Farmers of America would build a \$30 million headquarters north of I-70 and east of I-435, just east of the Village West area. The Dairy Farmers of America is the area's largest private employer in terms of revenue (\$18 billion in 2014). The new headquarters is proposed to be a three-story, 100,000 square foot project that will bring 325 jobs to this area. Grading and utility work for this project began in October 2015 with building construction beginning in December 2015. In March 2016 interior improvement began. This project is projected to be completed in the first quarter 2017.

Just east of the Village West/Legends tourism district, a \$75 million U.S. Soccer National Training and Coaching Development Center is scheduled to begin construction in first quarter 2016 with the facility opening in 2017. The proposed development will house the elite athlete training and performance analytics campus and national youth soccer development programs. The facility will include approximately 100,000 square feet for an indoor facility with a practice field, eight lighted professional fields and eight youth fields.

The U.S. Soccer National Training and Coaching Development Center will be adjacent to the Vacation Village STAR District. This district includes the Schlitterbahn Waterpark which opened in July 2009 with 14 attractions which included 24 slides located on 24 acres. In 2011 a multi-million dollar expansion included six new attractions. In 2014 the world's tallest waterslide at just over 168 feet tall, called Verruckt (German for insane), opened. Another component to this district is an auto mall that will initially include three auto dealers scheduled to open mid-year 2016. Over the following 18 months commitments are in place for an additional auto dealer, a 100-room limited-service hotel, a convenience store/gas station and a combined carwash and restaurant. Finally, the Dairy Farmers of America headquarters relocation discussed previously is the third component to the Vacation Village STAR District.

A report commissioned by the Kansas City Convention & Visitors Association indicated that Wyandotte County had the most visitor spending growth, increasing by 29 percent since 2010. Wyandotte County also saw a 251 percent increase in visitor spending on recreation.

39th & Rainbow Commercial Development

This project is a \$39 million mixed-use development located adjacent to Kansas University Medical Center. The first phase includes approximately 10,000 square feet of first-floor retail space and, on the second through fourth floors, an 83-room Holiday Inn Express & Suites which opened in September 2012. Five Guys Burger and Fries also opened in September 2012, a 7-11 Convenience store opened in March 2013 and Topp'd Pizza opened in January 2015 in phase one of this redevelopment project. The second phase was completed in May 2014 and has a health care tenant focus. Kansas University Hospital operates an inpatient acute rehabilitation center that takes up 27,800 square feet. Also, Kansas City Transitional Care Center, a post-acute nursing rehabilitation facility, leases an additional 55,600 square feet. Finally, in phase two, Hanger Prosthetics & Orthotics is also currently operating. The IHOP restaurant opened in April 2015 and a Pita Pit restaurant will open in 2016. In total, the second phase of this redevelopment project is 100,000 square feet in a four-story building. This area expects to attract new retail development due to the area's dense resident population and the proximity to the KU Medical Center and Hospital. This area draws more than 10,000 persons daily. The

39th & Rainbow redevelopment was selected as a 2014 Capstone Award winner which honors the Kansas City metropolitan area's outstanding real estate and development projects. Further, the Urban Land Institute honored this project as Development of Distinction.

Downtown

In July 2012, ground was broken on a transit center in downtown Kansas City, Kansas at the corner of 7th St. and Minnesota Ave. The \$2.3 million Downtown KCK MetroCenter was completed in August 2013. In September 2013, the Midtown Metro Center opened. In addition to the largest public transit passenger facility of the region, this facility also houses the Kansas City, KS Police Dept. Midtown Patrol division, the mobility management services for the Area Agency on Aging and has a Transit Community Space. Overall, these projects are part of a \$13 million effort to build KCK Connex, which will link downtown Kansas City, Missouri with downtown Kansas City, KS and Village West in the western portion of the county.

Midtown

Two redevelopment projects merit special note. First, the Prescott Plaza is a \$20 million development located at the site of an old abandoned truck stop at I-70 and 18th Street. This redevelopment is anchored by a 42,000 square-foot grocery store which opened in November 2008. In addition to the grocery store, an additional fourteen retail and/or service oriented businesses have opened. A Speedy's gasoline/convenience center opened in September 2012 with a Subway restaurant inside which opened in August 2013. This public/private development is bringing new retail services to the urban core.

The Unified Government has begun final demolition of the Indian Springs mall in 2016. In May 2014, the Unified Government approved a two-year contract with Lane4 Property Group to market the former Indian Springs.

Industrial Park Developments

The Unified Government currently has four major industrial parks: Fairfax Industrial Business District, Central Industrial Business District, Armourdale Industrial Business District, and the Santa Fe Industrial Business Park. These four industrial areas represent 80% of the industrial development in the Unified Government. The Unified Government has several other industrial park developments in the Hart Business Park located at 55th and K-32, Woodend Industrial Park along the I-435 Corridor, the Muncie Industrial Park located at 62nd and K-32 and the I-635 Industrial Park at I-635 and Metropolitan. Edwardsville has also developed an industrial/warehouse area near I-435 and the Kansas River.

General Motors (GM) continues to have a significant presence in the Fairfax Industrial District with reinvestment in excess of \$200 million. Currently the Chevy Malibu and Buick LaCrosse are produced at this facility. A third shift was added in January 2010, creating approximately 900 jobs. In 2011, GM issued building permits valued at \$5.4 million for two building additions. A \$600 million, 400,000 square-foot paint shop expansion which is for vehicle construction activities to support future production at the site was recently completed. Finally, in 2015 GM announced an additional \$174 million investment to the Kansas City, Kansas plant to support the redesigned 2015 Chevy Malibu. It is expected in that a Cadillac cross-over vehicle will begin construction at the Fairfax plant in 2018. Investment in the plant is expected to be \$245 million to allow this new production. The build of this new model will most likely mean the Buick LaCrosse will no longer be manufactured at this location after the 2017 model year.

The Revitalizing Auto Communities Environmental Response (RACER) Trust was established nationally in 2011 to remediate and reposition GM sites left behind by the company during its 2009 bankruptcy. In March 2013, the Unified Government approved an agreement with NorthPoint Development for development of a former 80-acre GM site which is expected to create \$40 million in capital and 2,000 jobs. The site is projected to be fully built over a 6 to 10 year period. Groundbreaking for the site occurred in December 2013. The new

industrial park is the first development project in Fairfax in more than 25 years. Part of the first phase of construction consists of the installation of infrastructure, access roads and utility lines. The first project to be built on this site is an 80,000 square-foot, \$10 million manufacturing facility for Inergy which produces fuel tanks for GM vehicles. This project has created approximately 40 jobs initially, with 200 jobs at full build out.

In 2014, NorthPoint Development began redevelopment of 25 acres of the Unified Government's Public Levee operations, located in the Fairfax Industrial area. NorthPoint initially demolished existing buildings and then built a 396,000 square-foot industrial building. This facility meets current manufacturing and industrial needs. The first tenants in this building are Plastic Packaging leasing 56,000 square feet and Ozburn-Hessey Logistics leasing 56,200 square feet. Additional tenant leases plan to be signed in 2016.

Office and Service

The downtown area, with approximately 5,000 employees, has the largest concentration of office workers. In addition to the downtown area, there are active office parks in Cambridge Terrace, Meadowlark Lane, Woodlands West and assorted office and medical facilities in different locations throughout the community.

Downtown Kansas City, Kansas continues its revitalization with the redevelopment of two properties along Minnesota Ave. Loretto Properties have redeveloped the buildings for a cost of \$1.5 million. The buildings plan to house various nonprofit organizations, professional services and also may serve as possible satellite locations for two Kansas City, Kansas colleges. The first retail store, a coffee shop, opened in March 2015. A master plan was approved by the Unified Government Commission in December 2014.

A Downtown Healthy Campus is being proposed in downtown Kansas City, Kansas. This \$30 million project would include a new grocery store, new community center run by the YMCA with an Olympic-tournament size pool, walking trails, affordable quality and market rate housing, a primary/urgent care medical facility and green space for farmers' markets. In May 2013, the Wyandotte Health Foundation donated \$1 million for this project and the Unified Government has committed \$6 million in its future capital program for this project with an ongoing effort to raise more philanthropic dollars.

Several offices and service buildings have been constructed directly north of Village West, near 110th and Parallel Parkway. The cost of development associated with these office facilities is in excess of \$5 million. The firms located in this area include: Heartland Primary Care, a medical group; Security National Bank; Mid America Bank and Trust; and a \$2.5 million Discover Vision Center office building opened in this area in 2009 and provides essential vision related services to Wyandotte County residents. In 2013, a new dialysis medical building was built in this area. In the southeast corner of the city, a new \$1.1 million dental office was constructed in 2013.

The Unified Government and the Cerner Corporation entered into Land Transfer and Specific Venture Agreement in which Cerner Corporation is committed to construct approximately 600,000 square feet of Class A office buildings to accommodate 4,000 Cerner employees Cerner's "Continuous Campus". The Continuous Campus is located adjacent to the Unified Government's Tourism District. Cerner Corporation is an international supplier of healthcare technology. Construction of the first office building began in January 2012 and the second office building in the fall of 2012. Both buildings are currently open. The entire office complex was completed in 2014 at a cost in excess of \$400 million. Cerner is committed to employing 4,000 employees (FTE's) at this location by December 1, 2016. Average wages of these positions are to be at least \$54,000.

Retail

In addition to the Village West development, several other developments have seen growth in recent years.

Wyandotte Plaza at 78th and State Avenue underwent redevelopment beginning in the fall of 2012. The \$28 million investment expanded the existing shopping center from 182,000 square feet to approximately 220,000 square feet. The anchor for Wyandotte Plaza is a newly constructed 75,000 square foot Price Chopper

grocery store that opened in July 2014. An Advanced Auto is in its new building which is adjacent to the new grocery store. The former Advanced Auto building was demolished to make way for the grocery store. A new 13,000 square foot PetSmart opened in April 2015, a new Krispy Kreme donut retail store opened in February 2015 and finally, a 27,000 square foot Marshalls opened in May 2015. A Community American Credit Union opened in the fourth quarter 2015. Improvements have been made to façade, lighting, and traffic flow for the entire shopping center. Currently, twenty three businesses are operating at Wyandotte Plaza. The Wyandotte Plaza redevelopment was selected as a 2014 Capstone Award winner which honors the Kansas City metropolitan area's outstanding real estate and development projects. In March 2016 a building permit has been issued for a new pad site. A tenant has not yet been announced.

Other new retail stores which have opened in various parts of the City over the past several years include: in 2011, a new CVS Pharmacy (\$1.5 million) located in the southwest corner of the City; a new Dollar General store located at 60th and Leavenworth Road; and a new Casey's General Store (\$1 million) located at 130th and State Ave.; in 2012, three new Dollar General stores opened, two located in the south-central area of the city and one in the northeast; in 2013, a Dollar General opened in the mid-town area; and a Family Dollar located in the northcentral part of the city opened in November 2014 and another Family Dollar is under construction in the eastern area of the city.

The Metropolitan Avenue Redevelopment Area is located in the Argentine community which is south of I-70 in eastern Kansas City, Kansas. In 2012, a Dollar General opened in this area and a Save-A-Lot grocery store opened in December 2013. The next phase of this redevelopment area was La Plaza Argentine which is anchored by a 41,000 Wal-Mart Neighborhood Market and opened in September 2014. These projects are important to an area of the city that has been categorized as a food desert.

In late 2006, the Unified Government Commission approved a \$190 million project called Plaza at the Speedway, a tax increment project located on the north side of Parallel Parkway across from the Legends shopping area. The shopping area is anchored by a Wal-Mart Supercenter that opened in October 2009 and a Sam's Club which opened in October 2012. A Taco Bell opened in April 2010 and an Olive Garden restaurant opened in May 2010. Other openings are as follows: Kohl's retail store (September 2010); Chick-Fil-A restaurant (October 2010); Red Lobster (March 2011); Jack in the Box (November 2011) and Logan's Steakhouse (May 2012). A Starbucks opened in June 2014 and in the same building a new AT&T store opened in September 2014. A new retail building was completed in 2013 at a cost of \$1.6 million. Opened in this building are a Mattress Firm, Select Comfort, Great Clips, and a dentist office. Finally, adjacent to Interstate I-435 is the development of an auto mall. A Toyota dealership opened in June 2011 and a Honda dealership opened in April 2013.

Recreation

In 2010, the Wyandotte County Fair Board spent nearly \$1 million on a new site for the Wyandotte County Fair to be located in the vicinity of 137th and Polfer road in the northwest portion of Wyandotte County. In 2011, the inaugural fair was held at this new location. The 2011 amended budget approved the re-opening of the JFK Community Center. This project included major remodeling and the addition of staff to provide program support. This center is located in an older area of the City and provides important social and recreation opportunities for near-by residents. The center re-opened in 2012. Also, a former elementary school in the Piper school district, in western Kansas City, Kansas, was renovated at a cost of \$1.8 million for use as a community center. The Rozarks Urban Trail System located in the southeastern portion of the county, was recognized by the Mid America Regional Council (greater Kansas City metro area planning agency) for developing a trail system with the greater goal of connecting urban communities. Partners in this project included Rosedale Development, the Unified Government and the Urban Trail Company.

Internal Accounting Controls

Financial Control: The Unified Government of Wyandotte County/Kansas City, Kansas, has adopted a

comprehensive system of internal controls designed to reasonably safeguard Unified Government assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies within the Unified Government. Basic management responsibilities emphasize that the accounting system must have a strong relationship with all other management control systems. The Unified Government's internal accounting controls reasonably safeguard assets and provide reasonable assurance of proper recording of all financial transactions.

As part of the continuing effort to improve fiscal stewardship and financial accountability, the Unified Government utilizes a fully computerized financial accounting management information system, the Cayenta Financials System (CFS). The system is an integrated, online municipal government financial management system, comprised of many subsystems. Modifications and enhancements are continually being made to this system in order to keep abreast of rapidly changing accounting techniques and principles. CFS is based on the single transaction concept of processing, in which all relevant files and reports are updated from a single input of information. Look-up tables are used to tailor all accounting and classification treatments and are changed by file maintenance initiated by the Financial System Administrator.

Budgetary Control: The Unified Government's budgeting system is a program based and line item budgeting system process. Departments prepare program operating and capital budgets at a detailed object expense level.

All Unified Government Tax Levy Funds are required to balance according to Kansas State Statute (K.S.A 79-2967).

The legal level of control is established at the fund level by State statutes which also permit the transfer of budgeted amounts from one object code or purpose to another within the same fund. However funds cannot be transferred between departments without obtaining approval from administration.

The Unified Government further controls spending by requiring that no expenditures be committed that would exceed the amount appropriated for the spending category (for example - Personnel Services Contractual Services) without the department first obtaining approval.

As allowed by State Statute the governing body can increase the fund level expenditures by amending the budget. An Amendment may only be made for previously unbudgeted increases in the revenue other than ad valorem taxes. To do this a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after the publication the hearing may be held and the governing body may amend the budget at that time.

- In 2013, the Unified Government Commission adopted a formal budget policy that establishes limits and controls for budget transfers and revisions.

There are four categories of budget expenditures with differing controls as follows:

- 1) Commission review is necessary for discretionary expenditures that exceed \$50,000 and do not impact operations or present an immediate health and safety concern. Discretionary expenses include legal settlements (excluding legal fees), new capital projects, property acquisition payments, or other initiatives not previously reviewed by the governing body.
- 2) The County Administrator has authority to approve budget revisions that exceed \$50,000 for matters involving health and safety concerns, other emergencies or to sustain on-going operations, subject to approval by the Mayor or the Mayor pro-tem, if the Mayor is absent. These revisions will be reported to the next scheduled meeting of the Economic Development and Finance Standing Committee.
- 3) The County Administrator has authority to approve budget revisions from \$10,000 to \$50,000 for emergencies, health and safety concerns, new capital projects, legal settlements, property

acquisition, or to sustain on-going government operations. These revisions will be reported to the Economic Development and Finance Standing Committee on a quarterly basis.

- 4) Routine day-to-day Department expenditures, less than \$10,000, are managed by the Department and are subject to the Administration controls set forth in this policy and do not require Commission review.

In addition, budget revisions in salary accounts require department director, chief financial officer, and County Administrator's Office approvals.

The following actions require budget director's approval before execution:

- Pre Bid Contracts
- Capital Project Contracts
- Capital Equipment Purchases
- Changing status of an unfunded personnel position to funded status or creation of a new personnel position.

The Unified Government's annual budget is prepared in conformance with and certified as required by Kansas State Statutes. The Unified Government Administrator and the Unified Board of Commissioners evaluate budget proposals of the various Unified Government departments to determine funding for operating, capital and public service programs. After giving due consideration to the input received from citizens, the Unified Board of Commissioners adopts the budget. Thus, the adopted budget is a document which places before the people of the Unified Government a clear and precise picture of the cost of public services which are to be provided. The budget process is automated and appropriately controlled through an online accounting system to assure effective fiscal management and accountability. In 2015, the Unified Government received the Distinguished Budget Presentation Award by the Government Finance Officers Association (GFOA) for its 2015 budget document.

Property Tax Levies and Collections

In accordance with applicable state statutes, property taxes levied during the current year are revenues to be used to finance the budget of the ensuing year. Taxes are assessed on a calendar year basis and are levied and become a lien on the property on November 1 of each year. The County Treasurer is the tax collection agent for all taxing entities within the County. Property owners have the option of paying one-half of the full amounts of the taxes levied on or before December 20 during the year levied with the balance to be paid on or before May 10 of the ensuing year. State statutes prohibit the County Treasurer from distributing taxes collected in the year levied prior to January 1 of the ensuing year. Consequently, for revenue recognition purposes, the taxes levied during the current year are not due and receivable until the ensuing year. At December 31, such taxes are a lien on the property and are recorded as taxes receivable, net of anticipated delinquencies, with a corresponding amount recorded as unearned revenue. It is not practicable to apportion delinquent taxes held by the County Treasurer at the end of the year and the amounts thereof are not material in relationship to the financial statements taken as a whole.

The November 2015 certified assessed valuation for Wyandotte County was \$1.1 billion. Real property value accounted for 87% of this overall figure. The overall total was 3.7% above the prior year total. Residential and commercial property valuations have recovered to pre-recessionary levels in western portions of the County. However, personal property valuation is still affected by the 2006 legislation that exempts new machinery and equipment purchases from the tax roll. Personal property assessed value declined by \$6.8 million or 10% from 2014 to 2015.

The Unified Government 2015 tax levy for the 2016 budget is \$91.4 million. In 2014, the Unified Government levied \$87.2 million in property taxes for budget year 2015. The combined City and County mill rate increased from 82.003 mills in 2013 to 81.961 mills in 2014 for the 2015 budget year. Current-year property tax revenue collections in 2015 were \$82.1 million. In comparison, in 2014 the current-year tax collections were \$81.4 million, derived from a 2013 tax levy of \$86.9 million. The collection rate for current property taxes increased from 93.7% in 2014 to 94.2% in 2015. Treasury and the Department of Revenue collections implemented several programs in 2011 that have accelerated delinquent tax collections. Further, a 2012 budget initiative now requires payment of the most recent delinquent tax year. This change has increased delinquent payments for all outstanding years, in order for property owners to avoid a tax sale.

Financial Policies Impacting Budget Statements

The 2014 mill rate for the 2015 budget was essentially constant with only a 0.1% downward adjustment, based on final property valuations. Overall current year and delinquent property tax collections increased by \$691,000 in 2015.

Sales tax revenues showed growth in 2015. Total sales tax distributions for the General Fund were \$2 million or 5.7% above 2014. The Dedicated Sales Tax, which was implemented in July of 2010, was also positively affected by the sales tax growth, with an increase of over \$436,000 in annual revenues. This fund has supplemented general fund operating and capital expenditures in the areas of public safety and neighborhood infrastructure. Casino net gaming tax revenues to the Unified Government increased in 2015, with an annual growth rate of 8%.

The Board of Public Utilities, an agency of the government, provides electric and water services to Kansas City. The payment-in-lieu-of-tax 2015 rate was constant with the 2014 rate of 11.9%. This tax generated \$30.7 million in revenues or a \$633,000 decrease in revenues.

Cash Management

All cash is invested during the year in certificates of deposit, US Treasury Notes, the Kansas Municipal Investment Pool, U.S. Government agencies, bank trust department municipal pools, temporary notes or no fund warrants, repurchase agreements and overnight investments in the Unified Government’s primary depositories. At December 31, 2015 the carrying amount of such investments was \$221,009,826. The Unified Government earned interest income in the amount of \$586,064 during the year ended December 31, 2015.

All active deposits at December 31, 2015 were fully collateralized in compliance with State law.

The Unified Government’s portfolio at December 31, 2015, had an average weighted maturity of 353.69 days with an overall weighted average rate of interest of .065%. During 2015 there was an average carrying value of \$165,498,215.

Independent Audit

The basic financial statements for 2015 were examined by Allen, Gibbs, & Houlik, L.C., and their opinion has been included in this report. They have provided the Unified Government with an unmodified opinion.

Additionally, the Unified Government is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and Title 2 US Code of Federal Regulations Part 200, Uniform Administrative requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Information related to this single audit, including the Schedule of Expenditures of Federal Awards, findings and questioned costs, and auditor's reports on the internal control structure and compliance with applicable laws and regulations are included in a separate report issued annually by the Unified Government.

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the Unified Government for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2014. This is the sixteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized report, which conforms to applicable program standards, generally accepted accounting principles, and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The Unified Government believes that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting the 2015 Comprehensive Annual Financial Report to GFOA to determine its eligibility for another certificate.

Acknowledgments

Our appreciation is extended to the Unified Board of Commissioners for their continued support in maintaining the highest standards for financial reporting. Special thanks are extended to the following staff for their contributions to the preparation of this document: Richard Mikesic, Accounting Manager; Mary Barnes, Mike Kupsch and Peggy Ryan, Accounting Division; Debbie Pack, Treasury Division; Mike Grimm and Debbie Jonscher of the Finance Administration Division, and Reginald Lindsey, Budget Division; and the Legislative Auditor's Office. In addition, we would like to acknowledge the audit firm of Allen, Gibbs & Houlik, L.C., for their review and comments in the preparation of this report.

UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended DECEMBER 31, 2015

FINANCIAL SECTION

The Financial Section is the Unified Government's audit report. It includes the opinion of the Independent Auditors, Management's Discussion and Analysis (MD&A), the Basic Financial Statements and Combining Statements and Schedules.

Basic Financial Statements reflect all financial activity of the Unified Government combined into nine (9) schedules.

Notes to the Financial Statements are adjunctive to the Basic Financial Statements, serving to explain the numbers and to highlight required disclosures.

Combining Statements and Schedules reflect greater detail of the Unified Government's financial activities. Also included are schedules showing the extent of each fund's compliance to state budget laws.

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Board of Commissioners
Unified Government of Wyandotte County / Kansas City, Kansas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Unified Government of Wyandotte County / Kansas City, Kansas (Unified Government) as of and for the year ended December 31, 2015, and the related notes to the financial statements which collectively comprise the Unified Government's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Board of Public Utilities, which is both a major fund and 85 percent, 85 percent, and 87 percent, respectively, of the assets, net position, and revenues of the business-type activities. Those financial statements were audited by other auditors, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Board of Public Utilities, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the *Kansas Municipal Audit and Accounting Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Unified Government as of December 31, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note IV. E. to the financial statements, on January 1, 2015, the Unified Government adopted Government Accounting Standards Board Statement No. 68: Accounting and Financial Reporting for Pensions and Government Accounting Standards Board Statement No. 71: Pension Transition for Contributions Made Subsequent to the Measurement Date. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed on the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Unified Government's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, and the introductory and statistical sections as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 8, 2016 on our consideration of the Unified Government's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Unified Government's internal control over financial reporting and compliance.

Management's Discussion and Analysis

This discussion and analysis are intended to serve as an introduction to the Unified Government's basic financial statements. The Unified Government's basic financial statements comprise three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Overview of the Financial Statements

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Unified Government's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Unified Government's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Unified Government is improving or deteriorating.

The statement of activities presents information showing how the government's assets changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Unified Government that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are included to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Unified Government include general government, health and welfare, public safety, public works, parks and recreation, and planning and development services. The business-type activities of the Unified Government include electric and water systems, sewer system, EMS, public levee, storm water, Sunflower Hills Golf Course and Stadium.

The government-wide financial statements can be found as listed in the Table of Contents.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Unified Government, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Unified Government can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar

information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Unified Government maintains 29 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general, economic development and capital projects funds, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements in this report.

The basic governmental fund financial statements can be found as listed in the Table of Contents.

Proprietary Funds

The Unified Government maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Internal services funds are an accounting device used to accumulate and allocate costs internally among the Unified Government's various functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the sewer system and Board of Public Utilities, which are considered major funds of the Unified Government. Conversely, the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in this report.

The basic proprietary fund financial statements can be found as listed in the Table of Contents.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Unified Government's own programs.

The basic fiduciary fund financial statements can be found as listed in the Table of Contents.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found as listed in the Table of Contents.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information (RSI) concerning the Unified Government's progress in funding its obligation to provide pension and other post-employment benefits to its employees. The RSI also shows a comparison of the original and final General Fund budget to actual results and reconciliation between

budgetary fund balance and GAAP fund balance. Required supplementary information can be found as listed in the Table of Contents.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found as listed in the Table of Contents.

Government-wide Financial Analysis

Net Position

Net position may serve over time as a useful indicator of a government's financial position. The Unified Government's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$470,340,226 at the close of the most recent fiscal year.

By far, the largest portion of the Unified Government's net position (138%) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, and infrastructure) less any related debt used to acquire those assets that is still outstanding. The Unified Government uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Unified Government's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the Unified Government's net position (\$104,399,989) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position is a deficit of (\$284,930,171).

GASB Statements Nos. 68 and 71 were implemented during 2015, requiring the Unified Government to record its proportionate share of the Kansas Public Employees Retirement System (KPRS) collective net pension liability. This accounts for the majority of the changes in the long-term liabilities due in more

than one year and unrestricted net position, as well as the recording of the \$13.2 million deferred outflows – pensions and the \$14.0 million deferred inflows – pension. For additional information, please refer to Note IV.E. beginning on page 67.

The Board of Public Utilities also implemented GASB Statements Nos. 68 and 71 requiring a change in how the Board of Public Utilities records its net pension liability, from the prior GASB Statement No. 27. These statements also required the recording of the \$11.9 million deferred outflows-pensions. For additional information, please refer to Note IV.E. beginning on page 67.

Change in Net Position

The net position of the Unified Government's governmental activities decreased by \$138.2 million. The net position of the business-type activities increased by \$12.9 million. The overall change in net position was a decrease of \$125.3 million. If not for the prior period adjustment due to the implementation of GASB Statements Nos. 68 and 71, the net position would have increased \$9.4 million. Changes in net position were as follows:

Governmental Activities

Total revenues of governmental activities were \$26.7 million above prior-year revenue levels. This was due to a number of positive increases across multiple categories. The largest contributing factor was in operating grants and contributions, which increased \$11.6 million. The Unified Government collects sales taxes within the Prairie Delaware Redevelopment District, which is dedicated for repayment of STAR bonds (see Note III.F.). A portion of these revenues are dedicated to repayment of various STAR bonds. For certain bonds, a portion of the obligation is attributable to the State of Kansas. As such, a reciprocating receivable from the State is recorded, with adjustments to the receivable affecting the current year revenue as operating grants and contributions. During 2015, additional STAR bonds were issued, resulting in an increase to the receivable from the State of Kansas and an increase in revenues from the prior year.

In other revenue sources, charges for services increased by \$4.3 million. The largest contributing factor was \$2.3 million received from Hollywood Casino as a penalty for failing to timely construct a hotel as required under the agreement. The other major factor to the increase in charges for services was due to an increase of \$1.2 million of revenues received from the government's third party re-insurance provider to cover significant payments above the stop-loss limits (see Note IV.A.) Property tax revenues increased by \$3.0 million due to an increase in valuation and a decline in the delinquency rate. Other tax revenue increased by \$5.0 million due to an increase in sales tax revenue resulting in increased spending activity during the year. Finally, miscellaneous revenues increased by \$3.1 million due to a number of reasons, the most significant of which being due to cost reimbursements. All other revenue categories had variances that net to a \$0.3 million decrease.

Total expenses of governmental activities were \$15.6 million more than the prior year. The driving factor in the increase was in the area of Planning and Development, which increased by \$15.0 million. The majority of this variance was due to development costs under the new STAR bond agreements (see Note III.F.) Among other categories, there was a notable decrease in Public Safety expenses. When certain long-term employees retire, they have large payouts due to accumulated leave banks. Those payouts have the potential to raise their retirement benefits. As such, KPERS will calculate the future payments to the retiree based on final payouts and compare it to what the government has contributed on that employee's behalf. If the final calculations reveal insufficient payments had been made, the government is required to submit additional payments in the form of penalties. During 2014, the government paid an additional \$3.0 million in such penalties that were not experience during 2015, resulting in a current year decrease in expenses. Additionally, Public Safety experienced a notable decrease in compensation absence costs from 2014 due to utilization. The decrease in Public Safety costs was offset by an increase in Public Works. This increase was due to two competing circumstances. During 2015, the government sold the Legends Theater and the Legends Parking garage, which resulted in a book loss of \$11.0 million. However, there was a reduction of expenses of \$4.0 million due to an increase in capital costs capitalized during the year. All other categories remained somewhat constant from the prior year.

Total transfers went up by \$1.6 million due to an increase in activity between funds due related to the increase in debt issuance during the year.

Business-type activities

Total revenues of business-type activities decreased by \$4.0 million from the prior year. 1) The Board of Public Utilities realized a decrease in operating revenues of approximately \$8.4 million due to decreased electric sales. 2) The Sewer system fund had an increase in operating revenues of \$2.3 million due to increase in charges for services received.

Operating expenses decreased by \$2.4 million. 1) The Board of Public Utilities realized an increase in expenditures of \$2.4 million, primarily due to an decrease of production, fuel and purchased power costs, 2) Public Levee costs decreased by \$2.8 million. A new land lease was established granting a

third party authority to demolish the current structures and rebuild to suit their needs. The third party began the demolition process during 2014, resulting in a loss on disposal of assets of \$2.7 million in that year. The expenses returned to the normal operating level in 2015 without that cost. 3) The Sewer System fund had a decrease of expenses of \$2.1 million. During the year, capital outlay costs remained constant, but the nature of those costs resulted in a greater amount of capitalized costs.

Financial Analysis of the Government's Funds

The Unified Government uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the Unified Government's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Unified Government's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Unified Government's governmental funds reported combined ending fund balance of \$62.3 million, an increase of \$53.9 million in comparison with the prior year. The fund balance includes a balance of \$24.0 million classified as unassigned. The general fund had an unassigned balance of \$27.7 million, with the capital projects and other governmental funds both having negative unassigned balances, \$2.9 million and \$0.8 million, respectively. More than half of the governmental fund balance is subject to restrictions in how the dollars may be utilized as dictated by the Unified Government fund balance policies.

The general fund is the chief operating fund of the Unified Government. At the end of the current fiscal year, the total fund balance was \$31.6 million, an increase of \$15.2 million from the prior year. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 15.3 percent of total general fund expenditures, while total fund balance represents 17.4 percent of that same amount. Key factors related to the trends of the general fund are as follows.

The combined General Fund mill levy rate decreased from 59.894 mills in 2013 (budget year 2014) to 59.488 mills in 2014 (budget year 2015) with the decrease primarily reallocated to the Bond & Interest – County Fund to provide resources for the radio capital project. This change represented a decrease of 0.68%.

The overall property valuation of the County increased 3.7% from 2014 to 2015, compared to 0.3% and 0.2% in the prior two years.

General Fund property taxes increased by \$1.4 million in 2015, with the gain attributed to the various factors including property valuation increase and a reduction in the delinquency rate (6.4% to 5.9%).

The payment-in-lieu-of-tax rate or PILOT for the publically-owned Board of Public Utilities was set in 2014 at 11.9% and no change to the rate was made in 2015. There was a decrease of \$633,000 (2%) in the 2015 PILOT due to the decrease in related BPU revenues.

The passage of a 3/8th cent Kansas City, Kansas dedicated sales tax for public safety and neighborhood infrastructure continued to positively impact revenues. This tax began July 1st of 2010 and is due to sunset in June 30, 2020. In 2015, revenue receipts for this dedicated tax were \$7.5 million compared to the prior-year figure of \$7 million or a 6.2% increase. The dedicated sales tax was primarily used in 2015 to offset General Fund expenses and maintain capital expenditures for its dedicated funds related to public safety and street improvements.

General Fund sales and use tax revenues increased by \$2.4 million or 6.5% in 2015, compared to a 2.9% in the prior year. Another category impacting revenues was the Hollywood Casino, which completed its fourth year of operations. The local tax on net gaming revenues generated nearly \$3.2 million from the gaming tax revenue.

General Fund costs decreased in 2015 due to several factors. KPERS rates were down from 2014 to 2015, 28.30% to 21.36%, respectively. Year over the actual expenditures were down \$3.7 million. Workers Compensation expenses were down \$245K compared to 2014. Police Jail Billings were down \$160K in 2015 compared to 2014. In 2015 there was a \$360K savings compared to the 2015 Adopted Budget. Police Department started evaluating if a person needed to go to jail or if mental evaluation needed. This has had an impact on the number of people being booked into county jail.

Fuel expenditures were down \$402K in 2015 compared to 2014 actual expenditures. Fuel expenditures came in \$392K under budget for 2015. The savings is directly related to 11 year low fuel prices. Vehicle parts expenditures were up \$319K in 2015 compared to 2014 actual expenditures. The increase is due older vehicles in the fleet being repaired and timing of maintenance schedules. Parts expenditures came in \$144K under budget for 2015. In 2015 Special Judgment expenditures were down \$101K compared to 2014. In 2015 there was a \$333K savings compared to the 2015 Adopted Budget.

Capital Equipment had \$356K expenditure savings in lease payments that were planned in the 2015 Adopted Budget that will not be paid until 2016. The 2016 lease payments that will occur in 2016 are already part of the 2016 Adopted Budget.

The debt service economic development fund consists of restricted cash for use in developments and debt service of development related bonds. The fund balance at the end of 2014 was \$13.7 million, which is comparable with the prior year balance.

The capital projects fund showed an increase of \$20.7 million restricted cash and temporary investments as compared to 2014. This was due to new escrow accounts related to three new STAR bond issues during 2015 (see Note III.F.). This addition also resulted in a large increase of total assets. Total expenditures increased by \$9.2 million due to increased costs related to development agreements and capital projects. Debt service expenditures classified in the "Other" category increased by \$1.0 million as due to costs of issuance related to the new STAR bond issues during 2015.

Proprietary funds

The net position for the proprietary funds increased by \$12.9 million. The Sewer Fund had an increase in its net position due to a \$2.0 million increase in charges for service while experiencing a \$2.6 million decrease in costs of service. The Non-major business type funds decreased by \$2.1 million due in large part to lower capital contributions in the Stormwater fund. The BPU had an increase in net position of \$19.6 million. An additional contributing factor to the net position was a prior period adjustment of \$7.9 million due to the implementation of GASB 68, Accounting and Financial Reporting for Pensions (see Note IV.E.) For an in-depth discussion of the operating results and financial position of the Board of Public Utilities, see the separate report issued by the Board, which can be obtained by contacting them at:

Board of Public Utilities
540 Minnesota Avenue
Kansas City, Kansas 66101

Capital Asset and Debt Administration

Capital assets

The five-year Capital Maintenance and Improvement Plan (CMIP) is a plan for capital investment in Wyandotte County's streets, bridges, recreation facilities, parks, sewer system, traffic signalization, buildings, and grounds to improve service delivery and quality of life to its citizens.

The following is a summary of capital assets for the government as of December 31, 2015 net of accumulated depreciation:

Unified Government of Wyandotte County/Kansas City, Kansas Capital Assets

	Governmental Activities		Business-type Activities		Total	
	2015	2014	2015	2014	2015	2014

Additional information on the Unified Government's capital assets can be found in Note III.B.

Long-term debt

The five-year Capital Maintenance Improvement Plan outlines capital projects to be financed with long-term debt. The outstanding debt for 2015 includes General Obligation debt of \$265,421,256, Tax Increment Financed (TIF) debt of \$36,753,744, and Revolving Loan Debt of \$43,207,852. The 2015 budget includes \$32.3 million for the payment of long-term debt of the Unified Government. The Debt Service Fund debt payments total \$24.5 million and Sewer System debt payments total \$6.1 million. The monies for the debt budget are funded primarily from the individual City and County Debt Service Funds. User fee income is the primary source of revenue in the Sewer System Fund.

*See note III.F.

Kansas State Statutes limit the amount of general obligation bonds a governmental entity may issue to 30 percent of the equalized assessed valuation. The limitation for debt, as of 12/31/15, for the Unified Government is \$379,748,748 with a legal debt margin of \$139,156,113.

As of 12/31/15 the Unified Government had a rating of A1, stable outlook, from Moody's Investor Service and AA, stable outlook, from Standard and Poor's on all long-term general obligation debt assumed from both the former City of Kansas City, Kansas and Wyandotte County.

Additional information on the Unified Government's long-term debt can be found in note III.F.

General Fund Budgetary Highlights

The General Fund is the largest fund of the Unified Government, and it accounted for 77% percent of all taxes collected, and 70% of all property tax revenues received. The General Fund's major revenue sources in 2015 were property taxes (38%), sales taxes (21%) and franchise taxes (20%). Actual revenue collections, including other financing sources, for the general fund totaled \$200.0 million, compared to the 2015 budgeted figure of \$208.6 million.

The General Fund's original budgeted expenses were \$193,726,416. The final amended budget was \$204,189,574. However, actual expenditures of \$186,268,606 were 91.2 percent of budget. Significant variances between the amended budget and actual expenses were due to unexpended reserves, increased personnel costs, decreases in contractual services and delays in completing capital projects. Also, expenditures of approximately \$7,000,000 were not required for debt backed by annual appropriation because pledged project revenues were sufficient to cover the debt service payments.

Expenditures	Original Budget	Amended Budget	Increase/ Decrease	Actual	Difference
Personnel	\$ 140,215,320	\$ 142,099,370	\$ 1,884,050	\$ 141,658,997	\$ 440,373

UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS

**Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Position**

December 31, 2015

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balance - governmental funds **\$62,341,088**

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Cost	\$911,822,347	
Accumulated depreciation	<u>(362,832,074)</u>	548,990,273

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.

General obligation bonds payable	235,445,019	
Special obligation bonds payable	52,785,000	
Public Building Commission revenue bonds payable	9,660,000	
Sales tax obligation bonds payable	69,027,933	
Transportation development bonds	24,165,000	
Premium on bonds payable	11,941,710	
Discount on bonds payable	(1,110,302)	
Accrued interest payable on the bonds	5,581,279	
Section 108 loan	1,650,000	
Capital lease	6,839,477	
Accreted interest	9,674,340	
Compensated absences	42,322,250	
Claims and judgments	600,000	
OPEB liability	85,508,150	
Landfill closure / postclosure care	540,000	
Net pension liability	137,597,631	
Unfunded pension obligation	<u>255,919</u>	(692,483,406)

Other deferred outflows of resources are not due and payable in the current period and therefore are not reported in the funds.

Deferred refunding	1,099,713	
Deferred outflows - pensions	<u>12,334,854</u>	13,434,567

Other deferred inflows of resources do not increase net position until a future period and therefore are not reported in the funds.

Deferred inflows - pensions		(12,924,813)
-----------------------------	--	--------------

Interest subsidy from the Federal government is not considered available to liquidate liabilities of the current period, and is therefore deferred in the funds. However, the interest is properly recognized as a revenue in the government-wide statements.

189,164

Intergovernmental receivables are not considered available to liquidate liabilities of the current period, and is therefore deferred in the funds. However, the intergovernmental receivables are properly recognized as a revenue in the government-wide statements.

30,751,032

Special assessments are not considered available to liquidate liabilities of the current period, and are therefore deferred in the funds. However, they are properly recognized as revenue in the government-wide statements as soon as the related improvement has been completed.

2,323,130

Internal Service Funds are used by management to charge the costs of certain activities, such as insurance, to the individual funds. The assets and liabilities of certain internal service funds are included in governmental activities in the statement of net position.

(8,213,163)

Total net position - governmental activities **(\$55,592,128)**

UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS

Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended December 31, 2015

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds \$53,918,628

Governmental funds report capital asset acquisition as expenditures. However, in the statement of activities, the cost of assets capitalized is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capitalized assets in the current period.

Depreciation expense	(\$22,963,366)	
Capitalized assets acquired	22,463,135	(500,231)

The net effect of various transactions involving capital assets (i.e., sales and trade-ins) is to decrease net position. (20,909,715)

Bond and capital lease proceeds and premiums / discounts provide or use current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position.

General obligation bonds	(42,540,000)	
Special obligation bonds	(280,000)	
Public building commission bonds	(780,000)	
Sales tax obligation bonds	(42,072,912)	
Capital leases	(1,720,103)	
Premium	(4,401,703)	
Discount	579,274	(91,215,444)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

General obligation bonds	38,461,687	
Special obligation bonds	3,125,000	
Public building commission bonds	570,000	
Section 108 loan	379,000	
Sales tax obligation bonds	15,787,374	
Transportation development bonds	1,575,000	
Capital leases	2,307,856	62,205,917

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. (452,392)

The amortization of bond premiums, discounts and deferred refundings affects long-term assets, liabilities and deferred outflows of resources on the statement of net position, but does not provide or use current financial resources to governmental funds. 2,248,669

In the statement of activities, certain expenditures are measured by the amounts incurred during the year. In the governmental funds, however, expenditures are measured by the amount of financial resources used (essentially, the amounts actually paid).

Compensated absences paid that exceeded amounts earned		3,443,612
Pension benefits paid that exceeded amounts earned		9,821
Landfill closure / postclosure care obligations incurred		142,000
Other postemployment benefits earned		(7,086,485)

Payment of pension contributions is an expenditure in the governmental funds, but reduces the net pension liability in the statement of net position. Additionally, the effect of changes in deferred inflows and deferred outflows for pensions are only recorded in the statement of activities. 4,373,995

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities. (1,536,540)

Special assessments are not considered available to liquidate liabilities of the current period, and are therefore deferred in the funds. However, they are properly recognized as revenue in the statement of net position as soon as the related improvement has been completed. 124,774

Interest subsidy from the Federal government is not considered available to liquidate liabilities of the current period, and are therefore deferred in the funds. However, the interest is properly recognized as a revenue in the statement of activities. (4,742)

Payments received on the note receivable from the Sporting KC project is recognized as revenue when received in the funds. However, in the statement of net position the note was recognized as revenue when issued. (9,500,000)

Payments received on the intergovernmental receivables are recognized as revenue when received in the funds. However, in the statement of net position the intergovernmental receivables were recognized as revenue when issued. 6,124,278

In the statement of activities, interest is accreted on outstanding bonds, whereas in governmental funds, interest is accreted when interest payments are due. 3,000,103

Change in net position of governmental activities \$4,386,248

The notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Unified Government of Wyandotte County/Kansas City, Kansas (the Unified Government) is organized under the laws of the State of Kansas and is governed by an elected eleven-member board. The Unified Government was created October 1, 1997, based on a citizen vote to consolidate the operations of the City of Kansas City, Kansas and Wyandotte County. As required by generally accepted accounting principles (GAAP), these financial statements present the primary government and its component units, entities for which the Unified Government is considered to be financially accountable. Blended component units, although legally separate entities, are in substance, part of the government's operations.

Under Charter Ordinance of the Unified Government of Wyandotte County, Kansas City, Kansas (the Unified Government), pursuant to the Unified Government's constitutional home rule, the BPU is an administrative agency of the Unified Government and, as such, is a part of the Unified Government's primary government. However, the BPU's operational and administrative control is under a six-member elected board of directors (the Board).

Blended Component Unit – The Public Building Commission (PBC) was established to benefit the Unified Government and is governed by a five-member board. The Unified Government Board of Commissioners appoints all five members of the PBC Board and is able to impose its will on the PBC. The PBC has the authority to issue revenue bonds to finance the cost of acquiring and/or constructing land and facilities operated for a public purpose by the Unified Government. The PBC finances the debt service of the revenue bonds by leasing the land and facilities to the Unified Government. The Unified Government guarantees the rentals under the PBC lease. The PBC has no power to levy taxes, and revenue bonds issued by the PBC are not included in any legal debt limitations of the Unified Government. For financial reporting, the financial activities of the PBC are accounted for within the capital project funds of the Unified Government's financial statements.

Separate audited financial statements are not prepared by the PBC.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment; and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major

individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary funds and fiduciary funds financial statements, except for agency funds, which have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and thus have been recognized as revenue of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. Unrestricted aid is reported as revenue in the fiscal year during which the entitlement is received.

The Unified Government reports the following major governmental funds:

The *General Fund* is the Unified Government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Capital Projects Fund* accounts for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds.

The *Economic Development Fund* accounts for the servicing of transportation development and sales tax obligation bonds.

The Unified Government reports the following major proprietary funds:

The *Sewer System Fund* provides financing for water pollution control and is responsible for day-to-day and future operations, routing system maintenance and payment on revenue bonds.

The *Board of Public Utilities (BPU)* is an administrative agency of the Unified Government. The BPU operates and maintains the water and electric utilities owned by the Unified Government.

Additionally, the Unified Government reports the following fund types:

The *Internal Service Funds* account for workers' compensation reserves, health insurance reserves, and cafeteria plan reserves that provide services to other departments on a cost-reimbursement basis.

The *Agency Funds* are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. These funds are used to report resources held by the Unified Government in a custodial capacity for tax collection and related disbursements to other governments, as well as amounts held in a fiduciary capacity for remittance to individuals, private organizations, or other organizations.

Amounts reported as *program revenues* include: charges to customers or applicants for goods, services, or privileges provided; operating grants and contributions; and capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating revenue includes activities that have characteristics of exchange transactions, including charges for services. Nonoperating revenue includes activities that have the characteristics of nonexchange transactions, such as grants, subsidies, and investment income. Operating expenses for enterprise funds and internal service funds include the cost of sales and services administrative expenses, and depreciation on capital assets. All expenses not meeting the above criteria are classified as nonoperating.

The BPU's accounting policies conform to the requirements for rate regulated operations. In accordance with these rules, the BPU records certain costs or credits as deferred charges or credits when it is probable that future rates established by the Board permit recovery of specific costs or require these credits to be returned to ratepayers. The BPU applies the provisions of GASB Accounting Standards Codification Section Re10, *Regulated Operations*, as appropriate.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues, expenditures, expenses and other disclosures. Accordingly, actual results could differ from those estimates.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity

1. Deposits and Investments

The Unified Government maintains a cash and investment pool that is available for use by all funds except the BPU. The pool has the general characteristics of demand deposit accounts, in that each fund may deposit additional cash at any time and also, effectively, may withdraw cash at any time without prior notice or penalty. The pooled cash is invested to the extent available in authorized investments. Each fund's portion of the pool is displayed on their balance sheet as "Cash and temporary investments." The balance sheet also includes two other accounts for restricted cash and investments of the Unified Government. Restricted cash consists of assets held by trustees and various reserves required by revenue bond ordinances. For purposes of the statements of cash flows, the Unified Government considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

State statutes authorize the Unified Government to invest in temporary notes of the Unified Government; time deposits, United States Treasury notes, repurchase agreements, a municipal investment pool established through the trust department of commercial banks which have offices in

Wyandotte County, and the Kansas Municipal Investment Pool. This pool is not an SEC registered pool. The Pooled Money Investment Board (PMIB) provides the regulatory oversight for this pool. The reported value of the pool is the same as the fair value of the pool shares. Investments are stated at amortized cost which approximates fair value.

In addition to the preceding investments, state statutes authorize the Unified Government to invest proceeds of bonds and temporary notes in direct U.S. government and agency obligations, time deposits with banks located in Wyandotte County, repurchase agreements, investment agreements with financial institutions including broker/dealers whose obligations are rated in one of the three highest rating categories by either Moody's or Standard and Poor's, mutual funds whose portfolio consists entirely of obligations of the U.S. government, agencies, and bonds issued by any municipality of the State of Kansas.

The Unified Government maintains compensating balances with its depository bank to offset charges for check clearing and other services.

Interest income of the investment pool is allocated based on monthly fund balances to the debt service, capital projects and enterprise funds with the balance allocated to the general fund.

BPU investments consist of deposits, repurchase agreements, certificates of deposit, money market funds, and U.S. Treasury securities, which are recorded at estimated fair value as determined by market prices. BPU's investment policies are governed by the BPU's Charter Ordinance, management policies, and statutes established by the State of Kansas. Securities are held by BPU's safekeeping agent. Cash deposits are held with banks insured by Federal Deposit Insurance Corporation (FDIC) and acceptable collateral is maintained for amounts above FDIC limits, equal to or greater than 102% of the funds deposited at all times.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-types activities are reported in the government-wide financial statements as "internal balances."

Property tax receivable. In accordance with State statutes, property taxes levied during the current year are revenue sources to be used to finance the budget of the ensuing year. Taxes are assessed on a calendar year basis and are levied and become a lien on the property on November 1 of each year. The Unified Government Treasurer is the tax collection agent for all taxing entities within the Unified Government. Property owners have the option of paying one-half or the full amount of the taxes levied on or before December 20 during the year levied, with the balance to be paid on or before May 10 of the ensuing year. State statutes prohibit the Unified Government Treasurer from distributing taxes collected in the year levied prior to January 1 of the ensuing year. Consequently, for revenue recognition purposes, the taxes levied during the current year are not due and receivable until the ensuing year. At December 31, such taxes are a lien on the property and are recorded as taxes receivable, net of anticipated delinquencies, with a corresponding amount recorded as deferred inflows of resources. The property tax receivable allowance is equal to 7.87% percent of outstanding property taxes at December 31, 2015.

Sales tax receivable. The Unified Government has a 2.625% local sales tax collected by the State and remitted to the Unified Government monthly. One-quarter of one percent is pledged for EMS operations, three-eighths of one percent is pledged for public safety and public works projects, and the remainder is pledged for operations. The accrued sales tax receivable represents the sales tax collected by merchants at year-end.

Special assessments receivable. As required by State statutes, projects financed in part by special assessments are financed through the issuance of general obligation bonds which are secured by the full faith and credit of the Unified Government and are retired from the Unified Government bond and interest fund. Further, State statutes permit levying additional general ad valorem property taxes in the Unified Government bond and interest fund to finance delinquent special assessments receivable. Consequently, special assessments receivable are accounted for within the Unified Government bond and interest fund. Special assessment taxes are levied over a ten or fifteen year period, and the annual installments are due and payable with annual ad valorem property taxes. The Unified Government may foreclose liens against property benefited by special assessments when delinquent assessments are two years in arrears. At December 31, the special assessment taxes levied are a lien on the property and are recorded as special assessments receivable in the bond and interest fund with a corresponding amount recorded as deferred inflows of resources.

Intergovernmental receivable. The Unified Government has an intergovernmental receivable from the State of Kansas related to the State's share of the annual appropriation Sales Tax Limited Obligation Revenue Bonds. At December 31, the receivable is recorded in the economic development fund, with a corresponding amount recorded as deferred inflows of resources. See footnotes III.F. for further information on this receivable.

BPU and Sewer Fund accounts receivable and revenue. The BPU utilizes cycle billing and accrues the amount of revenues for sales unbilled at the end of each reporting period. An estimate is made for the provision for uncollectible accounts based on an analysis of the aging of accounts receivable and historical write-offs, net of recoveries. Additional amounts may be included based upon management's evaluation of customer credit risks. Allowances totaled \$1,327,979 in fiscal year 2015. The BPU also provides billing service for the Sewer Fund using the same procedures as described above. The BPU remits collected revenues monthly to the Unified Government for Sewer Fund charges for service. The Unified Government accrues a receivable in the Sewer Fund for services provided, not yet collected at the end of the reporting period.

3. Inventories and Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Inventories of governmental funds are recorded as expenditures during the year of purchase. Inventories are valued at the lower of average cost or market.

Inventories:	
Fuel	\$ 8,312,857
Material and supplies	<u>21,606,083</u>
Total	<u>\$ 29,918,940</u>

4. Restricted Assets

Certain proceeds of the Unified Government's enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. The BPU also requires certain resources of the utility system to be classified as restricted assets for compliance with certain revenue bond indebtedness. The "debt service reserve" account is used to segregate resources accumulated for principal and interest payments on bonds in the event that the net revenues of the utility system are less than or equal to 130% of the maximum annual debt service on the bonds. The "construction reserve" account is used to report resources set aside for acquiring, constructing and installing capital improvements. The "improvement and emergency" account is used to report resources set aside to finance major renewals, repairs and replacement and extraordinary or unforeseen expenditures.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of the Sewer System and Stormwater Funds are included as part of the capitalized value of the asset constructed. For the BPU, interest costs incurred to finance construction work-in-progress, net of interest income from tax-exempt bonds, are also capitalized.

Property, plant and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Governmental Activities</u>	<u>Sewer System</u>	<u>EMS</u>
Land Improvements	30 years		
Machinery and equipment	6 to 10 years	6 to 10 years	5 to 10 years
Sewer lines		50 years	
Street and bridge infrastructure	10 to 40 years		
Structures and improvements	20 to 40 years		
Treatment plants and other facilities		33 years	
Other public domain infrastructure	30 years		
Computer Software	5 years		

<u>Assets</u>	<u>Stormwater</u>	<u>Public Levee</u>	<u>Sunflower Hills Golf Course</u>	<u>T- Bones Stadium</u>
Land Improvements		30 years	30 years	
Machinery and equipment		6 to 10 years	5 to 10 years	
Sewer lines	50 years			
Street and bridge infrastructure				
Structures and improvements			30 to 40 years	40 years
Treatment plants and other facilities	33 years			
Other public domain infrastructure				
Computer Software				

Depreciation for the BPU is computed on a straight-line basis using composite rates. In 2014, BPU engaged in independent third-party consulting firm to conduct a depreciation study to determine if existing depreciation rates remained applicable to the depreciable property groups. New depreciation rates resulting from the study was adopted during fiscal year 2015 as follows:

Production plant	1.97% to 9.69%
Transmission and distribution	1.36% to 8.76%
General plant	2.52% to 7.75%

Capital assets are reviewed for impairment whenever events or changes in circumstances indicate that the service utility of an asset has declined significantly and unexpectedly.

6. Regulatory Assets and Deferred Inflows

The BPU is subject to provisions of GASB Codification Section Re10, *Regulated Operations*, and has recorded assets and liabilities on its statements of net position resulting from the effects of the rate-making process, which would not be recorded under U.S. generally accepted accounting principles for nonregulated entities. Regulatory assets represent costs incurred that have been deferred because future recovery in customer rates is probable. Deferred inflows generally represent probable future reductions in revenue or refunds to customers. Management regularly assesses whether regulatory assets and deferred inflows are probable of future recovery or refund. If recovery or refund of regulatory assets or deferred inflows is not approved by the Board, which is authorized to approve rates charged to customers or is no longer deemed probable, these regulatory assets or deferred inflows are recognized in the current period of operations. Additionally, these factors could result in an impairment of utility plant assets if the cost of the assets could not be expected to be recovered in customer rates. Regulatory assets and deferred inflows as of December 31, 2015 consisted of minor benefits and mine reclamation costs, and recovery fuel purchased power costs of \$536,319 and \$2,112,487, respectively.

The BPU has an energy adjustment rate rider (ERC). Estimated retail tariffs are set to recover estimated fuel costs such as coal, natural gas, and purchases power. The ERC allows differences between these estimates and actual fuel and purchased power costs to be deferred as a regulatory asset or a deferred inflow depending on the nature of the variance between estimated and actual costs incurred.

7. Compensated Absences

Unified Government of Wyandotte County/Kansas City, Kansas employees. The number of vacation days awarded to a permanent, full-time employee is dependent upon the individual employee's number of continuous years of service. The number of days of annual vacation range from 10 to 28 days for full-time regular employees, 15 to 30 days for command officers of the police and fire departments, and 216 to 288 hours for fire officers on 24-hour shifts. Selected part-time employees accrue one-half the number of hours accrued by full-time regular employees. Employees are not eligible to use the earned time until completion of their probationary period, defined as six months. If certain conditions are satisfied and if appropriate approval is received, an employee may carry over to the following year earned and unused vacation time. Payment of unused vacation leave will be made upon separation of employment.

Permanent, full-time employees also earn and accumulate sick leave time at the rate of 8-10 hours for each minimum month of service. Selected part-time employees accrue sick leave time at the rate of one-half the full-time rate (4-5 hours) for each minimum month of service. Unused sick leave may be carried over indefinitely. Payment of unused sick leave will be made upon separation of employment based on a prorated formula.

In governmental fund financial statements, a liability is accrued when it has matured, for example, as a result of employee resignations and retirements.

Proprietary fund types accrue vacation and sick pay as earned. The liabilities are based on current salary costs and the vested portion of accumulated benefits.

BPU employees. Under the terms of the BPU's personnel policy, employees are granted vacation and sick leave. In the event of termination, an employee is paid for accumulated vacation days. Employees may carry over a maximum of 80 hours of vacation hours for bargaining unit employees and 120 hours for non-bargaining unit employees. Sick leave can be accrued up to 1,760 hours. Employees who resign with at least fifteen years of service are paid for 75 percent of accumulated sick leave. All employees are paid for accumulated sick leave upon retirement or death.

The BPU accrues vacation and sick pay as earned. The liabilities are based on current salary costs and the vested portion of accumulated benefits.

8. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Pensions

Unified Government of Wyandotte County/Kansas City, Kansas employees. For the year ended December 31, 2015, the Unified Government implemented provisions of GASB 68, Accounting and Financial Reporting for Pensions and GASB 71, Pension Transition for Contributions Made subsequent to the Measurement Date. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Kansas Public Employees Retirement System (KPERs) and additions to/deductions from KPERs' fiduciary net position have been determined on the same basis as they are reported by KPERs. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

BPU employees. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Retirement Pension Plan for Employees of the Board of Public Utilities of Kansas City, Kansas (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Equity Classifications

In the government-wide statements, equity is shown as net position and classified into three components:

- (1) Net investment in capital assets – consisting of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, leases, or other borrowings that are attributable to the acquisitions, construction, or improvements of those assets
- (2) Restricted net position – consisting of net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The Unified Government and the BPU first utilize restricted resources to finance qualifying activities.
- (3) Unrestricted net position – All other net position that does not meet the definition of "restricted" or "net investment in capital assets".

In the governmental funds, equity is shown as fund balance and classified into five components:

- (1) Non-spendable – Assets legally or contractually required to be maintained or are not in spendable form. Such constraint is binding until the legal requirement is repealed or the amount becomes spendable.
- (2) Restricted – Assets with externally imposed constraints such as those mandated by creditors, grantors and contributors, or laws and regulations. Such constraint is binding unless modified or rescinded by the applicable external body, laws or regulations.
- (3) Committed – Assets with a purpose formally imposed by the Unified Government Board of Commissioners (Board) using its highest level of authority, binding unless modified or rescinded by the Board. The highest level of authority for the Board when acting as a county governing body is a resolution. The highest level of authority for the Board when acting as a city is an ordinance.
- (4) Assigned – Comprises of amounts intended to be used for specific purposes that are neither restricted nor committed. Intent is expressed by a) the Unified Government Board of Commissioners (Board) or b) a body or official to whom the Board has delegated the authority. The Board has delegated authority to the County Administrator and Department Heads to assign amounts to be used for specific purposes as prescribed by the Unified Government's Fund Balance Policies.
- (5) Unassigned – All amounts not included in the other fund balance classifications. The general fund shall be the only fund to report positive unassigned fund balance. All other governmental funds may report negative unassigned fund balance.

In circumstances when expenditure is made for a purpose which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

11. *Deferred inflows of Resources/Deferred Outflows of Resources*

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The Unified Government has two items that qualify for reporting in this category in the government-wide statement of net position and proprietary funds statement of net position, deferred charge on refunding and deferred outflows for pensions. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. See Note IV. E. for more information on the deferred outflows for pensions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Unified Government has four types of items, unavailable revenue, deferred revenue, recovery of the Energy Rate Component (ERC) rider and deferred inflows for pensions, which qualify for reporting in this category. Unavailable revenue, which arises only under a modified accrual basis of accounting, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from three sources: intergovernmental receivable, grants receivable and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred revenues are reported in both the government-wide statement of net position and the governmental

funds balance sheet for property tax receivable. Property taxes are not recognized as revenue until the period for which they are levied. The ERC rider is reported in both the government-wide statement of net position and the proprietary funds statement of net position. The fourth item, deferred inflows for pensions, is reported in both the government-wide statement of net position and the proprietary funds statement of net position. See Note IV. E. for more information on this deferred inflow.

12. *Payment-in-lieu of Taxes (PILOT)*

The BPU is exempt from federal and state income taxes and local property taxes because it is an administrative agency of the Unified Government. However, the BPU is required by a Charter Ordinance to pay a percentage of gross operating revenues to the Unified Government. The Charter Ordinance established a range of 5.0 to 15.0%. Currently, the payment-in-lieu of taxes is established at 11.9%, which amounted to \$30,658,851 during 2015. The PILOT is billed and collected by the BPU through incorporation in the rates as a supplemental rate rider. PILOT revenues and expenses are recorded as transfers in and transfers out in the general fund and BPU fund, respectively.

In addition to these payments to the Unified Government, the BPU also contributes free services to the Unified Government, such as street lighting, fire hydrant services, traffic signals, and collection of sewer and trash charges. These service contributions approximated \$14,210,000 or 5.22% of the BPU's total revenue for 2015.

13. *Pending Governmental Accounting Standards Board Statements*

GASB Statement No. 72, *Fair Value Measurement and Application*, addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market guidance for determining a fair value measurement for financial reporting purposes. This statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The provisions of this statement are effective for financial statements for the Unified Government's fiscal year ending December 31, 2016.

GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes financial reporting standards for state and local governmental OPEB plans that are administered through trusts or equivalent arrangements and for governments that hold assets accumulated for purposes of providing OPEB through defined benefit OPEB plans that are not administered through a trust or equivalent arrangement. The provisions of this statement are effective for financial statements for the Unified Government's fiscal year ending December 31, 2017.

GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions* and requires governments to report a liability on the face of the financial statements for the OPEB that they provide. Statement No. 75 requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information (RSI) about their OPEB liabilities. Among the new note disclosures is a description of the effect on the reported OPEB liability of using a discount rate and a healthcare cost trend rate that are one percentage point higher and one percentage point lower than assumed by the government. The new RSI includes a schedule showing the causes of increases and decreases in the OPEB liability and a schedule comparing a government's actual OPEB contributions to its contribution requirements. The provisions of this statement are effective for financial statements for the Unified Government's fiscal year ending December 31, 2018.

GASB Statement No. 77, *Tax Abatement Disclosures*, increases the disclosure requirements for tax abatements affecting the government entity and its ability to raise resources in the future. This standard applies to a reporting government's own tax abatement agreements or agreements entered into by other governments and that reduce the reporting government's tax revenues. The government

that enters into the agreement must begin disclosing (1) brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provision for recapturing abated taxes, and the types of commitments made by tax abatement recipients, (2) the gross dollar amount of taxes abated during the period and (3) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. For governments impacted by other governments' tax abatements, the following must be disclosed: (1) the names of the governments that entered into the agreements, (2) the specific taxes being abated, and (3) the gross dollar amount of taxes abated during the period. The provisions of this statement are effective for financial statements for the Unified Government's fiscal year ending December 31, 2016.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purpose. This statement establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. Those disclosures for both the qualifying external investment pools and their participants include information about any limitations or restrictions on participant withdrawals. The provisions of this statement are effective for financial statements for the Unified Government's fiscal year ending December 31, 2016.

GASB Statement No. 80, *Blending Requirements for Certain Component Units*, amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. The provisions of this statement are effective for financial statements for the Unified Government's fiscal year ending December 31, 2017.

GASB Statement No. 82, *Pension Issues*, addresses certain issues that have been raised with respect to Statement No. 67, Statement No. 68 and Statement No. 73. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in the Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The provisions of this statement are effective for financial statements for the Unified Government's fiscal year ending December 31, 2017.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

State statutes require that an annual operating budget be legally adopted for the general fund, special revenue funds, debt service funds and enterprise funds, (unless the fund is specifically exempted by statute). Kansas statutes provide for the following sequence and timetable of the legal annual operating budget:

- Preparation of the budget for the succeeding calendar year on or before August 1st.
- Publication in local newspaper of the proposed budget and notice of public hearing on the budget on or before August 5th.

- Public hearing on or before August 15th, but at least ten days after publication of notice of hearing.
- Adoption of the final budget on or before August 25th.

The Unified Government has the following levels of budget control:

- The legal level of control is established at the fund level by State statutes which also permit the transfer of budgeted amounts from one object code or purpose to another within the same fund.

While the legal level of control is at the fund level, the Unified Government also has the following internal policies:

- The Unified Government further controls spending by requiring that no expenditures be committed that would exceed the amount appropriated for the spending category (eg Personnel Services, Contractual Services) without the department first obtaining approval. The following types of budget adjustments require department director approval and additional approval by the County Administrator's Office:
 - An appropriation of contingency funds
 - An appropriation of reserve funds
 - Budget adjustments that move funds between operating and capital budgets
 - Budget adjustments within a fund that are equal to or greater than \$10,000

The following actions require budget director's approval before execution:

- Pre Bid Contracts
- Capital Project Contracts
- Capital Equipment Purchases
- Changing status of an unfunded personnel position to funded or creation of a new personnel position.

The following budgetary controls have been implemented and will be adhered to by all departments and divisions:

- Budget adjustments from the salary accounts require department director, Chief Financial Officer, and County Administrator's Office approvals.
- Budget adjustments between other accounts with department director approval.
- Budget adjustments from one division to another division with both divisions being in the same fund with department director and the transferring division manager approvals.
- As allowed by State statute, the governing body can increase the fund level expenditures by amending the budget. An amendment may only be made for previously unbudgeted increases in revenue other than ad valorem taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after the publication, the hearing may be held and the governing body may amend the budget at that time.

Budget comparison statements are presented for each budgeted fund showing the actual receipts and expenditures compared to budgeted receipts and expenditures. Transfers to close funds can exceed the amount budgeted for that object code. The Unified Government of Wyandotte County/Kansas City, Kansas budget amounts presented in the statements that compare actual expenditures to the budget are the amended amounts.

All unencumbered appropriations (legal budget expenditure authority) lapse at year-end, except for capital project funds appropriations that are carried forward until such time as the project is completed

or terminated. Encumbered appropriations are not reappropriated in the ensuing year's budget but are carried forward until liquidated or canceled.

A legal operating budget is not required for the following Unified Government funds:

- Capital Projects
- Public Building Commission
- Internal Service
- Special Revenue: Community Development
- Special Revenue: Revolving Loan Fund
- Special Revenue: Special Grants
- Special Revenue: Special Law Enforcement
- Debt Service: Economic Development
- Agency Funds

Controls over spending in the above non-budgeted funds, which are not subject to the legal budget requirements, are maintained by the review and internal appropriation process established by management.

B. Deficit Fund Equity

At December 31, 2015, the Workers' Compensation Fund and the Self-Insured Health Care Fund had deficits of \$4,457,603 and \$3,902,985, respectively, which will be recovered from future internal charges to the Unified Government's other funds. The Community Development Fund had a deficit fund balance of \$737,744 which will be recovered from future intergovernmental revenues. The EMS Fund and the Sunflower Hills Golf Course Fund had deficit fund balances of \$7,809,942 and \$410,189, respectively, which will be recovered from future charges for services. The Public Levee Fund had a deficit fund balance of \$1,705,491 which will be recovered from future earned lease income. The Capital Projects Fund had a deficit fund balance of \$2,947,495, which will be recovered from future bond issuances.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

1. Unified Government.

The Unified Government (excluding the BPU) has adopted a formal Cash Management and Investment Policy. Primary objectives of investment activities are, in order of priority, safety, diversification, liquidity, maturity, and return on investment. The standard of care to be used by investment officials shall be the "prudent person standard" and shall be applied in the context of managing an overall portfolio. This rule states "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence would exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

Custodial Credit Risk. Custodial credit risk is the risk that in the event of a bank failure or failure of the investment counter-party, the Unified Government's deposits may not be returned to it, or it will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Unified Government requires that deposits be fully collateralized at all times. Acceptable collateral for deposits follows the provisions of state law. Peak period collateral agreements are not permitted under the Unified Government's policy. As of December 31, 2015, the market value of assets pledged to the Unified Government as collateral exceeded amounts on deposit.

The Unified Government requires all security purchases be settled on a delivery versus payment basis with an independent third-party custodian designated by the Unified Government. As of December 31, 2015, the Unified Government had \$17,901,826 of investments in U.S. government agency securities which were held by the investment's counterparty.

Interest Rate Risk. Interest rate risk is the risk that the fair value of securities in the portfolio will fall due to changes in general interest rates. Through its investment policy, the Unified Government manages this risk by structuring investments so that securities mature to meet cash flows of the general operating fund, and by investing general operating funds primarily in shorter-term securities. Additionally, the investment policy limits investments to a maximum stated maturity of four years.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. Kansas law limits the types of investments that can be made. The Unified Government's investment policy does not impose any additional limitations. In accordance with the investment policy, credit risk is minimized by limiting investments to the safest types of securities, by pre-qualifying financial institutions, broker/dealers, intermediaries, and advisors with whom the Unified Government will do business, and by diversifying the investment portfolio so that potential loss on individual securities will be minimal. As of December 31, 2015, the securities underlying repurchase agreements included U.S. agency obligations not explicitly guaranteed by the U.S. government. The securities had ratings of AAA by Moody's and AA+ by Standard and Poor's. Investments in interest-earning investment contracts are not rated.

Concentration of Credit Risk. The Unified Government investment policy limits the amount of investments that can be placed with a single financial institution to no more than 60% of the total investment portfolio. The following maximum limits, by investment type, are also established:

<u>Investment Type</u>	<u>Maximum % of Portfolio</u>
Certificates of deposit	100%
U.S. Treasury bills or notes	100%
U.S. Government agency obligations	50%
Kansas Municipal Investment Pool	50%
Repurchase agreements	25%
Bank trust department municipal pools	25%
Temporary notes or no-fund warrants	10%

At December 31 2015, the Unified Government did not hold more than 5% of its portfolio in any individual issuer.

At December 31, 2015, the Unified Government (excluding the BPU) had the following investments:

	Fair Value	Investment Maturities (in Years)	
	Fair Value	Less Than 1	1-5
Repurchase agreements	\$ 104,918,000	\$ 104,918,000	\$ -
U.S. government agencies	17,901,826	6,845,136	11,056,690
Certificates of deposit	<u>98,190,000</u>	<u>24,190,000</u>	<u>74,000,000</u>
Subtotal general operating portfolio	221,009,826	135,953,136	85,056,690
Assets held by trustee:			
U.S. Treasuries	22,158,232	21,863,445	294,787
U.S. government agencies	<u>16,033,912</u>	<u>12,510,467</u>	<u>3,523,445</u>
Subtotal assets held by trustee	38,192,144	34,373,912	3,818,232
Total Investments	<u>\$ 259,201,970</u>	<u>\$ 170,327,048</u>	<u>\$ 88,874,922</u>

2. BPU.

The BPU maintains a cash and investment program to pay for operating and capital requirements as well as for debt service requirements. The investment program is comprised of deposits, repurchase agreements, certificates of deposit, and U.S. Treasury securities. Other investments using U.S. Agency and money market fund securities for the debt service program are managed by the bond trustee. Nearly all maturities of securities were less than one year. At December 31, 2015, the bank balance and certificates of deposit were \$841,843, which was covered by federal depository insurance and collateral held in safekeeping in the BPU's name.

The BPU has an investment policy that regulates investments in securities that have objectives of safety of principal, liquidity with all investments in U.S. dollars, and investment returns optimized within the constraints of safety and liquidity. Eligible securities are specific to Kansas State Statutes and the BPU's bond indenture agreements. All securities owned by BPU are in conformance with the investment policy.

Custodial Credit Risk. The BPU believes it has no custodial risk. All deposits with banks are collateralized at 102% of market value, as required by the BPU's cash and investment policy and Kansas state statute, less insured amounts. All securities are registered in the name of the BPU and held by a third-party safekeeping agent. Investments in money market mutual funds are not exposed to custodial risk because their existence is not evidenced by securities that exist in physical or book entry form.

Interest Rate Risk. The BPU minimizes the risk of market value changes by structuring the investment portfolio so that fixed income securities mature to meet cash requirements for debt service and other disbursement requirements for ongoing operations and by keeping maturities short.

Credit Risk. The BPU manages credit risk by requiring all investments meet the investment guidelines as established by the State of Kansas as described in K.S.A 12-1675 and 10-131. This requires all investments be in U.S. Treasury securities, in U.S. agency securities, or in any external investment pools, Money Market Mutual Funds, or Repurchase Agreement securities be the highest rated by nationally recognized rating agencies. All of the BPU's securities including money market funds are AAA rated by Moody's. Any bank deposits and including certificates of deposit are fully collateralized by the FDIC or other qualifying securities. All securities held by the BPU meet the credit quality objective.

Concentration of Credit Risk. The BPU manages credit risk by requiring all investments meet the investment guidelines as established by the State of Kansas in K.S.A. 12-1675 and 10-131 and diversifying investment holdings to avoid high concentration of any one security issuer. The BPU has a concentration of credit risk where it holds more than 5% of its investment portfolio in any one security

issuer other than U.S. Treasury securities and in investment pools. The following U.S. Agency securities held in safekeeping by the BPU's bond trustees are in excess of 5% of total investments:

<u>Issuer</u>	<u>Amount</u>	<u>% of total portfolio</u>
FNMA	\$ 5,354,890	5.17%

The fair values, as determined by market prices, of the BPU's investments at December 31, 2015 are as follows:

	<u>Fair Value</u>	<u>Investment maturities</u>	
		<u>Less Than 6 months</u>	<u>6-12 months</u>
Cash and CD's	\$ 841,843	\$ 841,843	\$ -
Repurchase agreements	52,192,337	52,192,337	-
US Agency	14,884,384	8,809,906	6,074,478
Money market funds	<u>35,598,538</u>	<u>35,598,538</u>	-
Total Investments	<u>\$ 103,517,102</u>	<u>\$ 97,442,624</u>	<u>\$ 6,074,478</u>

A reconciliation of cash and investments is as follows:

	<u>Unified Government</u>	<u>BPU</u>	<u>TOTAL</u>
Cash on hand	\$ 16,661	\$ -	\$ 16,661
Carrying amount of deposits	1,559,982	841,843	2,401,825
Cash with others	2,326,904	-	2,326,904
Investments	221,009,826	102,675,259	323,685,085
Investments, assets held by trustee	<u>38,192,144</u>	<u>-</u>	<u>38,192,144</u>
Total	<u>\$ 263,105,517</u>	<u>\$ 103,517,102</u>	<u>\$ 366,622,619</u>

	<u>Unified Government</u>	<u>BPU</u>	<u>TOTAL</u>
Cash and temporary investments	\$ 217,669,293	\$ 45,566,807	\$ 263,236,100
Restricted cash and investments	<u>45,436,224</u>	<u>57,950,295</u>	<u>103,386,519</u>
Total	<u>\$ 263,105,517</u>	<u>\$ 103,517,102</u>	<u>\$ 366,622,619</u>

B. Capital Assets

Capital asset activity for the year ended December 31, 2015 was as follows:

Governmental activities:	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets, not being depreciated:				
Land	\$ 8,658,160	\$ 13,515	\$ -	\$ 8,671,675
Construction in progress	26,299,580	18,709,220	7,103,562	37,905,238
Total capital assets, not being depreciated	<u>34,957,740</u>	<u>18,722,735</u>	<u>7,103,562</u>	<u>46,576,913</u>
Capital assets, being depreciated:				
Buildings	163,117,546	1,530,447	-	164,647,993
Improvements other than buildings	39,505,026	70,577	-	39,575,603
Machinery and equipment	54,295,469	3,740,400	3,721,658	54,314,211
Infrastructure	628,610,575	5,502,538	27,405,486	606,707,627
Total capital assets, being depreciated	<u>885,528,616</u>	<u>10,843,962</u>	<u>31,127,144</u>	<u>865,245,434</u>
Less accumulated depreciation for:				
Buildings	85,910,760	3,217,990	-	89,128,750

Total capital assets, being depreciated, net	911,513,929	21,085,356	1,491,989	931,107,296
Business-type activities capital assets, net	\$ 1,024,203,444	\$ 141,628,155	\$ 67,921,129	\$ 1,097,910,470

Depreciation and amortization expense reported in the BPU fund reflects a correction in the current period for additional depreciation expense of \$10,814,147 that should have been taken in previous years. This correction relates to adjusting certain capital assets to being depreciated at their proper useful life.

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:	
General government	\$ 520,727
Health and Welfare	65,535
Public Safety	2,020,404
Judicial	31,630
Highways and streets, including depreciation of general infrastructure assets	18,578,402
Planning and development	1,528,207
Culture and recreation	<u>218,461</u>
Total depreciation expense – governmental activities	<u>\$ 22,963,366</u>
Business-type activities:	
Sewer	\$ 5,432,152
Sunflower Hills Golf Course	179,101
EMS	453,563
Stormwater Enterprise	182,730
Stadium	80,771
BPU	<u>39,033,907</u>
Total depreciation expense – business-type activities	<u>\$ 45,362,224</u>

C. Interfund Receivables and Payables and Transfers

The composition of interfund balances as of December 31, 2015, is as follows:

Interfund receivables and payables:

	Interfund Receivables	Interfund Payables
General	\$ 5,288,999	\$ -
Capital Projects	15,437	132,710
Economic Development	-	13,019
Nonmajor governmental funds	919,976	926,349
Sewer enterprise fund	-	314,904
Nonmajor enterprise funds	-	912,240
Internal service funds	<u>-</u>	<u>3,925,190</u>
Total	<u>\$ 6,224,412</u>	<u>\$ 6,224,412</u>

Interfund balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. The interfund payables due from certain nonmajor governmental funds include amounts owed to the General Fund for the reimbursement of certain indirect costs. In addition, interfund payables from the Internal Service Funds include amounts owed the General Fund for negative cash balances.

The composition of interfund transfers for the year ended December 31, 2015, is as follows:

Transfers Out:	Transfers In:							Total
	General	Capital Projects	Economic Development	NonMajor Governmental	Sewer	Non-Major Enterprise	Internal Service	
General	\$ -	\$ -	\$ -	\$ 579,088	\$ 250,000	\$ 38,996	\$ 2,250,000	\$ 3,118,084
Capital Projects	-	-	5,516,377	665,926	82,588	52,951	-	6,317,842
Economic Development	-	-	-	-	-	-	-	-
Nonmajor Governmental	1,483	827,262	204,168	895,000	323,819	89,383	-	2,341,115
Sewer	-	7,059,921	-	123,174	-	-	-	7,183,095
BPU	30,658,851	-	-	-	-	-	-	30,658,851
Nonmajor Enterprise fund	2,256,000	4,449,703	-	29,842	-	-	-	6,735,545
	\$ 32,916,334	\$ 12,336,886	\$ 5,720,545	\$ 2,293,030	\$ 656,407	\$ 181,330	\$ 2,250,000	\$ 56,354,532

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt services from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

In 2015, PILOT revenues and expenses of \$30,658,851 are recorded as transfers in and transfers out in the general fund and BPU fund, respectively. Additionally, the capital projects fund constructed capital assets in the amount of \$6,478,656 and \$1,493,020 to the sewer and stormwater funds, respectively. This activity is shown as an expenditure from the capital project fund and capital contribution revenue to the sewer and stormwater funds, in the fund financial statements. However, this activity is shown within transfers in the government-wide financial statements.

Nonroutine transfers include \$2,000,000 from the General Fund to the Employee Hospitalization Fund for prior year payments not made into this fund and to provide additional funding for self-insurance activities. Additionally, the capital projects fund transferred \$5,516,377 of escrowed cash funds to the economic development fund to make future debt payments.

D. Leases

Operating Leases

The Public Levee is located in the Fairfax Industrial District. Effective August 1, 2014, a new agreement was reached with a third party for a long term ground lease. This agreement, which has a term of 58 years and 5 months, called for the demolition of existing structures and the building of a new industrial building containing between 300,000 and 400,000 square feet. As of December 31, 2015, the existing structures were demolished and the new industrial building was completed. The third party retains ownership of the new industrial building. The lease covers only the ground, which has an original cost of \$116,598.

In February 2014, the Unified Government entered into a management agreement with a third party to operate Community American Ballpark Stadium (Stadium). This agreement is for a 20 year term. Property leased under this agreement includes the Stadium with a cost of \$6,075,017 and accumulated depreciation of \$116,224 at December 31, 2015.

In November 2010, the Unified Government entered into a lease with the Kansas Speedway Corporation to lease 2,000 parking spaces for use in connection with the Sporting KC soccer stadium. Annual lease payments for use of the parking spaces are \$325,000, commencing in 2011. Annual rent payments shall be adjusted every five years by the cumulative and compounded percentage increase in the Consumer Price Index. The initial term of the lease is through December 31, 2031.

The following is a schedule of future minimum rentals to be received on non-cancelable operating leases by the Public Levee and the Stadium, and of future minimum rent payments to be made to the Kansas Speedway Corporation as of December 31, 2015:

Year ending December 31,	Public Levee Lease	Stadium Lease	Rent payments for parking
2016	\$ 327,058	\$ 33,259	\$ 325,000
2017	327,058	34,253	325,000
2018	327,058	36,987	325,000
2019	327,058	38,438	325,000
2020	215,001	39,591	325,000
Thereafter	10,253,359	810,252	3,575,000
Total	\$ 11,776,592	\$ 992,780	\$ 5,200,000

Capital Leases

The Unified Government has equipment under various capital leases. To account for financing leases, the Unified Government charges payments made during the fiscal period as debt service in governmental funds. In the year that the asset is received, the Unified Government records the present value of future lease payments as a capital outlay expenditure and as an offsetting other financing source. The present value of payments due in future periods is shown as a liability in long-term debt.

Assets acquired under capital lease consist of the following:

	Governmental Activities	Sewer	Sunflower Hills Golf Course	EMS
Machinery and equipment	<u>\$ 13,442,830</u>	<u>\$ 1,862,613</u>	<u>\$ 448,335</u>	<u>\$ 3,277,488</u>

Amortization of leased assets is included with depreciation expense on the Statement of Activities.

The future minimum lease obligation and the net present value of these minimum lease payments as of December 31, 2015, were as follows:

Year ended December 31,	Governmental Activities	Business-type Activities		
		Sewer	Sunflower Hills Golf Course	EMS
2016	\$ 2,151,646	\$ 273,752	\$ 61,740	\$ 881,375
2017	1,370,864	208,091	61,740	609,134
2018	1,276,211	-	61,740	334,812
2019	1,009,082	-	6,268	-
2020	653,310	-	-	-
2021-2025	837,849	-	-	-
2026-2030	-	-	-	-
Total minimum lease payments	7,298,962	481,843	191,488	1,825,321
Less: Amount representing interest	(459,485)	(10,754)	(4,441)	(32,729)
Present value of minimum lease payments	<u>\$ 6,839,477</u>	<u>\$ 471,089</u>	<u>\$ 187,047</u>	<u>\$ 1,792,592</u>

E. Temporary Notes

Kansas law permits the issuance of temporary notes to finance certain capital improvement projects which will be refinanced with general obligation bonds. Prior to the issuance of the temporary notes, the governing body must take the necessary legal steps to authorize the issuance of general obligation bonds. Temporary notes issued may not exceed the aggregate amount of bonds authorized, are interest bearing, and have a maturity date not later than four years from the date of issuance. At December 31, 2015, the Unified Government had \$67,410,000 outstanding in temporary notes.

All temporary notes at December 31, 2015, have a maturity of no later than March 1, 2016 and have interest rates ranging from 0.20% to 0.50%.

Temporary note activity for the year ended December 31, 2014 was as follows:

Outstanding Jan. 1, 2015	Issued	Redeemed	Outstanding Dec. 31, 2015
\$ 80,245,000	\$ 67,410,000	\$ (80,245,000)	\$ 67,410,000

F. Long-term Liabilities

Summary of Long-Term Liabilities. The following is a summary of changes in long-term debt of the Unified Government for the year ended December 31, 2015:

	Outstanding January 1, 2015	Prior Period Adjustment	Additions	Deletions	Outstanding December 31, 2015	Due Within 1 Year
Governmental activities:						
General Obligation:						
General obligation bonds	\$ 194,613,291	\$ -	\$ 39,585,000	\$ 35,507,016	\$ 198,691,275	\$ 11,163,530

Total	\$ 747,010,151	\$ (4,715,446)	\$ 85,025,186	\$ 78,552,005	\$ 748,767,886	\$ 30,302,788

For the governmental activities, compensated absences, claims and judgments, the unfunded pension obligation, OPEB liability and net pension liability are generally liquidated by the general fund. Compensated absences, OPEB liability and net pension liability will be liquidated by the governmental funds share of these payroll related costs. Landfill closure and post closure care costs are expected to be liquidated by the Environmental Trust Fund.

Special Assessment and General Obligation Bonds. The remaining debt service requirements for general obligation and special assessment bonds will be paid from the respective bond and interest funds with future property tax revenues and special assessment taxes.

At December 31, 2015, the bonds outstanding for the Unified Government consisted of the following:

Description and Purpose	Amount of Original Issue	Range of Final Maturity Dates	Range of Interest Rates	Amount Outstanding Dec 31, 2015
2006 GO Bonds	\$ 39,685,000	2006-2025	4.00-5.50%	\$ 2,155,000
2007 GO Bonds	16,805,000	2007-2027	4.00-5.50%	1,650,000
2008 GO Bonds	34,660,000	2008-2028	3.50-7.00%	28,090,000
2009 GO Bonds	23,515,000	2009-2029	3.00-6.00%	18,735,000
2010 GO Bonds	110,330,000	2011-2031	0.70-5.70%	93,640,000
2011 GO Bonds	34,485,000	2012-2031	1.00-5.00%	30,005,000
2012 GO Bonds	15,975,000	2013-2022	1.00-4.00%	14,190,000
2013 GO Bonds	34,685,000	2013-2033	2.00-4.00%	29,695,000
2014 GO Bonds	34,865,000	2014-2034	2.00-4.00%	26,625,000
2015 GO Bonds	59,140,000	2015-2035	2.00-5.00%	57,390,000
Total	\$ 404,145,000			\$ 302,175,000

Annual debt service requirements to maturity for bonds outstanding of the Unified Government are as follows:

Year	Governmental Activities		Business-Type Activities	
	Principal	Interest	Principal	Interest
2016	\$ 13,555,862	\$ 9,587,245	\$ 3,189,138	\$ 2,632,852
2017	14,897,291	9,123,648	3,782,709	2,522,361
2018	14,222,659	8,595,506	3,882,341	2,386,467
2019	15,512,847	8,070,404	3,857,153	2,245,076
2020	14,630,435	7,472,322	3,794,565	2,094,848
2021-2025	78,119,197	28,160,893	20,500,803	8,101,298
2026-2030	73,302,616	10,986,537	20,082,381	3,793,976
2031-2035	11,204,112	925,333	7,640,891	653,395
Total	\$235,445,019	\$82,921,888	\$ 66,729,981	\$24,430,273

The Series 2010D bonds were issued as taxable Build America Bonds pursuant to the American Recovery and Reinvestment Act of 2009, which provides that 32% of the interest payments on those bonds will be paid to the Unified Government by the U.S. Treasury. The Series 2010C and 2010F bonds were issued as taxable Recovery Zone Economic Development Bonds pursuant to the American Recovery and Reinvestment Act of 2010, which provides that 41.2% of the interest payments on those bonds will be paid to the Unified Government by the U.S. Treasury. The Series 2010G bonds were issued as taxable Qualified Energy Conservation Bonds. The Unified Government has elected to receive interest subsidy payments from the U.S. Treasury in an amount equal to the lesser of the amount of interest payable on each interest payment date, or 64% of the amount of interest which would have been payable with respect to the bonds if the interest were determined at applicable tax credit rates for the bonds. In 2015, the Unified Government received \$608,868 of interest subsidies related to these bonds.

The Series 2014C and 2015C bonds were issued to pay a portion of the costs of constructing certain emergency communications facilities and buildings to be operated by the Unified Government. The BPU agreed to pay 17% of the costs of these facilities, which will be owed on each debt service payment date.

In December 2015 the Legend's Theatre was sold and the theater debt of \$7.1 million (including the 2014-D financing of \$6.9 million plus the remaining balance on a 2011 equipment lease purchase) was retired.

Sales Tax Limited Obligation Bonds. Sales tax special obligation revenue bonds (STAR bonds) are authorized to be issued pursuant to K.S.A. 12-17,160, et seq., as amended (the STAR Bond Act). The STAR Bond Act provides a form of tax increment financing that enables the issuance of bonds payable from certain State and local sales and compensating use tax revenues and transient guest tax revenues generated from STAR bond projects constructed within a STAR bond project district. To implement STAR bond financing, a local government must adopt a resolution that specifies a proposed STAR bond project district's boundaries and describes the overall district plan, hold a public hearing on the district and plan, and pass a resolution that establishes the STAR bond project district. Additionally, there may be one or more projects within a STAR bond district.

In connection with the issuance of STAR bonds, the Unified Government and the State of Kansas enter into Tax Distribution Agreements. The agreements provide that the principal of, accreted value, and interest on the STAR bonds will be paid proportionally by the Unified Government and the State of Kansas, based on each entity's respective share of sales taxes generated within the district. The proportional shares may vary by bond issue, as described in the "Tax Distribution Details" in the table below. These proportional shares may change in the future if the sales taxes assessed by the local or state governments are modified.

Certain STAR bonds, as listed in the table below, include an Annual Appropriation covenant. As issuer of the bonds, the Unified Government may, but is not obligated to, budget and appropriate local sales tax from outside the district to the extent that sales tax collections from the district are unavailable or insufficient for annual debt service requirements.

Certain bond issues have "Turbo Redemption" provisions. Pledged tax revenues received in excess of amounts required for mandatory debt service payments or for various reserve account requirements will be used to redeem the bonds early. It is therefore expected that payment in full of principal on these bond series will be made earlier than their respective maturity dates.

Issue	District / Project	Original Amount	Annual Appropriation Covenant	Other Features	Tax Distribution Details
Serial/Term Bonds:					
1999 KISC Capital Appreciation Bonds (CABs)	Kansas International Speedway	\$24,300,413	Yes		28% local tax revenues / 72% State sales tax revenues
2004 Refunding	Prairie Delaware Redevelopment Project Area B / Village West	5,460,000	Yes		28% local tax revenues / 72% State sales tax revenues
2012 Refunding	Prairie Delaware Redevelopment Project Area B / Village West	12,785,000	Yes	Issued on a parity lien basis with the 2004 bonds and the 2010B CABs.	28% local tax revenues / 72% State sales tax revenues
2014 KISC Refunding	Kansas International Speedway	10,885,000	Yes	Issued on a parity lien basis with the 1999 KISC CABs.	28% local tax revenues / 72% State sales tax revenues
2015A	Vacation Village Project Areas 1 and 2A / Waterpark Project and Auto Plaza Project	72,900,000	No		23% local tax revenues / 77% State sales tax revenues
<i>Secured and payable from Incremental Tax Revenues generated solely from the Waterpark Project and Auto Plaza Project. For Project Area 2A, Incremental Tax Revenues include the excess of revenues over a Base Year amount, as defined in the Tax Distribution Agreement.</i>					
2015B	Vacation Village Project Areas 1 and 2A / Waterpark Project and Auto Plaza Project	12,260,000	Yes	Subordinate to 2015A bonds	23% local sales tax revenues / 77% State sales tax revenues
<i>Secured and payable from Incremental Tax Revenues generated solely from the Waterpark Project and Auto Plaza Project, and certain local sales and compensating use tax revenues and local transient guest tax revenues generated outside the STAR Bond District to the extent appropriated by the governing body of the Unified Government. For Project Area 2A, Incremental Tax Revenues include the excess of revenues over a Base Year amount, as defined in the Tax Distribution Agreement.</i>					

Issue	District / Project	Original Amount	Annual Appropriation Covenant	Other Features	Tax Distribution Details
Turbo Bonds:					
2010B Capital Appreciation Bonds (CABs)	Prairie Delaware Redevelopment Project Area B / Village West (Stadium Project)	150,289,489	No	Issued on a parity basis with the 2004 bonds.	28% local tax revenues / 72% State sales tax revenues
<i>Pledged tax revenues include only tax revenues distributed on or before January 31, 2021. The amount of general state tax revenues that can be applied to the payment of the bonds is capped at \$144,500,000. After applying \$144,500,000 of payments to the bonds, the accreted value of any remaining bonds must be paid solely from the Unified Government's local sales and transient guest taxes located within the District.</i>					
2014 Capital Appreciation Bonds (CABs)	Prairie Delaware Redevelopment Project Area B / Village West (T-Bones / Community America Ballpark)	8,097,229	No	Subordinate to the 2004 bonds, 2010B CABs and 2012 bonds.	70% local tax revenues / 30% State sales tax revenues
2015 Capital Appreciation Bonds (CABs)	Village West Project Area 4 / US Soccer National Training Facility and Village West	65,229,560	No	Village West included within Project Area 4 only upon payment in full of 2004 bonds, 2010B CABs, 2012 bonds and 2014 CABs.	20% local tax revenues / 80% State sales tax revenues
<i>Secured and payable from Incremental Tax Revenues generated solely from Project Area 4. Local and state tax revenues generated within the Village West Property are pledged to secure and will be applied solely to the payment of the Outstanding Village West STAR Bonds (2004 bonds, 2010B CABs, 2012 bonds and 2014 CABs) until the Outstanding Village West STAR Bonds are paid in full, at which time the Village Est area will be included in Project Area 4. There are not expected to be any incremental tax revenues available to pay the 2015 bonds until the date of payment in full of the Outstanding Village West STAR Bonds, which is expected to occur on December 1, 2016.</i>					

STAR Bonds With Annual Appropriation. Due to the presence of the Annual Appropriation covenant, the full amount of these outstanding bonds in the amount of \$41,858,378 is recorded with long-term debt of the Unified Government, along with any related transactions or account balances. A corresponding receivable, in the amount of \$30,751,032, is recorded for the amount of the contractual pledge from the State of Kansas for the estimated State share of sales tax revenues.

At December 31, 2015, STAR bonds outstanding with annual appropriation consisted of the following:

Description and Purpose	Amount of Original Issue	Range of Final Maturity Dates	Range of Interest Rates	Recorded with Unified Government Long-Term Liabilities				Total Accreted Value December 31, 2015
				Local Pledge	Local Accreted Interest	State Pledge	State Accreted Interest	
1999 KISC Bonds	\$ 24,300,413	2007-2027	4.20-5.25%	\$ 1,545,369	\$ 2,150,177	\$ 3,973,805	\$ 5,529,027	\$ 13,198,378
2004 Refunding Bonds	5,460,000	2007-2020	3.25-5.54%	708,400	-	1,821,600	-	2,530,000
2012 Refunding Bonds	12,785,000	2013-2016	2.00-5.00%	939,400	-	2,415,600	-	3,355,000
2014 KISC Refunding Bonds	10,885,000	2014-2027	2.00-5.00%	2,944,200	-	7,570,800	-	10,515,000
2015B Vacation Village Bonds	12,260,000	2015-2035	3.125-4.00%	2,819,800	-	9,440,200	-	12,260,000
Total	\$ 65,690,413			\$ 8,957,169	\$ 2,150,177	\$ 25,222,005	\$ 5,529,027	\$ 41,858,378

STAR Bonds With No Annual Appropriation. For these bond issues, the Unified Government records its proportional share of the outstanding obligation (see the "local sales tax" in the Tax Distribution Details of the table above). The Unified Government collects 100% of the sales taxes for these bonds, then records planning and development expenditures for amounts remitted to the State for its share of the principal and interest. Such amounts totaled \$40,182,610 for the year ended December 31, 2015, and are recorded in the Economic Development Debt Service Fund.

At December 31, 2015, STAR bonds outstanding with no annual appropriation consisted of the following:

Description and Purpose	Amount of Original Issue	Range of Final Maturity Dates	Range of Interest Rates	Recorded with Unified Government Long-Term Liabilities				Total Accreted Value December 31, 2015
				Local Pledge	Local Accreted Interest	State Pledge	State Accreted Interest	
Governmental activities:								
2010B CABs	\$ 150,289,489	2021	6.07%	\$ 5,035,847	\$ 1,983,151	\$ 12,949,320	\$ 5,099,530	\$ 25,067,848
2015 US Soccer Bonds	65,229,560	2034	6.75%	13,045,912	11,985	52,183,648	47,941	65,289,486
2015A Vacation Village Bonds	72,900,000	2015-2035	5.00-6.00%	16,767,000	-	56,133,000	-	72,900,000
Total	\$ 288,419,049			\$ 34,848,759	\$ 1,995,136	\$ 121,265,968	\$ 5,147,471	\$ 163,257,334

2031-2035	25,527,013	35,165,951	-	-
Total	\$69,027,933	\$75,552,908	\$ 5,668,060	\$3,683,940

Bonds Issued for KISC. In 1999, the Unified Government issued Series 1999 Taxable Special Obligation Revenue Bonds for an original amount of \$71,340,000 to provide financing to the Kansas International Speedway Corporation (KISC) for construction of the Kansas Speedway. KISC is responsible for making semi-annual payments for principal and interest on the bonds. The obligation of KISC to make debt service payments is secured by a mortgage on the project site. Payments to the trustee are also backed by a policy of financial guaranty insurance issued by the MBIA Insurance Corporation, and are guaranteed by the International Speedway Corporation under a Payment Guarantee Agreement. The Unified Government has also provided an annual appropriation commitment from local sales taxes collected, though this does not create a liability or general obligation debt of the Unified Government, nor constitute a pledge of the general credit, tax revenues, funds or moneys of the Unified Government, and does not obligate them to levy or pledge any form of taxation or make any appropriation or payments beyond those appropriated for the current fiscal year. Since the 1999 bonds were issued, the Unified Government has made no annual appropriations for payment of the bonds. The remaining amount outstanding as of December 31, 2015 is \$55,100,000. The bonds have a final maturity date of December 2027.

Transportation Development District Sales Tax Revenue Bonds. The Unified Government has created transportation development districts under K.S.A. 12-14,140 through 12-17,149. Under statute, creation of such districts allows the Government to impose a transportation development district sales tax, not to exceed 1%, with the revenues received therefrom pledged to pay bonds issued for projects within the established districts. Bonds issued under these statutes are special, limited obligations of the Unified Government, payable solely from revenues generated within the transportation development districts. For the 2014 Happy Foods and 2014 Prescott Plaza bonds the Unified Government intends to budget and appropriate moneys sufficient to pay all the debt service payments on these bonds for the next succeeding fiscal year. The 2007 The Legends, 2007 NFM/Cabela's and 2013 Plaza at the Speedway bonds do not constitute a pledge of the full faith and

credit of the Unified Government, and do not obligate the Unified Government to levy any form of taxation or to make any appropriation for their payment.

Description and Purpose	Amount of Original Issue	Range of Final Maturity Dates	Range of Interest Rates	Amount Outstanding Dec 31, 2015
2007 The Legends	\$ 17,520,000	2007-2028	4.60-4.875%	\$ 13,095,000
2007 NFM/Cabela's	2,415,000	2007-2027	5.0%	815,000
2013 Plaza at the Speedway	9,975,000	2013-2032	4.75-5.75%	8,870,000
2014 Happy Foods	317,000	2014-2024	4.5%	259,000
2014 Prescott Plaza	1,459,000	2014-2024	3.0%	1,126,000
Total	\$ 31,686,000			\$ 24,165,000

Annual debt service requirements to maturity for these bonds are as follows:

Year ended December 31,	Principal	Interest
2016	\$ 495,000	\$ 1,233,821
2017	960,000	1,208,579

2019	1,140,000	1,105,691
2020	1,335,000	1,047,316
2021-2025	10,050,000	4,016,010
2026-2030	7,540,000	1,475,731
2031-2032	1,595,000	112,844
Total	\$ 24,165,000	\$ 11,359,452

Special Obligation Bonds. The Series 2010H, 2012C and 2015 Wyandotte Plaza bonds were issued as special obligation annual appropriation bonds. The bonds are payable solely from the amounts budgeted or appropriated out of the income and revenue provided for such a year. The 2012 and 2013 39th and Rainbow bonds and the 2013 Plaza at the Speedway bond were issued as a special obligation tax increment revenue bonds. The bonds are payable solely from property tax and sales tax revenue generated in the redevelopment district and certain moneys on deposit under the bond indentures.

Description and Purpose	Amount of Original Issue	Range of Final Maturity Dates	Range of Interest Rates	Amount Outstanding Dec 31, 2015
2010H Kansas Speedway parking lot	\$ 7,725,000	2010-2021	2.0-4.5%	\$ 6,655,000
2012C Wyandotte Plaza	8,115,000	2012-2032	2.0-3.8%	7,840,000
2012 39 th and Rainbow	6,445,000	2012-2027	4.19%	6,270,000
2013 39 th and Rain ow	4,365,000	2012-2032	3.3-3.9%	4,115,000
2013 Plaza at the Speedway	33,550,000	2012-2027	4.25%	27,625,000
2015 Wyandotte Plaza	280,000	2016	2.75%	280,000
Total	\$ 60,480,000			\$ 52,785,000

Annual debt service requirements to maturity for these bonds are as follows:

Year ended December 31,	Principal	Interest
2016	\$ 3,210,000	\$ 2,506,589
2017	3,380,000	2,380,945

2019	3,830,000	2,055,187
2020	3,110,000	1,872,997
2021-2025	17,845,000	6,952,746
2026-2030	16,050,000	2,518,224
2031-2032	1,765,000	101,287
Total	\$ 52,785,000	\$ 20,611,751

Pledged Revenues. The Unified Government has pledged specific revenue streams to secure the repayment of certain outstanding debt issues. The corresponding debt issues are for projects described previously for Sales Tax Limited Obligation (STAR) Bonds and Transportation Development District (TDD) Sales Tax Revenue Bonds, as well as general obligation bonds issued to finance infrastructure and capital improvements in tax increment financing (TIF) districts. The following table lists those revenues and the corresponding debt issues, the amount and term of the pledge remaining, the current fiscal year principal and interest on the debt, the amount of pledged revenue recognized during the current fiscal year, and the approximate percentage of the revenue stream that has been committed:

<u>Issue(s)</u>	<u>Type revenue pledged</u>	<u>Amount of pledge</u>	<u>Term of commitment</u>	<u>Percent of revenue pledged</u>	<u>Principal & Interest for 2015</u>	<u>Pledged revenues recognized in 2015</u>
STAR bonds*	Sales and transient guest tax	\$482,981,608	Through 2035	100%	\$61,808,960	\$61,697,772
TDD bonds	Transportation development district sales tax	35,524,452	Through 2032	100%	2,832,442	3,007,406
TIF GO bonds	Incremental increase in property tax	50,225,202	Through 2033	100%	4,194,818	1,714,998
Special Obligation bonds (TIF)	Incremental increase in property tax	52,424,915	Through 2030	100%	4,500,950	4,180,127

* Note the STAR Bond activity above includes the Unified Government's and the State's proportional share of the activity.

Public Building Commission Revenue Bonds. The Public Building Commission (PBC) is a blended component unit of the Unified Government. The PBC has the authority to issue revenue bonds to finance the cost of acquiring and/or constructing land and facilities operated for a public purpose by the Unified Government. The PBC finances the debt service of the revenue bonds by leasing the land and facilities to the Unified Government, which operates it. The Unified Government guarantees the rentals under the PBC lease. The PBC has no power to levy taxes, and revenue bonds issued by the PBC are not included in any legal debt limitations of the Unified Government. In 2013, the PBC issued series 2013A bond for \$9,915,000 with interest rates ranging from 1.5-3.0%. In 2015, the PBC issued series 2015A bond for \$780,000 with an interest rate of 3.30%.

Annual debt service requirements to maturity for this bond is as follows:

<u>Year ended December 31,</u>	<u>Principal</u>	<u>Interest</u>
2016	\$ 660,000	\$ 255,052
2017	665,000	251,950
2018	675,000	240,575
2019	700,000	229,050
2020	715,000	207,700
2021-2025	3,905,000	700,875
2026-2030	<u>2,340,000</u>	<u>141,900</u>
Total	<u>\$ 9,660,000</u>	<u>\$ 2,027,102</u>

The purpose of the 2013A bond issuance was to pay a portion of the costs of constructing certain emergency communications facilities and buildings to be operated by the Unified Government. On December 10, 2012, the BPU agreed to pay 21% of the costs of these facilities, which will be owed on each debt service payment date. The purpose of the 2015A bond issuance was to pay for improvements to the Cricket Wireless Amphitheater.

Proprietary Fund Revenue Bonds. At December 31, 2015, the various proprietary funds had the following bonds outstanding:

Description and Purpose	Amount of Original Issue	Range of Final Maturity Dates	Range of Interest Rates	Amount Outstanding Dec 31, 2015
Sewer System State Revolving Loan	\$ 35,721,057	2035	3.39-3.44%	\$ 14,222,104
Subtotal	<u>35,721,057</u>			<u>14,422,104</u>
BPU revenue bonds:				
2001 Series	17,170,000	2021	4.00-5.00%	7,335,000
2009A Series	57,575,000	2034	2.75-5.00%	49,255,000
2010 Refunding	32,190,000	2028	2.00-5.00%	19,755,000
2011 Series	90,000,000	2036	2.00-5.20%	84,890,000
2012 Refunding	110,830,000	2032	3.12-5.00%	109,045,000
2012B	79,540,000	2037	2.00-5.00%	74,210,000
2014 Refunding and improvement	<u>190,620,000</u>	2044	3.00-5.00%	<u>185,295,000</u>
Subtotal	<u>577,925,000</u>			<u>529,785,000</u>
Total	<u>\$ 613,646,057</u>			<u>\$ 544,207,104</u>

The utility system revenue bond debt service and reserve account is held in escrow in a bank acting as a trustee for the BPU. The utility system revenue bond indentures also provide for a bond reserve account to be held by the trustee for the future payments of principal and interest in the event that the net revenues of the utility system are less than or equal to 130% of the maximum annual debt service on the bonds. All amounts are reported on the accompanying statement of net position as restricted assets.

The revenue bond ordinances of the BPU require, among other things, that special reserves and accounts be established and maintained. Additionally, the ordinances require the BPU to establish rates and collect fees sufficient to pay the operating, maintenance and debt service costs of the utilities and to provide net operating income, before depreciation and payment in lieu of taxes, of at least 120% of the maximum annual debt service due on the outstanding bonds of the BPU. All of the BPU's utility plant facilities are pledged under the terms of the indentures. The BPU was in compliance with the above requirements as of December 31, 2015.

The Unified Government has entered into five agreements with the State of Kansas, Department of Health and Environment. These agreements resulted in the State loaning money to the Unified Government's Water Pollution Control Division for the purpose of capital expenditures to improve the sewer system. Advances are made at the time for paying costs related to the approved loan. The State and Unified Government agreed on an amortization schedule for the entire amount of the loans. If the final loan amount is less than the approved total, an amended amortization schedule will be developed. The following chart represents the adopted amortization schedule and is not reflective of the amount actually borrowed and outstanding to date. The BPU also has two loans with the Kansas Department of Health and Environment for the purpose of water capital improvements to be repaid over 20 years ending 2036.

Annual debt service requirements to maturity for the proprietary funds loan and revenue bonds are as follows:

	Sewer System		BPU			
	State Revolving Loan		Government Loans		Revenue Bonds	
	Principal	Interest	Principal	Interest	Principal	Interest
2016	\$ 2,297,752	\$ 779,784	\$ 2,081,722	\$ 981,027	\$ 19,340,000	\$ 24,972,006
2017	2,350,349	709,556	2,650,896	1,058,411	19,805,000	24,258,631
2018	2,299,760	638,068	2,734,036	985,041	20,580,000	23,483,656

2036-2040	-	-	-	4,650	44,310,000	11,989,571
2041-2045	-	-	-	-	28,035,000	3,589,754
Total	<u>\$28,231,573</u>	<u>\$ 6,799,314</u>	<u>\$33,275,100</u>	<u>\$ 9,178,340</u>	<u>\$529,785,000</u>	<u>\$313,764,481</u>

In May 2012, the BPU entered into a Kansas Public Water Supply loan fund agreement, which the amount is not to exceed \$12.3 million. As of December 31, 2015, the BPU has drawn the full amount of \$12.3 million. The projects funded by this loan consist of a 4MG reservoir at the Nearman Water Treatment Plant and various waterline replacement projects. The 4MG reservoir at Nearman has been placed in service in 2014. In July 2014, the BPU entered into a Kansas Public Water Supply load fund agreement, for which the amount is not to exceed \$13.0 million. The projects to be funded by this loan consist of filter media and pump replacement at the Nearman Water Treatment Plant and replacement of deteriorated water lines throughout the distribution system. As of December 31, 2015, the BPU has drawn approximately \$2.7 million of the \$13.0 million. This amount is included in the principal column of the above debt service schedule. Also in the above debt service schedule, the interest including accreted balances column includes \$3.2 million in accreted scheduled interest on the July 2014 Kansas Public Water Supply loan fund agreement.

BPU has pledged specific revenue streams to secure the repayment of certain outstanding debt issues. The corresponding debt issues are for utility system revenue bonds and the purpose of the debt is for the utility improvements. The following table lists those revenues, the amount and term of pledge remaining, the current year principal and interest on the debt, the amount of pledged revenue recognized during the current fiscal year, and the approximate percentage of the revenue stream that has been committed:

Issue(s)	Type revenue pledged	Amount of pledge	Term of commitment	Percent of revenue pledged	Principal & Interest for 2015	Pledged revenues recognized in 2015
Sewer State Revolving Loan	Net operating revenue of the Sewer Fund	\$ 35,030,887	Through 2035	100%	\$ 2,432,423	\$ 13,809,009
BPU debt issues	Electric and Water operating revenues	\$843,549,481	Through 2044	14.9%	\$45,334,587	\$54,401,504

Refundings of Long-Term Debt. In February 2015, the Unified Government issued \$2,060,000 in general obligation bonds, Series 2015-B with interest rates of 2.0-2.8%, to crossover advance refund \$1,985,000 of general obligation bonds 2006-B maturing from 2017-2025. The Unified Government refunded these bonds to take advantage of lower interest rates. As a result, the total debt service payments over the next 10 years will decrease by \$259,265 in debt service payments and will realize a present value savings of \$227,224.

Under a crossover advance refunding issue, the original bond issues (refunded bonds) are not considered defeased until they are retired. Proceeds of the crossover refunding are placed into an escrow account; however, unlike other advance refundings, the escrow account in a crossover advance refunding is not immediately dedicated to debt service principal and interest on the refunded

bonds. Instead, resources in the escrow account are used temporarily to meet debt service requirements on the new, refunding bonds. Only at a later date, known as the "crossover date," are resources in the escrow account dedicated exclusively to payment of principal and interest on the refunded bonds. Therefore, crossover refundings do not result in the defeasance of debt until the crossover date. The Unified Government has recorded both the refunding and the refunded bonds in the financial statements, as well as the balance of funds held in escrow for their repayment, which totals \$2,011,190.

In February 2015, the Unified Government issued \$20,615,000 in general obligation bonds, Series 2015-D with an interest rate of 5%, to advance refund \$22,835,000 of general obligation bonds 2006-A maturing from 2015-2025. The Unified Government refunded these bonds to take advantage of lower interest rates. As a result, the total debt service payments over the next 10 years will decrease by \$1,935,046 in debt service payments and will realize a present value savings of \$1,810,790.

As of December 31, 2015, \$1,985,000 of crossover refunded bonds and \$21,155,000 of advance refunded bonds have not been called.

Section 108 Loan. During 2000, the Unified Government entered into a loan agreement with the U.S. Department of Housing and Urban Development (HUD) for the construction of the new downtown hotel project. During 2010, this loan was refunded with the new principal balance of \$3,314,000.

Claims and Judgments. Various legal actions and claims against the Unified Government presently pending involve: personal injury (including workers' compensation claims), alleged discriminatory personnel practices, property damages, civil rights complaints and other miscellaneous claims. The Unified Government generally follows the practice of recording liabilities resulting from claims and legal actions only when it is probable that a liability has been incurred and the amount can be reasonably estimated.

Unfunded Pension Obligation. Reference Note IV.E. "Unified Government Plan" for further explanation.

The following schedule represents the annual payments required for Claims and Judgments and the Unfunded Pension Obligation and the Section 108 Loan:

Year ended December 31,	Claims and Judgments	Unfunded Pension Obligation	Section 108 Loan	
			Principal	Interest
2016	\$ 600,000	\$ 41,563	\$ 406,000	\$ 49,322
2017	-	38,654	434,000	38,522
2018	-	35,948	465,000	25,894
2019	-	33,432	345,000	11,386
2020	-	31,091	-	-
2021-2025	-	75,231	-	-
Total	\$ 600,000	\$ 255,919	\$ 1,650,000	\$ 125,124

Arbitrage Liability. In 1986, Federal law changed, making it illegal for an entity to issue tax-exempt debt, reinvest those proceeds in a tax-deductible instrument, and make an arbitrage profit on the differential in interest rates. A calculation was created which established the methodology for determining if the tax exempt debt proceeds were invested to yield a profit. If a profit exists, all of that profit must be paid to the U.S. Treasury. The Unified Government has bonds and temporary notes subject to arbitrage, but does not have an arbitrage liability as of December 31, 2015. Actual payments could differ from the estimate.

G. Non-Obligatory Debt

Conduit Debt. The Unified Government has issued revenue bonds not directly obligated by the Unified Government which are generally used to finance construction or renovation of facilities on government land or the acquisition of equipment. The bonds are paid solely from revenues generated from entities for whom the bonds are issued. The total amount at December 31, 2015 was \$371,778,461 for the Industrial Revenue Bonds, \$123,695,137 for Sales Tax Special Obligation Revenue Bonds and \$865,000 for the Single Family and Collateralized Mortgage Revenue Bonds. These bonds do not constitute an indebtedness or pledge of the faith and credit of the Unified Government, and accordingly have not been reported in the accompanying financial statements.

H. Landfill Closure and Postclosure Care

In 2004, the Kansas Department of Health and Environment (KDHE) issued an administrative "Order to Comply" to the Unified Government alleging the need for investigations into the alleged release of hazardous substances found to exist at the John Garland Park Landfill, which was operated from 1972-1974 by a third party and has been closed since then. The Unified Government conducted, with KDHE approval, certain investigations and conducted or prepared work plans for conducting in the future, certain remedial activities. In March 2008, the Unified Government and KDHE entered into a Consent Agreement requiring certain landfill closure activities, including annual landfill cap maintenance, periodic groundwater monitoring through the year 2025, and conversion of an existing passive landfill gas extraction system to an active gas extraction system. The Unified Government has recorded a liability of \$540,000 as the estimated cost for the remaining monitoring activities through 2025. The cost estimates are subject to change due to inflation, deflation, technology, laws and regulations. The Environmental Trust Fund will provide the primary source of funding for these costs.

I. Restricted Assets

The balances of the restricted asset accounts are as follows:

Capital projects fund: GO proceeds	\$ 25,738
Capital projects fund: STAR financing	21,166,915
Economic development fund:	
STAR/TDD/TIF bonds	13,732,725
Customer deposits-BPU	4,103,492
Sewer revenue bonds:	
Debt service accounts	3,504,834
State Revolving Loan	1,952,223
Public Levee fund: Refunding escrow	2,011,190
Stadium fund: STAR financing	1,281,315
BPU revenue bonds:	
Debt service account	20,859,219
Improvement and emergency account	1,500,000
Contraction funds	31,487,584
Total restricted assets	<u>\$ 101,625,235</u>

J. Fund Balances

A summary of the components of fund balance reported in governmental funds, by purpose, is as follows:

**Unified Government
Components of Fund Balance
December 31, 2015**

	Major		Nonmajor	Total Governmental Funds
	General	Capital Projects	Other Governmental Funds	
Fund Balances:				
Non Spendable:	\$ -	\$ -	\$ -	\$ -

IV. OTHER INFORMATION

A. Risk Management

The Unified Government's insurance coverage consists of both self-insurance and policies maintained with various carriers. Exposure to various risks associated primarily with weather related incidents such as wind, hail and storm damage is covered by property insurance. There have been no

settlements in excess of insurance coverage during any of the prior three fiscal years. There has been no significant change in insurance coverage from the previous fiscal year.

Accident and Health. The Unified Government is both self-insured and fully insured for accident and health claims. Claims for Unified Government employees (except for BPU employees) are administered through a third party administrator for the Unified Government's self-insured plan. Premiums are paid by employer and employee contributions into an internal service fund and are available to pay claims and costs of an administrative service agreement. An excess insurance policy covers individual claims in excess of \$325,000. Incurred but not reported claims of \$2,977,000 have been accrued as a liability. In 2015, \$27,939,839 was paid for claims and administrative costs. The outstanding claims liability is calculated from historical data and future expectations. This includes an estimated liability for known claims as well as an estimated liability for claims incurred but not reported. The BPU is self-insured on essentially up to 100% of their health claims.

Workers' Compensation. The Unified Government is self-insured for workers' compensation. Premiums are paid from the general fund into an internal service fund and available to pay claims, claim reserves and administrative costs of the program. During 2015, a total of \$1,525,263 was paid in benefits and administrative costs from the fund. An excess coverage insurance policy covers individual claims in excess of \$750,000. Incurred but not reported claims of \$2,252,000 have been accrued as a liability. The Unified Government attorney makes significant estimates in determining amounts of unsettled claims under the self-insurance program. The outstanding claims liability is calculated from historical data and future expectations. This includes an estimated liability for known claims as well as an estimated liability for claims incurred but not reported. The BPU is self-insured to the first \$750,000 per employee / per occurrence for workers' compensation. Claims exceeding \$750,000 and up to \$35,000,000 per employee / per occurrence are fully insured.

General Liability. The Unified Government is also self-insured for liability claims with no premium paid to any insuring firm. All liability claims are reviewed, challenged if appropriate, and processed for payment at the agreed amount by the Legal Department. Kansas statutes limit the liability in tort cases to \$500,000. The BPU is responsible for the first \$500,000 of general liability and automobile insurance claims. In addition, any general liability or automobile claims greater than \$35,000,000 are responsibility of BPU.

The following is a summary of the changes in the unpaid claims liability:

	Workers' Compensation	Health Insurance	General Liability	BPU
December 31, 2013 Liability Balances	<u>\$ 2,552,000</u>	<u>\$ 2,120,000</u>	<u>\$ 600,000</u>	<u>\$ 2,668,000</u>
Claims and changes in estimates	1,944,459	28,161,651	1,293,208	9,650,000
Claim payments	<u>(1,944,459)</u>	<u>(27,662,651)</u>	<u>(1,293,208)</u>	<u>(9,621,000)</u>
December 31, 2014 Liability Balances	<u>\$ 2,552,000</u>	<u>\$ 2,619,000</u>	<u>\$ 600,000</u>	<u>\$ 2,697,000</u>
Claims and changes in estimates	1,525,263	27,937,362	629,292	14,637,000
Claim payments	<u>(1,825,263)</u>	<u>(27,579,362)</u>	<u>(629,292)</u>	<u>(14,180,000)</u>
December 31, 2015 Liability Balances	<u>\$ 2,252,000</u>	<u>\$ 2,977,000</u>	<u>\$ 600,000</u>	<u>\$ 3,154,000</u>

B. Commitments and Contingent Liabilities

Litigation. The Unified Government is a defendant in various legal actions pending or in process for tax appeals, property damage and miscellaneous claims. The ultimate liability that might result from the final resolution of the above matters is not presently determinable; however, various legal actions

are pending which the Unified Government has a reasonable possibility of loss ranging from zero to \$8.5 million.

Health Insurance Contributions. From 2009-2011, the Unified Government suspended making certain employer contributions to the Self-Insured Health Care Fund from the County General Fund. During 2012, the Unified Government resumed full contributions to the Self-Insured Health Care Fund. From 2012 through 2015, in addition to the required contributions, additional amounts have also been funded by the County General Fund. As of December 31, 2015, the governing body and management have made a formal commitment to fund an additional \$750,000 during 2016. There is no commitment to fund other additional amounts and there is no requirement that these additional amounts must be paid to the Self-Insured Health Care Fund. However, the amount is monitored and reviewed on an annual basis and considered when preparing the County General Fund's budget. During 2015, there was \$2,100,000 of additional funding from the County General Fund to the Self-Insured Health Care Fund. For the year ended December 31, 2015 the cumulative amount of employer contributions that were not budgeted or paid totaled approximately \$1.9 million.

Economic Development Activities. The Unified Government has established tax increment financing (TIF), transportation development districts (TDD) and community improvement districts (CID) as allowed by state statutes. Incremental property and sales taxes generated in the districts are pledged to developers to repay certain costs incurred by the developers. Under these agreements, the Unified Government is under no obligation to pay the developer for any shortfall, should the incremental revenues generated not be sufficient to fully reimburse 100% of the costs incurred by the developer. The remaining certified project costs to be repaid as of December 31, 2015 totals \$117,602,952.

Federal Consent Decree. On May 20, 2013, the United States District Court for the District of Kansas entered a Partial Consent Decree ("PCD") between the Unified Government and United States Environmental Protection Agency. The State of Kansas was a defendant in the PCD along with the Unified Government. The PCD requires the development of an Integrated Overflow Control Plan (IOCP) by September 30, 2016, as well as enhanced operation and maintenance of the Unified Government's sewer and storm sewer systems. Implementation of the IOCP will be addressed via a modification of the PCD, likely sometime during 2017. In addition, the PCD requires the Unified Government to implement approximately \$20 million of ongoing sewer improvement projects in its 5-year capital improvement plan. The PCD does not impose any civil penalty at this time but does provide for stipulated penalties if the Unified Government either fails to perform or is late performing required activities.

The costs to comply with the PCD are expected to be in the multi-million dollar range. The respective sanitary and storm sewer enterprise funds have had rate adjustments for each of the past four years in anticipation of the work that is required under the PCD. Both of these funds have strengthened fund balances in anticipation of future debt. The sewer and storm enterprise funds ended 2015 with a combined budgetary fund balance of \$14.6 million or 43% of their total 2015 expenditures.

Environmental Matters. The Unified Government is subject to various laws and regulations with respect to environmental matters such as underground storage facilities and air and water quality. The cost of complying with existing and future changes to laws and regulations cannot be estimated; however, compliance with such laws and regulations may necessitate substantial expenditures.

Unified Government management also expects to make future capital improvements related to fire suppression and other life safety code requirements. Costs related to these projects have yet to be determined, but are expected to be significant.

The BPU is subject to substantial regulation of air emissions and control equipment under federal, state, and county environmental laws and regulations. Nationwide, utilities with coal-fired generating units have been under heavy scrutiny and enforcement by the U.S. Environmental protection Agency

(EPA) and Department of Justice for matters related to permitting of modifications to those coal-fired units. This is referred to as “new source review permitting.”

In 2007, the BPU received from the EPA a Clean Air Act section 114 information request seeking information about the types of projects that have been the subject of new source review permitting investigations. On November 25, 2008, EPA issued the BPU a Notice of Violation (NOV) alleging violation of Clean Air Act new source review permitting requirements. On December 19, 2008, the BPU received a supplemental Clean Air Act Section 114 information request to the 2007 information request. BPU has responded to both information requests. The NOV alleges violations of the Clean Air Act new source review permitting requirements and corresponding requirements under the Kansas State Implementation Plan at the Utility’s Nearman plant dating back to 1994 (four violations) and Quindaro plant dating back to 2001 (two violations). The NOV states such finds and/or penalties could be as much as \$25,000 to \$32,500 per day (depending upon when the violation occurred) commencing from date of the violation. Settlements of numerous similar notice of violation have included penalties and injunctive relief requiring capital expenditures for air pollution control equipment in the hundreds of millions of dollars. The NOV issued to the BPU offers opportunity for conference with EPA and the Department of Justice (DOJ) regarding the allegations and a first conference was held in February 2009. Subsequently, EPA and DOJ made an offer of settlement to the BPU and the parties have had exchanges regarding settlement, the most recent in August 2011. Recent court decisions have limited EPA’s ability to successfully enforce through imposition of penalties and injunctive relief allegations in notices of violation like those in NOV issued to BPU. In addition, pursuant to requirement so flaw, the utility has implemented measures and installed much of the pollution control equipment typically part of injunctive relief in enforcement of such notice of violation, the costs of which may be significant in addition to fines and penalties. BPU is not presently able to evaluate what, if any, liability might be imposed and has not accrued anything for this possible obligation.

On July 16, 2012, the BPU and Unified Government received from the Kansas Chapter of the Sierra Club a notice of intent to sue the BPU, under the Clean Air Act citizen suit provisions, for alleged violations of opacity emissions limits at the Nearman Station and Quindaro Station. The Sierra Club and BPU signed a consent decree approved by the U.S. District Court on December 5, 2013. The consent decree requires that coal no longer be combusted at Quindaro Station as of April 16, 2015 (which has been accomplished) and that the Nearman Station install and operate particulate matter pollution control equipment by June 1, 2017.

Encumbrances. At December 31, 2015, the Unified Government had the following outstanding encumbrances:

General	\$ 3,003,579
Capital Projects	16,642,272
Sewer	7,537,727
Nonmajor Governmental	3,953,738
Nonmajor Enterprise	2,451,810
Internal Service	<u>565,700</u>
Total	<u>\$ 34,154,826</u>

Grants. Intergovernmental grant awards are subject to audit and adjustments by funding agencies. Award revenues received for expenditures that are disallowed are repayable to the funding agency. In the opinion of management, any amounts that may ultimately be refunded would not have a material impact on these general purpose financial statements.

Power Purchase & Sales Agreements. In 1982, the BPU entered into a power agreement with the Kansas Municipal Energy Agency (KMEA). The agreement entitles KMEA to purchase 15.86% of the net available capacity of the BPU’s Nearman power station. The power sales agreement with KMEA will terminate effective December 31, 2015 at the request of KMEA. The contracted 37.5 MW of electrical output to KMEA will be available for BPU’s service territory. Total revenue from the power

sales agreement for the year ended December 31, 2015 was \$4,122,535 and is included in other revenues in the statements of revenues, expenses, and changes in net position.

On November 1, 2006, BPU entered into an agreement with Tenaska Power Services Company (Tenaska) to both purchase and market excess wholesale energy for BPU. The BPU had no wholesale purchases and sales through Tenaska for the year ended December 31, 2015.

On December 21, 2006, the BPU entered into a Renewable Energy Purchase Agreement with TradeWind Energy to receive 25% of the energy output of Phase 1 of the Smoky Hills Wind Farm. This contract is a 20-year fixed price contract for 25% of the output of 100.8 MW of turbines as well as the Renewable Energy Credits associated with the output. The wind farm, which was built approximately 25 miles west of Salina, Kansas in Lincoln and Ellsworth Counties in Kansas, began commercial operation in January 2008. Total power purchased under this agreement was \$4,037,651 in 2015.

On November 3, 2010, the BPU entered into an agreement with Lawrence, Kansas based Bowersock Mills and Power Company to purchase 7 MW of hydroelectric power over the next 25 years, providing additional renewable energy resources to BPU's existing power generating mix. Total power purchased under this agreement was \$2,098,706 in 2015.

In December 2013, the BPU completed negotiations with OwnEnergy Inc., a developer of mid-sized wind projects, for the purchase of 25 megawatts of energy generated by wind turbines. The wind farm will be located south of Alexander, Kansas in Rush County. Construction began in December 2013, and will tie into the Southwest Power Pool (SPP) Midwest Energy transmission system. The contract between BPU and OwnEnergy Inc. is a 20-year renewable energy Purchase Power Agreement (PPA). The wind farm was completed in 2015 with commercial production beginning in December 2015. Total power purchased under this agreement was \$289,277 in 2015.

The BPU has determined these purchase contracts to be excluded from the scope of GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, as these are normal purchase contracts.

Coal Contracts. The BPU purchases coal for Nearman generating stations through contracts with Western Fuels Association (WFA) and affiliates. WFA, in turn, contracts with coal producers and railroads to meet its coal supply and delivery commitments to the BPU. The BPU is required to pay all costs incurred by WFA in acquiring and delivering the coal as well as a management fee.

Coal delivery to Nearman is contracted between WFA and the Union Pacific Railroad. This contract expires December 31, 2018. The delivery cost is established from a base price and is adjusted by indices set out in the contract.

The BPU is committed to purchase coal through WFA for the duration of the Nearman plant. The estimated coal purchase for Nearman station is \$20,000,000, \$29,000,000 and \$29,000,000 for 2016, 2017 and 2018, respectively. Any additional coal required will be bought on the spot market.

The BPU has determined these coal contracts to be excluded from the scope of GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, as these are normal purchase contracts.

Brushy Creek Coal Company and Liberty Coal Company. The BPU holds an indirect 50% interest in Brushy Creek Coal Company (BCCC) and a 50% indirect interest in Liberty Coal Company (Liberty). The other 50% interest is indirectly owned by the City of Sikeston, Missouri (Sikeston). BCCC was the owner and operator of a coal mine and related equipment located in Illinois. BCCC discontinued mining operations in 1997. BCCC did not have material operations during the years ended December 31, 2015. Upon cessation of operations at BCCC, the BPU became contractually responsible for 50% of asset retirement obligations and for 50% of certain postretirement benefits to mine workers. At

December 31, 2015, the BPU has recorded an estimated liability of \$1.3 million, within accrued claims payable for its estimated remaining share of these obligations. Funding provided for these obligations was \$235,000 in 2015.

The amounts recorded for the BPU's portion of the asset retirement obligation and the miners' benefits require significant judgment and involve a number of estimates. The BPU has recorded its estimated obligations for each of these items using information currently available to management. These estimates could change significantly over time.

C. Multi-Sport Stadium and Office Campus Projects.

During 2010, the Unified Government entered into a Multi-Sport Stadium Specific Venture Agreement with Kansas Unified Development, LLC (Developer) to construct, develop, complete and operate a major, multi-sport athletic complex including a stadium facility that is the home field for Sporting KC within the Village West Redevelopment Area. The construction was primarily funded from proceeds of the Series 2010B STAR bonds. Additionally, under a Land Transfer and Specific Venture Agreement, the Cerner Corporation (Cerner) acquired land from the Unified Government within the Village West Redevelopment Area to construct, develop, complete and operate 600,000 square feet of Class A office buildings. Certain components of the Agreements affect the Unified Government's financial statements as follows:

The site for the stadium project was sold to the Developer at its appraised fair market value, or \$3,600,000, to be paid in 11 annual installments from 2010 – 2020.

The site for the office project was sold to the Developer at its appraised fair market value, or \$4,400,000, to be paid in 11 annual installments from 2015 - 2025.

Supplemental Land Payments will also be paid to the Unified Government by the developer, in an aggregate amount equal to \$18,000,000, less the amounts paid as noted above for the stadium and office sites. These payments were to have continued through 2025.

As a result of negotiations between the Unified Government and Sporting KC, a settlement agreement was reached in May 2015 to reduce the amounts owed for the stadium project, office project and supplemental land payments. This settlement resulted in a lump sum payment of \$9,500,000 paid to the Unified Government in June 2015. There is no outstanding note receivable as of December 31, 2015, and the amounts described in the three paragraphs above have been settled in full.

The agreement with Cerner imposes obligations on Cerner regarding construction of the office project and the creation of jobs. In the event that certain of the payroll and job creation obligations of the agreement are not met by December 31, 2016, the Developer has an obligation to pay the Unified Government an "Office Payment Obligation" as defined in the Multi-Sport Stadium Specific Venture Agreement. This obligation totals \$30,410,610 (payable in 10 equal installments from 2017 to 2026). This amount has not been recorded as a receivable in the Unified Government's financial statements as of December 31, 2015, as it is not yet determinable whether Cerner will meet the payroll and job creation obligations.

Payments owed to the Unified Government by the Developer as outlined above are guaranteed by the entity that owns Sporting KC.

D. Jointly Governed Organizations and Other Related Organizations

KCK Hotel Group, L.L.C. The Unified Government is one of three parties who have invested in the KCK Hotel Group, L.L.C. (KCK Hotel), which is responsible for the development, ownership and operation of a downtown hotel, civic center and related facilities including an office building, garage and adjoining common areas. The Unified Government contributed \$5,000,000, mostly from an

Empowerment Zone Grant from the Federal government, to obtain a 49.95% membership interest in KCK Hotel. The Unified Government also provided a \$6,040,000 loan to KCK Hotel, financed by a Section 108 loan from the U.S. Department of Housing and Urban Development. The loan agreement with KCK Hotel was entered into in February 2001, and calls for a repayment schedule based on a 25-year amortization, with a balloon payment at the end of 20 years. Due to the past operating performance of the hotel, at December 31, 2008 the loan receivable from KCK Hotel was written down to \$0 reflect the estimated loan payments to be collected over the term of the loan. In 2013, the Unified Government contributed an additional \$2,000,000, financed by the Series 2013-D general obligation bond. The additional contribution was used to fund renovations to the Hotel. The other two members in KCK Hotel contributed funding in accordance with the memorandum of understanding, and one also acts as the manager of KCK Hotel.

Gross receipts from hotel operations are used first for payment of operating expenses, then to fund an equipment reserve, and finally for debt service requirements on the loan with the Unified Government. KCK Hotel members receive distributions on their ownership interests only after all other payment requirements have been met. In May 2004, the members of KCK Hotel entered into a new funding agreement to provide additional infusions of funds to the hotel. The Unified Government has paid debt service payments for the KCK Hotel's Home Rule Bonds since December 2004. Similar additional advances may be required in future years. In 2009, the remaining balance of the Home Rule Bonds was refinanced with temporary notes issued by the Unified Government. In 2013, the Unified Government issued Series 2013-D to permanently finance the Home Rule Bonds, which are included in the balance of long-term liabilities on the Statement of Net Position.

Because KCK Hotel is a separate legal entity controlled by its three members, it is considered a joint venture under accounting principles generally accepted in the United States of America. The Unified Government's investment in this joint venture has no value as of December 31, 2015. Separately issued financial statements for the joint venture are available from the Unified Government at 701 North 7th Street, Kansas City, KS 66101. See also Note IV. H.

Dogwood Energy Facility (Dogwood). The BPU owns an undivided 17% interest in the assets of the Dogwood Energy Facility (Dogwood), a natural gas-fired combined cycle generating plant located in Pleasant Hill, Missouri in Cass County, Missouri, operated by Dogwood Energy, LLC.

The BPU's portion of the 630 megawatt (MW) rated capability of Dogwood is approximately 110 megawatts. Generation from Dogwood and operating expenses incurred by Dogwood are allocated to the BPU based on the 17% ownership interest. The BPU's proportionate share of their plant operating expenses is included in the corresponding operating expenses in the statement of net position. In addition, the BPU is required to provide its share of financing for any capital additions to Dogwood. During 2015, BPU's portion of fuel expense and operating and maintenance expense were \$5,174,887 and \$2,379,909 respectively. BPU also receives a portion of the wholesale sales generated by the Dogwood plant. BPU received \$6,582,222 in wholesale sales from Dogwood during 2015. These amounts are included in the accompanying statements of revenues, expenses and changes in fund net position.

The BPU's investment includes an acquisition adjustment of \$34.8 million, which is presented as property, plant, and equipment and amortized over the estimated remaining life of the plant (29.1 years). The BPU paid 15 years of Payment-in-lieu of taxes (PILOT) to Cass County, Missouri in the amount of \$2.5 million. This was recorded as a prepayment and is being amortized until 2028.

The BPU Board of Directors has approved the recovery of amounts invested in this facility, including the acquisition adjustments in current rates.

As of December 31, 2014, the BPU's ownership interest in Dogwood's capital assets consisted of \$35,044,592 in Plant in Service Facility, \$3,529,505 of accumulated depreciation and \$1,307,283 of construction work in process which is included in the capital asset balances in footnote III.B.

The BPU has an operating agreement with Dogwood Energy, LLC, which provides for a management committee comprising one representative and an alternate from each participant. Dogwood Power Management, LLC, the project management company, controls the operating and maintenance decisions of Dogwood in its role as operator. The BPU and other participating entities have joint approval rights for the annual business plan, the annual budget, and material changes to the budget.

E. Employee Retirement Systems and Pension Plans

UG Plan.

General Information about the Pension Plan

Plan description. The Unified Government participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et. seq. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. KPERS' financial statements are included in its Comprehensive Annual Financial Report which can be found on the KPERS website at <http://www.kpers.org> or by writing to KPERS (611 South Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

Benefits provided. KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Benefits are established by statute and may only be changed by the General Assembly. Member employees (except Police and Firemen) with ten or more years of credited service, may retire as early as age 55 (Police and Firemen may be age 50 with 20 years of credited service), with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever an employee's combined age and years of credited service equal 85 "points" (Police and Firemen' normal retirement ages are age 60 with 15 years of credited service, age 55 with 20 years, age 50 with 25 years, or any age with 36 years of service).

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. The accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Member employees chose one of seven payment options for their monthly retirement benefits. At retirement a member employee may receive a lump-sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump-sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas.

The 2012 Legislature made changes affecting new hires, current member employees and employers. A new KPERS 3 cash balance retirement plan for new hires starting January 1, 2015, was created. Normal retirement age for KPERS 3 is 65 with five years of service or 30 years with 30 years of service. Early retirement is available at age 55 with ten years of service, with a reduced benefit. Monthly benefit options are an annuity benefit based on the account balance at retirement.

For all pension coverage groups, the retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

Contributions. K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contributions rates. KPERS has multiple benefit structures and contribution rates depending on whether the employee is a KPERS 1, KPERS 2 or KPERS 3 member. KPERS 1 members are active and contributing members hired before July 1, 2009. KPERS 2 members were first employed in a covered position on or after July 1, 2009, and KPERS 3 members were first employed in a covered position on or after January 1, 2015. Effective January 1, 2015, Kansas law established the KPERS member-employee contribution rate at 6% of covered salary for KPERS 1, KPERS 2 and KPERS 3 members. K.S.A. 74-4975 establishes the Police and Firemen (KP&F) member-employee contribution rate at 7.15% of covered salary. Member contributions are withheld by their employer and paid to KPERS according to the provisions of Section 414(h) of the Internal Revenue Code.

State law provides that the employer contribution rates for KPERS 1, KPERS 2, KPERS 3 and KP&F be determined based on the results of each annual actuarial valuation. KPERS is funded on an actuarial reserve basis. Kansas law sets a limitation on annual increases in the employer contribution rates. The actuarially determined employer contribution rate (not including the 0.85% contribution rate for the Death and Disability Program) and the statutory contribution rate was 9.48% for KPERS and 21.36% for KP&F for the fiscal year ended December 31, 2015. Contributions to the pension plan from the Unified Government were \$5,690,910 for KPERS and \$13,413,946 for KP&F for the year ended December 31, 2015.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Although KPERS administers one cost sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of recourse, and pension expense are determined separately for each group of the plan. The Unified Government participates in the local (KPERS) group and the Police and Firemen (KP&F) group.

At December 31, 2015, the Unified Government reported a liability of \$46,954,379 for KPERS and \$100,868,767 for KP&F for its proportionate share of the KPERS' collective net pension liability. The collective net pension liability was measured by KPERS as of June 30, 2015, and the total pension liability used to calculate the collective net pension liability was determined by an actuarial valuation as of December 31, 2014, which was rolled forward to June 30, 2015. The Unified Government's proportion of the collective net pension liability was based on the ratio of the Unified Government's actual contributions to KPERS and KP&F, relative to the total employer and nonemployer contributions of the KPERS and KP&F for the fiscal year ended June 30, 2015. The contributions used exclude contributions made for prior service, excess benefits and irregular payments. At June 30, 2015, the Unified Government's proportion and change from its proportion measured as of June 30, 2014 were as follows:

	<u>Net pension liability as of December 31, 2015</u>			<u>Proportion as of</u>	<u>Decrease in</u>
	<u>Governmental</u>	<u>Business-Type</u>	<u>Total</u>	<u>June 30, 2015</u>	<u>proportion from</u>
	<u>Activities</u>	<u>Activities</u>			<u>June 30, 2014</u>
KPERS (local)	\$ 41,886,700	\$ 5,067,679	\$ 46,954,379	3.576%	(0.190%)
KP&F	95,710,931	5,157,836	100,868,767	13.892%	(0.298%)
	<u>\$ 137,597,631</u>	<u>\$ 10,225,515</u>	<u>\$ 147,823,146</u>		

For the year ended December 31, 2015, the Unified Government recognized pension expense of \$3,151,081 for KPERS and \$12,119,645 for KP&F. At December 31, 2015, the Unified Government reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Governmental Activities		Business-Type Activities	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 873,417	\$ 2,787,819	\$ 47,069	\$ 229,791
Net difference between projected and actual earnings on pension plan investments	-	4,670,003	-	361,065
Changes in proportionate share	2,301,159	3,924,491	148,416	350,978
Changes in assumptions	-	1,542,500	-	122,404
County contributions subsequent to measurement date	9,160,278	-	684,351	-
Total	<u>\$ 12,334,854</u>	<u>\$ 12,924,813</u>	<u>\$ 879,836</u>	<u>\$ 1,064,238</u>

The \$9,844,629 reported as deferred outflows of resources related to pensions resulting from the Unified Government's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as increases (decreases) to pension expense as follows:

Year ended December 31:	Governmental Activities	Business-Type Activities
	Deferred Outflows (Inflows) of Resources	Deferred Outflows (Inflows) of Resources
2016	\$ (3,718,894)	\$ (331,356)
2017	(3,718,894)	(331,356)
2018	(3,718,894)	(331,356)
2019	2,536,102	225,968
2020	(1,129,657)	(100,653)
	<u>\$ (9,750,237)</u>	<u>\$ (868,753)</u>

Actuarial assumptions. The total pension liability for KPERS in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Price inflation	3.00%
Wage inflation	4.00%
Salary increases, including wage increases	4.00% to 16.00%, including inflation
Long-term rate of return, net of investment expense, and including price inflation	8.00%

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the December 31, 2014 valuation were based on the results of an actuarial experience study conducted for the three year period beginning December 31, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocations as of June 30, 2015 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global equity	47%	6.30%
Fixed income	13	0.80
Yield driven	8	4.20
Real return	11	1.70
Real estate	11	5.40
Alternatives	8	9.40
Short-term investments	2	(0.50)
Total	<u>100%</u>	

Discount rate. The discount rate used by KPERS to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the contractually required rate. The Local employers do not necessarily contribute the full actuarial determined rate. Based on legislation passed in 1993, the employer contribution rates certified by the KPERS' Board of Trustees for this group may not increase by more than the statutory cap. The expected KPERS employer statutory contribution was modeled for future years, assuming all actuarial assumptions are met in the future. Employers contribute the full actuarial determined rate for KP&F. Future employer contribution rates were also modeled for KP&F assuming all actuarial assumptions are met in future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Unified Government's proportionate share of the collective net pension liability to changes in the discount rate. The following presents the Unified Government's proportionate share of the collective net pension liability calculated using the discount rate of 8.00%, as well as what the Unified Government's proportionate share of the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate:

	<u>1% Decrease (7.00%)</u>	<u>Current Discount Rate (8.00%)</u>	<u>1% Increase (9.00%)</u>
Unified Government's KPERS proportionate share of the net pension liability	\$ 66,654,233	\$ 46,954,379	\$ 30,252,773
Unified Government's KP&F proportionate share of the net pension liability	<u>146,479,081</u>	<u>100,868,767</u>	<u>62,343,640</u>
	<u>\$ 213,133,314</u>	<u>\$ 147,823,146</u>	<u>\$ 92,596,413</u>

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued KPERS financial report.

BPU Plan. Plan Description. The Retirement Pension Plan for the Board of Public Utilities of Kansas City, Kansas (the Plan) is a single-employer defined benefit pension plan as defined by GASB 68.

The Plan is governed by Kansas State statutes, which, provide for the establishment of a Board of Pension Trustees and provides authorization for the Plan to take control and custody of all assets, property, and funds presently held, controlled, and in the possession of the Plan's Board of Pension Trustee. The Plan was established and may be amended only by the Board of Pension Trustees. The Board of Pension Trustees is represented equally by three management seats appointed by the General Manager, and three non-management seats elected by the BPU members. The Plan membership includes all persons employed by the BPU on a regular, permanent basis. The Plan is not

subject to either minimum funding standards of the Employee Retirement Income Security Act of 1974 or the maximum funding limitations.

Separate, stand-alone financial statements of the Plan can be obtained from the Pension Administrator, in care of the Human Resources Department of the BPU, 540 Minnesota Avenue, Kansas City, KS 66101.

Benefits Provided. The primary benefits provided by the Plan are retirement benefits. However, the Plan also provides ancillary benefits in the event of pre-retirement death, disability, or termination of employment prior to meeting the eligibility requirements to retire. An employee of the BPU is eligible for coverage at the time of employment as a regular, permanent BPU employee. An employee remains a member of the Plan as long as they continue employment with the BPU. Vesting is achieved upon the completion of five years of service. Tier 1 member, retirement is at age 55, regardless of service. Benefits are calculated using the compensation for the three highest years of service within the last 10 years of service, multiplied by the total years of service and the formula factor of 1.80%, plus final average salary multiplied by the total years of service prior to January 1, 2004 and the formula factor of 0.40%. Benefits vest after 5 years of service. For Tier 2 members, retirement is at age 65, with 5 years of service or age 60, with 30 years of service. Benefits are calculated using the compensation for member's entire career, multiplied by the formula factor of 1.50%. Benefits vest after 5 years of service.

The cost of living adjustment (COLA) is an automatic, simple 3% for members who retired before January 1, 1993. The COLA is not automatic, but discretionary for members who retired on or after January 1, 1993. The COLA can vary from 0% to 3% of the previous year's pension as determined by the Pension Board every year. If, on the first January 1 following benefit commencement, benefits have been received for less than a full calendar year, the increase is a fraction of the determined increase equal to the ratio of number monthly benefit payments received divided by 12.

The data required regarding the membership of the Plan were furnished by the Pension Administrator of the Plan. The following table summarized the membership of the Plan as of January 1, 2014, the Valuation date.

Inactive Members or Beneficiaries Currently Receiving Benefits	773
Disabled Members	12
Inactive member Entitled To But Not Yet Receiving Benefits	23
Active Members	<u>570</u>
Total	1,378

Funding Policy. Benefit and contribution provisions are established by and may only be amended by the Pension Board of Trustees. Contribution rates are determined annually by the Pension Board of Trustees. BPU contributes a fixed contribution rate, equal to that of the members, currently 8.50% of pensionable earnings.

Pension Liabilities. The net pension liability as of December 31, 2015 was measured as of December 31, 2014 (the measurement date), and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2014 and rolled forward to the measurement date. As of December 31, 2015, the Plan reported a net pension liability of \$11,727,545.

	Increases (Decreases)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(a)	(b)	(a)-(b)
Balances at December 31, 2014			
Changes for the year:			
Service cost	\$477,102,631	\$474,253,091	\$ 2,849,540
Interest on total pension liability	7,560,923	-	7,560,923
Employer contributions	36,958,626	-	36,958,626
Employee contributions	-	4,278,318	(4,278,318)
Net investment income	-	4,278,318	(4,278,318)
Benefit payments, including member refunds	-	27,423,709	(27,423,709)
Administrative expenses	(30,832,788)	(30,832,788)	-
Net changes	-	(338,801)	338,801
Balance at December 31, 2015	\$490,789,392	\$479,061,847	\$ 11,727,545

Actuarial Assumptions. Significant actuarial assumptions used in the valuation of the net pension liability were:

Valuation date	January 1, 2014
Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll, closed, 15-year floor, 30-year level percent of payroll, open, if a surplus exists on a funding basis
Remaining amortization period	24 years
Asset valuation method	8-year smoother market
Price inflation	3.10 percent
Wage inflation	4.00 percent
Long-term rate of return, net of investment expenses; and including inflation rate assumption	8.00 percent
Municipal Bond Index rate	3.70 percent
Salary increase, including wage inflation	4.70 to 11.00 percent
Cost-of-living adjustment	Retired before January 1, 1993: 3.00 percent in all future years Retired on/after January 1, 1993: 1.0 percent through 2020 and then 3.00 percent for 2021 and later.

Pre-retirement mortality rates were based on the RP-2000 Employee Table with generational mortality projections using Scale AA. Post-retirement mortality rates were based on the RP-2000 Healthy Annuitant Table with generational mortality projections using Scale AA.

The actuarial assumptions used in the valuation are based on the results of the most recent actuarial experience study, which covered the five-year period ending December 31, 2012. The experience study report is dated June 18, 2014.

The long-term expected rate of return on pension plan investments is reviewed as part of the regular experience study prepared for the Plan. The results of the most recent experience study were presented in a report dated June 18, 2014. Several factors are considered in evaluating the long-term rate or return assumption, including long-term historical data, estimates inherent in current market data, and an analysis in which best-estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation), along with estimates of variability and correlations for each asset class, were developed by the Plan's investment consultant. These ranges were combined to develop the long-term expected rate of return by consultants are often intended for use over a 10-year investment horizon and are not always useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The investment consultant for the BPU does provide capital market assumptions for a 50-year period and those were used as part of our analysis. The long-term rate of return assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class used for the experience study dated June 18, 2014, as provided by the Plan's investment consultant, Demarche, are summarized in the following table:

Asset class	Target Allocation	Long-Term Expected Real Rate of Return*
Domestic Large Cap Equity	20.0%	5.9%
Domestic Large Cap Equity	20.0	7.2
International equity	13.0	6.1
International Small Cap Equity	4.0	7.4
Emerging Market Equities	3.0	8.9
Real Estate	14.0	5.5
Fixed Income- Intermediate	21.0	3.4
Fixed Income - High Yield	5.0	5.2
Cash and Equivalents	0.0	1.0
	100.0%	

* Arithmetic mean, net of investment expenses

Discount Rate. The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the Prior Measurement Date. The projection of cash flows used to determine the discount rate assumed the plan contributions from members and the District will be made at the current contribution rates as set out in the labor agreements in effect on the measurement date:

- i. Employee contribution rate: 8.5% of annual compensation
- ii. BPU contribution rate: Same as member contributions (8.5% of annual compensation)

Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments of 8.0% was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the Net Pension Liability of the Plan, calculated using the discount rate of 8.00%, as well as what the Plan's

Net Pension Liability would be if it were calculated using a discount rate that is one percentage-point lower (7.00%) or one percentage-point higher (9.00%) than the current rate.

	1% Decrease (7.0%)	Current Discount Rate (8.0%)	1% Increase (9.0%)
Net Pension asset (liability)	\$ (67,868,864)	\$ (11,727,545)	\$ 35,485,565

Pension Expense. For the fiscal year ended December 31, 2015, the BPU recognized pension expense of \$5,452,849. Annual pension expense consists of service cost, interest and administrative expenses on pension liability less employee contributions and projected earnings on pension plan investments. The difference between actual and expected earnings is recorded as deferred outflow/inflow of resources recognized in pension expense over a five year period. The pension expense for the fiscal year ended December 31, 2015 is summarized below.

Service cost at end of year	\$ 7,560,923
Interest on the total pension liability	36,958,626
Benefit changes	-
Expense portion of the current-period difference between expected and actual experience in the total pension liability	-
Expensed portion of current-period assumption changes	-
Employee contributions	(4,278,318)
Projected earnings on plan investments	(37,053,051)
Expense portion of the current-period difference between expected and actual earnings on plan investments	1,925,868
Administrative expenses	338,801
Other	-
Recognition of beginning deferred outflows of resources	-
Recognition of beginning deferred inflows of resources	-
Total pension expense	<u>\$ 5,452,849</u>

Deferred Outflows/Inflows of Resources related to Pensions. In accordance with GASB Statement No. 68, the BPU recognizes differences between actual and expected experience with regard to economic or demographic factors, changes of assumptions about future economic or demographic factors, the difference between actual and expected investment returns, changes in proportion, and contributions subsequent to the measurement date as deferred outflow/inflows of resources.

As of December 31, 2015, the BPU reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ -
Changes in assumptions	-	-
Difference between projected and actual earnings on pension plan investments	7,703,474	-
Contributions subsequent to the measurement date	4,172,968	-
Total	<u>\$ 11,876,442</u>	<u>\$ -</u>

The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date of \$4,172,968 will be recognized as a reduction in the net pension liability for the year ended December 31, 2016. Other amounts reported as deferred outflows of resources related to pension will be recognized in pension expense as follows:

Year ended December 31:	Deferred Outflow of Resources
2016	\$ 1,925,868
2017	1,925,868
2018	1,925,869
2019	1,925,869
	<u>\$ 7,703,474</u>

Defined Benefit Plans Prior Period Adjustment. For the Unified Government and BPU plans combined the implementation of GASB 68 resulted in a \$129,652,782 increase to the net pension liability, a \$27,780,473 increase to deferred inflows, a \$14,871,670 increase to deferred outflows and a \$142,561,585 decrease to net position for governmental activities and a \$4,715,446 decrease to the net pension liability, a \$2,072,834 increase to deferred inflows, a \$5,282,154 increase to deferred outflows and a \$7,924,766 increase to net position for business type activities as of January 1, 2015.

Unified Government Closed Plan. In 1962, certain individuals elected not to participate in KPERS. Currently, there are 2 remaining retirees or their spouses receiving benefits under the prior plan maintained by the Unified Government. There are no employees contributing to the plan. The most recent actuarial study was prepared in 1998 and estimated total payments for 2016 through 2030 to be approximately \$255,919. The Unified Government has made no provision to fund these payments but includes an estimate of the annual expense in the general fund budget. Payments made to plan retirees for the year ended December 31, 2015 were \$38,366. This future payable is included with long-term debt.

F. Other Postemployment Benefits Other Than Pensions

1. UG Plan.

Plan Description. The Unified Government sponsors a single-employer defined benefit healthcare plan that offers lifetime benefits to retirees and their dependents including medical, dental and vision. Retiree health care coverage to age 65 is mandated under Kansas Statute 12-5040. The UG also offers coverage past age 65 that is secondary to Medicare. Retired employees who do not meet the following employer paid retiree coverage criteria may elect to continue coverage at the retired employee's own expense.

Employees must qualify for "unreduced" retirement under either KPERS or KP&F. Also, coverage due to disability retirement is available for qualifying individuals at any age who meet the requirements of KPERS or KP&F. A retiree may not enroll in medical coverage after once declining coverage. Dental and vision coverage are available each open enrollment whether or not a prior declination has occurred.

Additionally, employees that elected to retire under an early retirement offer receive direct subsidies off of the normal retiree premium rate to age 65. Employees not receiving a subsidy are required to pay blended premium rates to maintain coverage.

The Plan does not issue separate financial statements.

Funding Policy

GASB Statement 45 does not require the funding of the OPEB liability. Medical and dental benefits are self-funded with a stop-loss for medical. The funding policy of the UG is to pay claims, administrative

costs and stop-loss premiums as they are due through an internal service fund. This arrangement does not qualify as an "OPEB Plan" under GASB 45 requirements and thus cannot be treated as holding assets for GASB reporting.

Unless an early retirement direct subsidy applies, participants must contribute full blended premiums to maintain coverage. The full premium amounts (on a monthly basis) that applied for 2015 ranged from \$325 to \$429, depending on retiree age and marital status. Retirees who meet stipulated age and service criteria receive a subsidy off the full premiums. The subsidy applies to retiree medical coverage to age 65. It does not apply to dental or vision, nor does it apply to dependent coverage except when a qualifying retiree elects the 50%-family paid option. The subsidy percentages (i.e. amount of plan premium paid by UG) vary from 50% to 100%, generally based on the single premium. The subsidy is not available to employees terminating due to disability retirement. The early retirement subsidy for pre-65 medical coverage is no longer available for retirements with UG occurring after December 31, 2010.

Annual OPEB Cost and Net OPEB Obligation

The Unified Government's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The following table shows the components of the annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the net OPEB obligation.

Primary Government Other Post Employment Benefits					
1. Annual OPEB Cost for 2015					
					\$ 5,324,101
					6,206,406
					<u>11,530,507</u>
					2,987,058
					<u>(4,483,376)</u>
					10,034,189
					<u>(2,311,837)</u>
					<u>\$ 7,722,352</u>
 2. Employer Contributions for 2015					
					\$ 4,322,327
					<u>(2,010,490)</u>
					<u>\$ 2,311,837</u>
 3. Schedule of Employer Contributions					
Year	Annual OPEB Cost	Net Employer Contributions	Percentage Contributed	Net OPEB Obligation	
2015	\$ 10,034,189	\$ 2,311,837	23.04%	\$ 93,066,865	
2014	9,296,928	4,073,989	43.82%	85,344,513	
2013	9,413,028	2,791,044	29.65%	80,121,574	
 4. Net OPEB Obligation at 12/31/15					
					\$ 85,344,513
					<u>7,722,352</u>
					<u>\$ 93,066,865</u>

Funded Status and Funding Progress

As of January 1, 2015, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for benefits was \$114,148,528, and there was no actuarial value of assets, resulting in

an unfunded actuarial accrued liability (UAAL) of \$114,148,528. The covered payroll (annual payroll active employees covered by the plan) was \$106,221,076, and the ratio of the UAAL to the covered payroll was 107.5%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2015 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 2.75% inflation rate implicitly included in the 3.5% investment rate of return, which is a blended rate of the expected long-term investment returns on the employer's own investments, calculated based on the funded level of the plan at the valuation date. Other assumptions included an annual healthcare cost trend rate of 7.0% initially, reduced by decrements to an ultimate rate of 5.0% after six years. The UAAL is being amortized in level dollar amounts on an open basis over thirty years. The remaining amortization period at December 31, 2015 was 30 years.

2. BPU Plan.

Plan Description. The BPU provides certain postemployment health care and life insurance benefits to eligible retirees and their dependents in accordance with provisions established by the BPU's Board. The plan is a single-employer defined benefit healthcare plan administered by the BPU. The plan does not issue separate financial statements. Employees are given a 90-day window to retire with medical coverage at ages 55 and above with 7 consecutive years of service. The retiree plan is a comprehensive major medical plan with a \$100 deductible per individual or \$200 per family. For individuals, the plan pays 80% of the next \$12,500 of allowable charges and 100% thereafter for the remainder of that calendar year. For families, the plan pays 80% of the next \$25,000 of allowable charges and 100% thereafter for the remainder of that calendar year. The plan has a lifetime maximum of \$750,000. Benefits cease at the first of the month that the retired employee attains age 65 or death. Spouse benefits end at the first of the month that the retired employee attains age 65, the end of the month of the retiree's death, or the spouse's date of death. Retirees are not required to contribute toward the cost of the postretirement benefits. There were 363 participants eligible to receive benefits under this plan as of December 31, 2015.

Funding Policy

The contribution requirements of plan members and the BPU are established and can be amended by the BPU's Board. Contributions are made to the plan based on a pay-as-you-go basis. For the year ended December 31, 2015, the BPU paid \$4,057,829 for retirees.

Annual OPEB Cost and Net OPEB Obligation

The BPU's annual OPEB expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of 30 years. The BPU's annual OPEB cost, percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013-2015 are as follows:

Fiscal year ended:	Annual OPEB	Percentage of	Net OPEB
	Cost	annual OPEB contributed	
December 31, 2015	\$4,863,731	83%	\$5,074,739
December 31, 2014	4,217,197	87%	4,268,837
December 31, 2013	4,266,768	90%	3,719,986

The following table shows the components of BPU's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the BPU's net OPEB obligation:

Normal costs	\$ 1,946,310
Amortization payment	<u>2,981,056</u>
Annual required contribution (ARC)	4,927,366
Amortization of net OPEB obligation	(266,405)
Interest on net OPEB obligation	<u>202,770</u>
Annual OPEB cost	4,863,731
Annual employer contribution	<u>(4,057,829)</u>
Increase in OPEB obligation	805,902
Net OPEB obligation - beginning of year	<u>4,268,837</u>
Net OPEB obligation - end of year	<u>\$ 5,074,739</u>

The funded status of the plan as of December 31, 2015 is as follows:

Actuarial accrued liability (AAL)	\$45,945,465
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$45,945,465
Funded ratio	-%
Covered payroll	\$49,091,000
UAAL as percentage of covered payroll	93.6%

Actuarial Methods and Assumptions

Actuarial valuations for an ongoing plan involve estimates of the value of reports amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include benefits provided at the time of each valuation date and the historical pattern of sharing benefit costs between the employer and plan member to that point. The actuarial methods used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of plan assets, consistent with the long-term perspective of the calculations. The valuation of the liabilities is based on a closed group. In the actuarial valuation as of December 31, 2015, the projected unit credit actuarial cost method was used. The valuation of liabilities is based on a closed group. The actuarial assumptions included a 4.75% discount rate, which includes a 2% inflation rate and an annual healthcare cost trend of 7.5% in 2015, reduced by decrements to an ultimate rate of 5.0% in 2020. The projected salary increase is 2.5%. The unfunded actuarial accrued liability is being amortized over 20 years as a level percent of payrolls.

G. Economic Condition

As described in Notes III.F., IV.E. and IV.F., the Unified Government has significant long-term liabilities for compensated absences, other post-employment benefit obligations (OPEB), and pensions. These obligations are the primary cause of the resulting deficit in net position for governmental activities recorded on the Statement of Net Position. For governmental activities, total long-term liabilities for compensated absences were \$42.3 million, for OPEB were \$85.5 million, and for pensions totaled \$137.6 million.

The annual increase in the net OPEB obligation for retiree health benefits has averaged over \$6.0 million for the prior three years. In 2015, the annual increase in liability was \$7,722,352. As of the most recent actuarial valuation, January 1, 2015 for OPEB, the total unfunded actuarial liability was approximately \$114 million. For more information on the OPEB unfunded actuarial liability, see Note IV.F.

With the implementation of GASB 68, the Unified Government recorded for the first year a total net pension liability of \$147.8 million resulting from its participation in KPERS and KP&F based on the most recent actuarial valuation as of December 31, 2014. For more information on the unfunded actuarial liability, see Note IV.E.

The deficit net position of the Unified Government reflects there are currently insufficient assets to provide all the benefits earned by employees under the OPEB and pension plans in order to pay off the unfunded liability during the adopted amortization periods ending in 2045. A significant majority of the compensated absences, OPEB and pension obligations will be liquidated by General Fund resources. For the year ended December 31, 2015, General Fund revenues accounted for approximately 67% of all governmental fund revenues, excluding the Economic Development Fund which is restricted for sales tax obligation and transportation development bonds. General Fund revenue sources such as property taxes and sales taxes are affected by general economic conditions, and the Unified Government, like many other entities, experienced economic challenges in past years. There is a reasonable possibility that continued growth in compensated absences and net OPEB and pension obligations will result in increases to the deficit in net position for governmental activities in future years.

Continued growth in sales and use tax revenues to the General Fund, with an annual increase of 6.5% in 2015 and 20.5% growth since 2011, have positively impacted government revenues. Also, a 4-year reduction in the tax delinquency rate of 7.7% (2012), 7.3% (2013), 6.4% (2014) and 5.9% (2015) have increased property tax revenue collections for the General Fund.

Several actions have been implemented by management to reduce future increases in OPEB retiree health benefit and compensated absences liabilities. In 2015 employee deductibles were set to \$500 single/\$1,000 family. These deductibles will reduce the Unified Government's total contributions and

may result in lower future participation by retirees. As of January 2014, the Unified Government established a new "employee class" for new and future hires. Sick leave accruals and the payout of accrued vacation and sick leave, at separation and retirement, have been significantly reduced for this employee class. This change in accrued leave balances has been implemented for all new employees with the exception of employees under the International Brotherhood of Electrical Workers (IBEW) and International Association of Fire Fighters (IAFF) bargaining groups.

Further, management negotiated and implemented employee contributions of \$10, \$20 and \$30 per month depending on salary level towards the employee's and family health care coverage, which was previously paid 100% by the Unified Government. During 2015, the employee health care contributions were effective for all employees except the IBEW and the International IAFF bargaining groups. This action has generated an estimated \$363,480 in FY 2015 in additional employee contributions to the health plan. The IBEW group agreed to these contributions for FY 2016.

The Unified Government expects positive increases in General Fund revenues during the next two years. The Hollywood Casino opened in February of 2012 and generated over \$3.2 million in gaming and \$6.2 million property tax revenues in 2015. Consistent with a development agreement, the Casino began contributing an additional 1% of net gaming revenues in 2015. This represents approximately \$1.3 million on an annual basis. The development agreement also required the construction of a first class- 250 room hotel to begin 24 months after opening or be subject to an additional payment of 1% of net gaming revenues. In April of 2015, the Casino announced a delay in the start of this project and was required to make annual payments in excess of \$2.3 million, including both a partial year 2014 and full-year 2015 obligation. This penalty payment will continue until the Casino proceeds with the hotel construction project.

The economic outlook for Wyandotte County and Kansas City, KS remains positive. Wyandotte County remains strong in terms of job growth among Kansas City metro area counties as well as nationally. Wyandotte County's growth rate was stronger than the national growth rate. Wyandotte County had a 2.3% increase in jobs between September 2014 and September 2015 which ranked the County 2nd of the six Kansas City Missouri-Kansas metropolitan area cities in the analysis. Nationally, job growth was 1.9% for this period. In 2015, the County saw several major projects covering all sectors of the economy advance. Example of these projects are: auto mall (Fenton Nissan, Victory Chrysler-Jeep-Dodge, Victory Ford) adjacent to Village West area (\$16 million); new elementary school (\$15 million); continued manufacturing & industrial investment - Sunshine Biscuit & PQ Corporation (\$8 million); Kaw Point Industrial building (\$9 million) and completion of phase 2, Prairie View, of the Village West luxury market-rate apartments (\$27 million). Industrial growth has resulted from the General Motors \$600 million investment in its Kansas City plant. The redevelopment of two adjacent industrial parks is currently underway. An initial building of 80,000 sq. ft. was completed in 2014. This building is occupied by Inergy and is a supplier to the General Motors automotive plant.

These commercial investments spurred the residential construction. In 2015, there were 132 single-family permits issued in Kansas City, Kansas, and 167 issued in 2014. The decade of the 2000's saw more new single-family building permits (3,098) than any other prior decade going back to the 1960's. The Home Builders Association of Greater Kansas City tracks new housing starts for 69 communities in an eight-county Kansas City area and, in 2015, Kansas City, Kansas ranked eighth among all cities in the number of single-family units added.

In 2015, STAR bonds were issued for two major projects. Adjacent to Schlitterbahn water park, the construction of a seven dealership auto mall continued in 2015, as well as construction of a training center and office facility for U.S. Soccer National Training and Coaching Development Center. The proposed development will have state-of-the-art facilities for professional soccer athletes; a training facility for coaches and officials; and a 12-field youth tournament complex. Adjacent to the U.S. Soccer facility, Schlitterbahn has additional plans for the creation of new retail stores including an automotive plaza, which began development in 2016 as mentioned above, four restaurant pad sites

and a convenience store/gas station. The developments will be subject to property tax and a portion of the sales tax is not pledged to STAR Bond pay-off, but will be retained by the government.

Finally, the retirement of STAR bonds, remains on schedule for retirement to occur by November 2016. The STAR Bond payoff will result in local sales tax revenues increasing by approximately \$12-\$14 million annually.

H. Subsequent Events

Since January of 2016, the Unified Government has issued seven financings for both bonds and temporary notes. No other financings are expected to be completed by June 30th of 2016. The table below provides a summary of these issuances.

Unified Government Financings: January - May 2016

Issue	Month	Tax Status	Term	Amount	True Interest Cost
2016-I	February	Tax-Exempt GO Bonds	1	\$ 60,470,000	0.61%
2016-II	February	Taxable GO Bonds	1	5,390,000	1.11%
2016-A	February	Tax-Exempt GO Bonds	20	26,825,000	2.70%
2016-B	March	Tax-Exempt GO Bonds	12	19,675,000	1.91%
2016-C	March	Taxable GO Bonds	12	2,870,000	2.38%
PBC 2016-A (BPU)	February	Tax-Exempt Revenue Bonds	4	6,775,000	1.18%
PBC 2016-B (UG Med Clinic)	February	Taxable Revenue Bonds	10	1,830,000	2.44%
Wyandotte Plaza 2016	February	Special Obligation Refunding and Impr Bonds	10	14,550,000	4.79%
39th & Rainbow 2016A and 2016B	March	Special Obligation Tax Increment Refunding Bonds	15	4,193,000	3.15%

In April 2016, the Unified Government sold the Hilton Garden Inn for \$8.8 million to Fairwood Capital, LLC. See Note IV.D. for discussion of the KCK Hotel Group and related investment in joint venture. The Hilton Garden Inn was built in 2002, and underwent a \$2-million renovation in 2013. The Unified Government will maintain ownership of the adjacent Reardon Convention Center and will continue to manage this facility for civic and government-sponsored events. The sale of the 147 room hotel will allow the Unified Government to invest \$2 million for capital improvements and renovations to the convention center and to cover the outstanding debt obligations on the hotel. Outstanding debt on the hotel includes an approximate balance of \$1.6 million on a 2010 Section 108 loan refinancing and a \$4.1 million balance on the 2103-D debt issuance, neither of which can be defeased until a future maturity date.

During the first quarter of 2016, the BPU plans to issue approximately \$125 million of revenue bonds to finance environmental equipment upgrades to comply with the new EPA regulations impacting the Nearman power generation stations. This debt is estimated to have an average interest cost of 4.1 percent and is expected to be repayable through 2045.

Budgetary Schedules

The Unified Government adopts a legal budget for the general fund separately for the city, county and parks divisions; however for GAAP purposes the general fund is presented for the Unified Government as a whole. The schedules above present both the combined general fund budgetary schedule as well as the individual budgetary schedules which represent the legal level of budget authority.

Budget / GAAP Reconciliation

All legal operating budgets are prepared using the modified cash basis of accounting, modified further by the encumbrance method of accounting. Revenues are recognized when cash is received. Expenditures include disbursements, accounts payable and encumbrances. Encumbrances are commitments for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. Accordingly, the data presented in the budgetary comparison statements differ from the data presented in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America. The following schedule presents the reconciliation between the different bases of reporting for the general fund:

Revenue and other sources:	<u>General Fund</u>
GAAP basis revenues	\$ 199,974,152
Revenue adjustments	31,663
Intrafund appropriations and transfers	3,107,255
Cancellation of prior year encumbrances	<u>45,265</u>
Budgetary basis revenue	<u>\$ 203,158,335</u>
Expenditures and other uses:	
GAAP basis expenditures	\$ 184,763,343
Expenditure adjustments	(354,036)
Intrafund appropriations	3,107,255
Change in reserve for encumbrances	1,802,451
Cancellation of prior year encumbrances	<u>45,265</u>
Budgetary basis expenditures	<u>\$ 189,364,278</u>

* GASB 68 requires presentation of ten years. As of December 31, 2015, only three years of information is available.

^ Covered payroll is measured as of the fiscal year end December 31.

Changes in benefit terms for KPERS. In the state fiscal year 2014, the KP&F group had a change in benefit terms. The Legislature increased this group's employee contributions to 7.15 percent and eliminated the reduction of employee contributions to 2.0 percent after 32 years of service. In addition, the maximum retirement benefit increased to 90 percent of final average salary (reached at 36 years of service). Before this change the maximum retirement benefit was limited to 80 percent of final average salary (reached at 32 years of service).

Effective January 1, 2014, KPERS 1 member's employee contribution rate increased to 5.0 percent and then on January 1, 2015, increase to 6.0 percent, with an increase in benefit multiplier to 1.85 percent for future years of service. For KPERS 2 members retired after July 1, 2012, the cost of living adjustment (COLA) is eliminated, but members will receive a 1.85 percent multiplier for all years of service.

January 1, 2015, the KPERS 3 cash balance plan became effective. Members enrolled in this plan are ones first employed in a KPERS covered position on or after January 1, 2015, or KPERS 1 or KPERS 2 members who left employment before vesting and returned to employment on or after January 1, 2015. The retirement benefit is an annuity based on the account balance at retirement.

Notes to Required Supplementary Information for Contributions

The following actuarial methods and assumptions were used to determine the actuarially determined employer contribution reported in the most recent actuarial valuation (January 1, 2014):

Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll, closed, 15-year floor; 30-year level percent of payroll, open, if a surplus exists on a funding basis
06 Remaining amortization period	24 years
Asset valuation method	8-year smoother market
Price inflation	3.10 percent
Salary increases	4.70 to 11.00 percent
Investment rate of return	8.00% net investment expenses and including inflation Retired before January 1, 1993: 3.0 percent in all future years Retired on/after January 1, 1993: 1.0 percent through 2020 and then 3.00 percent for 2021 and later.
Future cost-of-living adjustment

REQUIRED SUPPLEMENTARY INFORMATION

Note 1 Significant Factors Affecting Trends in Actuarial Information for the Unified Government's Other Post-Employment Benefits other than Pensions

Changes in the Actuarial Liability for the valuation completed at January 1, 2015 are primarily due to:

- The disability, turnover and retirement rates were updated where applicable to be based on the latest available rates from KPERS / KP&F.
- The assumed trend rates, per capita costs and retiree contribution premiums were updated as part of the ongoing valuation analysis.
- Plan contribution premium rates increased about 14% and 18% for pre-Medicare retirees, respectively from 2015 to 2016. This was factored into the valuation.
- Expected per capita costs increased less than expected due in part to some reduction in benefits per the 2015 plan design.
- The assumed mortality was updated to reflect the Society of Actuaries Adjusted RPH-2014 Adjusted to 2006 Total Dataset Headcount-weighted Mortality with MP-2015 full generational improvement.
- The assumed proportion of future employees that elect coverage who retire at \geq age 65 was lowered from 45% to 40% due to two factors: 1) The direct subsidy of plan premiums is not available to future retirees, and 2) The Unified Government is endorsing/promoting Medicare supplemental coverage with AARP. Current post 65 retirees are assumed to continue coverage. When current pre 65 retirees attain age 65 it is assume 35% (previously 25%) will drop the coverage.

UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended DECEMBER 31, 2015

GOVERNMENTAL FUNDS

General Fund, is the principal operating fund containing all activity not required to be reported in a separate fund. This fund accounts for revenues and expenses that were formally City and County operations. Revenues are received from taxes, fees, intergovernmental revenue, rents and other sources. Expenses support general operations including court programs, public safety, public works, facilities maintenance, economic development and administrative functions. Financing for the purchase of capital equipment and projects not debt financed are also included.

Capital Projects Fund, is funded almost entirely by the issuance of debt and only incidentally from reimbursements and transfers in from other funds. Expenses are tracked by projects which usually are construction/reconstruction but also include settlement of claims which are financed by debt.

Debt Service Economic Development Sales Tax Fund, was established to record debt service payments and revenues related to completed STAR bond and TDD financed projects.

Statements for these major governmental funds are included in the Basic Financial Statements found in the Financial Section of this document. As a legal operating budget for the Capital Projects Fund is not required, a budgetary schedule is not included in this document.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds:

Primary source of revenue of these funds is governmental allocations or special taxes.

Clerk's Technology Fund, created on January 1, 2015 by state statute, is used to account for revenues and expenses received from specified fees charged by the county treasurer. Moneys are required "...to acquire equipment and technological services for the storing, recording, archiving, retrieving, maintaining and handling of data recorded, stored or generated in the office of the county treasurer".

Community Development Fund, is the Unified Government's entitlement grant from the U.S. Department of Housing and Urban Development (HUD). Federal regulation requires this fund be used to support services and activities to the benefit of "low and moderate" income households or areas of the city and county requiring special attention.

Court Trustee Fund, supports the Court Trustee Office in providing services to children by establishing or enforcing court orders. All generated revenue is used to pay for child support enforcement activities.

Dedicated Sales Tax Fund, was established on July 1, 2010 to pay for Public Safety Services and Neighborhood Infrastructure. The Public Safety services are provided by the Kansas City, Kansas Police & Fire Departments. The source of revenue is a 10-year 3/8th cent sales tax, which was passed by Kansas City, Kansas voters on April 13, 2010.

Developmental Disability Fund, provides funds to support mental health or mental retardation services.

Elections Fund, established to account for the administration of community-wide elections in Wyandotte County.

UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended DECEMBER 31, 2015

NONMAJOR GOVERNMENTAL FUNDS (continued)

Special Revenue Funds (continued):

Environmental Trust Fund, is used to accumulate resources for future landfill costs. A legal operating budget for this fund is not required; therefore, a budgetary schedule is not included in this document.

Health Department Fund, provides funding to support the County Health Department operations and capital expenditures for county health purposes.

Jail Commissary Fund, was established to record the sales to inmates of clothing, food and personal products.

Library Fund, collects library taxes to support the services of the Kansas City, Kansas Public Library.

Mental Health Fund, disburses funds for a variety of community mental health services provided by contracted, nonprofit corporations.

Register of Deeds Technology Fund, created in 2002 by state statute, is used to account for revenues and expenses received from specified fees charged by the Register of Deeds. Moneys are required "...to acquire equipment and technological services for the storing, recording, archiving, retrieving, maintaining and handling of data recorded or stored in the office."

Revolving Loan Fund, addresses very specific needs in the community by providing gap financing for businesses in expansion and job creation or retention. The major fund revenue is interest income and is utilized to pay for administrative costs of the program.

Service Program for the Elderly Fund, provides services for those citizens age 60 and over such as: senior centers, transportation, education, and health-related concerns.

Special 911 Tax Wyandotte County, is a new statewide 911 fee per subscriber account (telephone number capable of accessing 911) was imposed and that fee applies to hardwire, wireless and VoIP phones. Monies in this fund shall be used only for purposes required or permitted under the Kansas 911 Act.

Special Alcohol Programs Fund, includes two separate fund programs:

The Special Alcohol Program Grant Program receives its funding from a portion of the Government's liquor tax moneys. Expenditures are restricted to providing services and/or programs for alcohol abuse prevention, treatment or education.

The Alcohol Diversion Program is funded through collection of fines from persons found in violation of driving under the influence of alcohol, K.S.A. 8-1567. Again, expenditures are used to fund community services targeting alcohol related programs.

Special Asset Fund, is a special revenue fund established associated with the sale or acquisition of significant government assets, including land and buildings. This fund will detail the activity associated with the potential sale of major assets. In addition, any related debt payments, operating expenditures, or future land acquisition expenditures may be budgeted from available cash balances in this fund.

UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended DECEMBER 31, 2015

NONMAJOR GOVERNMENTAL FUNDS (continued)

Special Revenue Funds (continued):

Special Grants Fund, accounts for grant revenues and related expenditures in the areas of Law Enforcement, Supportive Housing, Aging, Health, Community Correction, District Court, District Attorney, and other grants. A legal operating budget for this fund is not required; therefore, a budgetary schedule is not included in this document.

Special Law Enforcement Fund, obtains revenues from drug related court forfeitures and confiscated property. Expenditures are restricted to drug enforcement related programs.

Special Parks and Recreation Fund, supports designated park improvement projects. Revenues for this fund are generated from a portion of liquor sales receipts within the Unified Government.

Special Street and Highway Fund, finances road improvement, development and maintenance. Revenues are generated primarily from motor fuel taxes collected by the State.

Tourism and Convention Promotion Fund, receives its revenue from transient guest taxes levied on hotel and motel lodging within the city. These moneys are apportioned to the Chamber of Commerce, maintenance and repair of the Reardon Civic Center, and a hotel reserve fund for future hotel development.

Treasurer's Technology Fund, created on January 1, 2015 by state statute, is used to account for revenues and expenses received from specified fees charged by the county treasurer. Moneys are required "...to acquire equipment and technological services for the storing, recording, archiving, retrieving, maintaining and handling of data recorded, stored or generated in the office of the county treasurer".

Debt Service Fund:

Debt Service Fund, also known as the Bond and Interest Fund, is responsible for servicing the annual principal and interest payments on outstanding debt issued by the Unified Government. These bonds fund major capital improvement and maintenance projects. The primary source of revenue for this fund is from Ad Valorem Property Taxes. Segregation is maintained between debt supported by the boundaries of the City and debt supported by the County-at-large.

Capital Project Funds:

County Initiative to Fund Infrastructure, fund finances infrastructure projects that benefit all of the cities in the county.

Public Building Commission Fund, utilized for constructing, reconstructing, equipping, and furnishing buildings and facilities to be used as a county courthouse or for Unified Government offices or other Unified Government functions.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended DECEMBER 31, 2015

ENTERPRISE FUNDS

Revenues from user service fees directly fund the five (5) funds contained in the Enterprise Funds.

Sewer System Enterprise Fund, provides financing for Water Pollution Control and is responsible for day-to-day and future operations, routine system maintenance and payment on revenue bonds.

Board of Public Utilities (BPU), is the Unified Government's Utility System managed, operated, maintained and controlled on a day-to-day basis by the Board of Public Utilities, which is an administrative agency of the Unified Government. The BPU operates the water and electric utilities owned by the Unified Government.

Statements for these major enterprise funds are included in the Basic Financial Statements found in the Financial Section of this document. A *comparative* budgetary schedule of the Sewer System Fund is presented here.

NONMAJOR ENTERPRISE FUNDS

Emergency Medical Services Fund, was established on January 1, 2005 to pay for emergency medical services, including ambulance transport, which is provided by the Kansas City, Kansas Fire Department. Primary sources of revenue are a one-fourth cent public safety sales tax, which was passed by Kansas City, Kansas voters on June 8, 2004 and charges for services.

Public Levee Enterprise Fund, expends lease income revenues to pay operation of and improvements to office and warehouse space located in the Fairfax Industrial District. The facility contains approximately 560,000 square feet of industrial and office space on approximately 111 acres.

Stormwater Utility Enterprise Fund, receives revenue from the Stormwater Utility fee that is used to fund the operations, maintenance, capital improvements and debt service for the Unified Government's Municipal Separate Storm Sewer system.

Sunflower Hills Golf Course Fund, established through an interlocal agreement, provides funding for an 18-hole, 192-acre championship golf course and clubhouse facilities. Revenues are generated from greens fees, cart rentals and concessions.

Stadium Fund, created to record the revenues and expenditures related to the operations of a professional baseball stadium acquired by the Unified Government during 2014.

UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended DECEMBER 31, 2015

INTERNAL SERVICE FUNDS

The Internal Service Funds section is comprised of three (3) funds. These funds derive their revenues primarily from other Unified Government units and exist to support the implementation of a function. These funds are:

Workers' Compensation Fund, receives revenue from the Unified Government and pays claims submitted by Unified Government employees related to injuries incurred on the job. The fund also pays for administrative services associated with claims review.

Employees' Hospitalization Fund, receives premium revenue from former employees, from current employees to the extent of their contribution, and from the Unified Government as the employer's share of premiums for health insurance. Expenses include claims paid on behalf of employees and covered dependents, insurance premiums to the Health Plans, administrative services associated with claims review of self-insured plans, and stop-loss insurance premiums for the self-insured plans.

Section 125 – Cafeteria Plan, receives deductions from employees' salary and reimburses employees for expenses related to medical claims or dependent care. All contributions not claimed by employees revert to the Unified Government.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended DECEMBER 31, 2015

AGENCY FUNDS

An Agency Fund holds money for short periods of time operating primarily as a clearing account. All cash balances are offset by amounts due to others.

Agency funds render custodial care to assets pending disbursement to outside entities and include:

- Agency Fund
- ETAC Police Chiefs' Fund
- Fire Insurance
- Kansas State Withholding
- Payroll Deductions
- Register of Deeds
- Sheriff
- Tax Collection
- Tax Distribution
- U.S. Savings Bonds

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended DECEMBER 31, 2015

STATISTICAL SECTION

The Statistical Section presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the city's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the city's financial performance and well-being have changed over time.	152
Revenue Capacity These schedules contain information to help the reader assess the factors affecting the city's ability to generate its property and sales tax.	158
Debt Capacity These schedules present information to help the reader assess the affordability of the city's current levels of outstanding debt and the city's ability to issue additional debt in the future.	167
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the city's financial activities take place and to help make comparisons over time and with other governments.	173
Operating Information These schedules contain information about the city's operations and resources to help the reader understand how the city's financial information relates to the services the city provides and the activities it performs.	175

¹ Real Property Estimated Actual Value is the value assigned by the County Appraiser on taxable property.
² Personal Property Estimated Actual Value and Utilities Estimated Actual Value was calculated using a formula based on assessed rate
³ The total direct tax rate for citizens in the Unified Government varies according to the location of the property and the relation of the various taxing entities within the Unified Government boarders. The total direct tax rate presented represents the rate for property located in City of Kansas City, Kansas, the school district of USD 500 and Drainage District #1. The applicable drainage rates for property on other cities, school districts or drainage districts will vary.
